Some of the cardiac biomarker companies profiled in this report include Roche Diagnostics, Abbott Laboratories, Siemens Healthcare, Alere, Becton, Dickinson and Company, Bio-Rad Laboratories, BioMerieux, Randox Laboratories, Beckman Coulter, and Thermo Fisher Scientific.

Lucintel forecasts that troponins will remain the largest type segment over the forecast period due to its ability to detect the cardiac events of acute coronary syndrome (ACS) more accurately than other tests.

Within this market, point-of-care (POC) will remain the largest segment by location of testing over the forecast period due to its feature of easy to handle, user friendly, high accuracy, quick outcomes, and economic pricing.

North America will remain the largest region over the forecast period due to rising awareness of cardiac diagnostics solutions, increasing geriatric population, and increasing incidence of coronary heart diseases in the region.
