Carrier Rocket Trends and Forecast

The future of the global carrier rocket market looks promising with opportunities in the government and commercial markets. The global carrier rocket market is expected to reach an estimated \$25.5 billion by 2030 with a CAGR of 10.4% from 2024 to 2030. The major drivers for this market are growing need for compact satellites for earth observation services and expanding number of space missions.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Carrier Rocket by Segment

The study includes a forecast for the global carrier rocket by payload type, range, end use, and region.

Carrier Rocket Market by Payload Type [Shipment Analysis by Value from 2018 to 2030]:

Cargo

Satellite

Others

Carrier Rocket Market by Range [Shipment Analysis by Value from 2018 to 2030]:

LEO

MEO

GEO

Others

Carrier Rocket Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Government

Commercial

Carrier Rocket Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Carrier Rocket Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies carrier rocket companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the carrier rocket

companies profiled in this report include-

Antrix

IHI Corporation

CubeCab

SpaceX

Rocket Lab

Israel Aerospace Industries

Arianespace

Lockheed Martin

Mitsubishi Heavy Industries

Northrop Grumman

Carrier Rocket Market Insights

Lucintel forecasts that satellite will remain larger segment over the forecast period.

Within this market, commercial is expected to witness higher growth over the forecast period.

APAC is expected to witness the highest growth over the forecast period.

Features of the Global Carrier Rocket Market

Market Size Estimates: Carrier rocket market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Carrier rocket market size by payload type, range, end use, and region in terms of value (\$B).

Regional Analysis: Carrier rocket market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different payload types, ranges, end uses, and regions for the carrier rocket market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the carrier rocket market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the carrier rocket market size?

Answer: The global carrier rocket market is expected to reach an estimated \$25.5 billion by 2030.

Q2. What is the growth forecast for carrier rocket market?

Answer: The global carrier rocket market is expected to grow with a CAGR of 10.4% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the carrier rocket market?

Answer: The major drivers for this market are growing need for compact satellites for earth observation services and expanding number of space missions.

Q4. What are the major segments for carrier rocket market?

Answer: The future of the carrier rocket market looks promising with opportunities in the government and commercial markets.

Q5. Who are the key carrier rocket market companies?

Answer: Some of the key carrier rocket companies are as follows:

Antrix

IHI Corporation

CubeCab

SpaceX

Rocket Lab

Israel Aerospace Industries

Arianespace

Lockheed Martin

Mitsubishi Heavy Industries

Northrop Grumman

Q6. Which carrier rocket market segment will be the largest in future?

Answer: Lucintel forecasts that satellite will remain larger segment over the forecast period.

Q7. In carrier rocket market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness the highest growth over the forecast period.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the carrier rocket market by payload type (cargo, satellite, and others), range (LEO, MEO, GEO, and others), end use (government and commercial), and region (North America,

Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
