## Abstracts

It will take 3 working days to update any report and deliver. Old report copy will not be available. We will deliver only updated copies of the reports.

### Carbon Black in Textile Market Trends and Forecast

The future of the carbon black in textile market looks promising with opportunities in the apparel, home textiles, and industrial market. The global carbon black in textile market is expected to reach an estimated \$313.1 million by 2027 with a CAGR of 7.9% from 2021 to 2027. The major drivers for this market are growing demand for polyester fiber from apparels and home textile industry.

### Emerging Trends in the Carbon Black in Textile Market

Emerging trends, which have a direct impact on the dynamics of the industry, include shift from commodity to more specialized grade carbon black, growing usage of recycled and bio-based carbon black.

A total of 105 figures / charts and 32 tables are provided in this 133-page report to help in your business decisions. A sample figure with insights is shown below. To learn the scope of benefits, companies researched, and other details of the carbon black in textile market report, please download the report brochure.

### Carbon Black in Textile Market by Segment

The study includes a forecast for the global carbon black in textile market by product type, end use industry, and region as follows:

Carbon Black in Textile Market by Product Type [Value (\$M) and Volume (Kilotons) shipment analysis for 2016 – 2027]:

Polyester

Nylon

Acrylic

Others

Carbon Black in Textile Market by End Use Industry [Value (\$M) and Volume (Kilotons) shipment analysis for 2016 – 2027]:

Apparel

Home Textiles

Industrial and Others

Carbon Black in Textile Market by Region [Value (\$M) and Volume (Kilotons) shipment analysis for 2016 – 2027]:

North America

o US

o Canada

o Mexico

Europe

o Germany

- o The United Kingdom

- o France

- o Russia

#### Asia Pacific

- o China

- o Japan

- o India

- o South Korea

#### The Rest of the World

- o Brazil

- o Argentina

#### List of Carbon Black in Textile Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies carbon black in textile companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the carbon black in textile companies profiled in this report includes.

Birla Carbon

Orion Engineered Carbons

Cabot Corporation

Philips Carbon Black

Tokai Carbon

## Carbon Black in Textile Market Insight

Lucintel forecasts that the demand for carbon black in polyester fiber is likely to experience the significant growth in the forecast period supported by declining production of cotton as well as increasing cotton prices.

Apparels industry will remain the largest end use segment over the forecast period due to the increasing per capita income, changing life style and growing middle class population are expected to spur growth for this segment over the forecast period.

Asia Pacific is expected to remain the largest market due to the increasing expansion of textile manufacturing facilities in China and India supported with high domestic demand and export of low-cost textile product. Asia Pacific and the North America are expected to witness good growth over the forecast period because of growing demand for synthetic textile fiber.

## Features of Carbon Black in Textile Market

**Market Size Estimates:**Carbon black in textile market size estimation in terms of value (\$M) and volume (kilotons)

**Trend and Forecast Analysis:**Market trends (2016-2021) and forecast (2022-2027) by various segments and regions.

**Segmentation Analysis:**Market size by product type and end use industry.

**Regional Analysis:**Carbon black in textile market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:**Analysis of growth opportunities in different product type,

end use industry, and regions for the carbon black in textile market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the carbon black in textile market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

## FAQ

Q1. What is the carbon black in textile market size?

**Answer:** The global carbon black in textile market is expected to reach an estimated \$313.1 million by 2027

Q2. What is the growth forecast for carbon black in textile market?

**Answer:** The carbon black in textile market is expected to grow at a CAGR of 7.9% from 2021 to 2027.

Q3. What are the major drivers influencing the growth of the carbon black in textile market?

**Answer:** The major drivers for this market are growing demand for polyester fiber from apparels and home textile industry.

Q4. What are the major applications or end use industries for carbon black in textile?

**Answer:** Apparels are the major end use industries for carbon black in textile.

Q5. What are the emerging trends in carbon black in textile market?

**Answer:** Emerging trends, which have a direct impact on the dynamics of the industry, include shift from commodity to more specialized grade carbon black, growing usage of recycled and bio-based carbon black.

Q6. Who are the key carbon black in textile companies?

Answer: Some of the key carbon black in textile companies are as follows:

Birla Carbon

Cabot Corporation

Orion Engineered Carbons

Philips Carbon Black

Tokai Carbon

Q7. Which carbon black in textile product segment will be the largest in future?

Answer: Lucintel predicts that the demand for carbon black in polyester fiber is likely to experience the significant growth in the forecast period supported by declining production of cotton as well as increasing cotton prices. In this market, carbon black is used in polyester, nylon, acrylic and other kind of synthetic fibers.

Q8. In carbon black in textile market, which region is expected to be the largest in next 5 years?

Answer: Asia Pacific is expected to remain the largest region and witness the good growth over next 5 years

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high growth opportunities for the global carbon black in textile market by product type (polyester, nylon, acrylic, and others), end use industry (apparel, home textiles, and industrial and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the market?

Q.5 What are the business risks and threats to the market?

Q.6 What are the emerging trends in this market and the reasons behind them?

Q.7 What are the changing demands of customers in the market?

Q.8 What are the new developments in the market? Which companies are leading these developments?

Q.9 Who are the major players in this market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this area and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M & A activities have taken place in the last 5 years in this market?

## Contents

### 1. EXECUTIVE SUMMARY

### 2. GLOBAL CARBON BLACK IN TEXTILE MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### 3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2016 TO 2027

3.1: Macroeconomic Trends and Forecasts

3.2: Global Carbon Black in Textile Market Trends and Forecast

3.3: Global Carbon Black in Textile Market by Product Type

3.3.1: Polyester

3.3.2: Nylon

3.3.3: Acrylic

3.3.4: Others

3.4: Global Carbon Black in Textile Market by End Use Industry

3.4.1: Apparel

3.4.2: Home Textiles

3.4.3: Industrial and Others

### 4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Carbon Black in Textile Market by Region

4.2: North American Carbon Black in Textile Market

4.2.1: Market by Product Type: Polyester, Nylon, Acrylic, and Others

4.2.2: Market by End Use Industry: Apparel, Home Textiles, Industrial and Others

4.2.3: Carbon Black in the United States Textile Market

4.2.4: Carbon Black in the Canadian Textile Market

4.2.5: Carbon Black in the Mexican Textile Market

4.3: European Carbon Black in Textile Market

4.3.1: Market by Product Type: Polyester, Nylon, Acrylic, and Others

4.3.2: Market by End Use Industry: Apparel, Home Textiles, Industrial and Others

4.3.3: Carbon Black in the German Textile Market

4.3.4: Carbon Black in the French Textile Market

4.3.5: Carbon Black in the United Kingdom Textile Market

#### 4.4: APAC Carbon Black in Textile Market

4.4.1: Market by Product Type: Polyester, Nylon, Acrylic, and Others

4.4.2: Market by End Use Industry: Apparel, Home Textiles, Industrial and Others

4.4.3: Carbon Black in the Chinese Textile Market

4.4.4: Carbon Black in the Japanese Textile Market

4.4.5: Carbon Black in the Indian Textile Market .

4.4.6: Carbon Black in the South Korean Textile Market

#### 4.5: ROW Carbon Black in Textile Market

4.5.1: Market by Product Type: Polyester, Nylon, Acrylic, and Others

4.5.2: Market by End Use Industry: Apparel, Home Textiles, Industrial and Others

### **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Market Share Analysis

5.3: Operational Integration

5.4: Geographical Reach

5.5: Porter's Five Forces Analysis

### **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Carbon Black in Textile Market by Product Type

6.1.2: Growth Opportunities for the Global Carbon Black in Textile Market by End Use Industry

6.1.3: Growth Opportunities for the Global Carbon Black in Textile Market by Region

6.2: Emerging Trends in the Global Carbon Black in Textile Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Mergers and Acquisitions

### **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: Birla Carbon

7.2: Orion Engineered Carbons

7.3: Cabot Corporation

7.4: Philips Carbon Black

7.5: Tokai Carbon

## I would like to order

Product name: Carbon Black in Textile Market: Trends, Opportunities and Competitive Analysis

Product link: <https://marketpublishers.com/r/CD49C8C14CC5EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)
