Composites Coating Market Trends and Forecast

The future of the composites coating market looks promising with opportunities in the aerospace & defense, industrial, medical, food industry, oil & gas, and transportation industries. The global composites coating market is expected to grow with a CAGR of 7% to 9% from 2023 to 2028. The major drivers for this market are growing demand in the construction and transportation industry for self-lubricating composites coating that resist corrosion and growing interest in technical developments in high-tech installations in the packaging industry is driving up demand for composite coating.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched and other details of the global composites coating market report, please download the report brochure.

Composites Coating Market by Segment

The study includes a forecast for the global composites coating market composites coating by technique, application, resin, end use industry, and region, as follows:

Composites Coating Market by Technique [Value (\$B) Shipment Analysis from 2017 to 2028]:

Brazing

Electro Less Plating

Laser Melt Injection

Others

Composites Coating Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Anti-corrosion

Thermal Protection

UV Protection

Others

Composites Coating Market by Resin [Value (\$B) Shipment Analysis from 2017 to 2028]:

Polyester

Polyamide

Epoxy

Others

Composites Coating Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Aerospace & Defense

Industrial

Medical

Food Industry

Oil & Gas

Transportation

Others

Composites Coating Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Composites Coating Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies composites coating companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the composite coatings' companies profiled in this report include.

Akzo Nobel

PPG Industries

The Sherwin-Williams Company

RPM International

Aztron Technologies

Axalta Coating Systems

M?der

Composites Coating Market Insights

Lucintel forecasts that anti-corrosion will remain the largest segment over the forecast period due to the growing demand in oil and gas sector for composite coating with anti-corrosive properties.

Oil & gas is expected to remain the largest segment due to the increasing need for composite coating to provide shields that lengthen the durability and shelf life of equipment including pipelines, boats, and subsea machinery in the oil and gas industry.

North America will remain the largest region due to the increasing usage by application of aerospace and defense industry and rising demand for low volatile organic compounds (VOC) coatings as consumers become more concerned with their health and safety.

Features of the Composites Coating Market

Market Size Estimates: Composites coating market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Composites coating market size by various segments, such as by technique, application, resin, end use industry, and region

Regional Analysis: Composites coating market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by technique, application, resin, end use industry, and regions for the composites coating market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the composites coating market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the composites coating market size?

Answer: The global composites coating market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for composites coating market?

Answer: The global composites coating market is expected to grow with a CAGR of 7% to 9% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the composites coating market?

Answer: The major drivers for this market are growing demand in the construction and transportation industry for self-lubricating composites coating that resist corrosion and growing interest in technical developments in high-tech installations in the packaging industry is driving up demand for composite coating.

Q4. What are the major segments for composites coating market?

Answer: The future of the composites coating market looks promising with opportunities in the aerospace & defense, industrial, medical, food industry, oil & gas, and transportation industries.

Q5. Who are the key composites coating companies?

Answer: Some of the key composite coatings' companies are as follows:

Akzo Nobel

PPG Industries

The Sherwin-Williams Company

RPM International

Aztron Technologies

Axalta Coating Systems

M?der

Q6. Which composites coating segment will be the largest in future?

Answer: Lucintel forecasts that anti-corrosion will remain the largest segment over the forecast period due to the growing demand in oil and gas sector for composite coating with anti-corrosive properties.

Q7. In composites coating market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region due to the increasing usage by application of aerospace and defense industry and rising demand for low volatile organic compounds (VOC) coatings as consumers become more concerned with their health and safety.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the

composites coating market by technique (brazing, electro less plating, laser melt injection, and others), application (anti-corrosion, thermal protection, UV protection, and others), resin (polyester, polyamide, epoxy and others), end use industry (aerospace & defense, industrial, medical, food industry, oil & gas, transportation, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to composites coating market or related to composites coating companies, composites coating market size, composites coating market share, composites coating analysis, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL COMPOSITES COATING MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Composites Coating Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Composites Coating Market by Technique

3.3.1: Brazing

3.3.2: Electro Less Plating

3.3.3: Laser Melt Injection

3.3.4: Others

3.4: Global Composites Coating Market by Application

3.4.1: Anti-Corrosion

3.4.2: Thermal Protection

3.4.3: UV Protection

3.4.4: Others

3.5: Global Composites Coating Market by Resin

3.5.1: Polyester

3.5.2: Polyamide

3.5.3: Epoxy

3.5.4: Others

3.6: Global Composites Coating Market by End Use Industry

3.6.1: Aerospace & Defense

3.6.2: Industrial

3.6.3: Medical

3.6.4: Food Industry

3.6.5: Oil & Gas

3.6.6: Transportation

3.6.7: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017-2028

4.1: Global Composites Coating Market by Region

4.2: North American Composites Coating Market

4.2.1: North American Composites Coating Market by Application: Anti-Corrosion, Thermal Protection, UV Protection, and Others

4.2.2: North American Composites Coating Market by End Use Industry: Aerospace & Defense, Industrial, Medical, Food Industry, Oil & Gas, Transportation, and Others

4.3: European Composites Coating Market

4.3.1: European Composites Coating Market by Application: Anti-Corrosion, Thermal Protection, UV Protection, and Others

4.3.2: European Composites Coating Market by End Use Industry: Aerospace & Defense, Industrial, Medical, Food Industry, Oil & Gas, Transportation, and Others

4.4: APAC Composites Coating Market

4.4.1: APAC Composites Coating Market by Application: Anti-Corrosion, Thermal Protection, UV Protection, and Others

4.4.2: APAC Composites Coating Market by End Use Industry: Aerospace & Defense, Industrial, Medical, Food Industry, Oil & Gas, Transportation, and Others

4.5: ROW Composites Coating Market

4.5.1: ROW Composites Coating Market by Application: Anti-Corrosion, Thermal Protection, UV Protection, and Others

4.5.2: ROW Composites Coating Market by End Use Industry: Aerospace & Defense, Industrial, Medical, Food Industry, Oil & Gas, Transportation, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Composites Coating Market by Technique

6.1.2: Growth Opportunities for the Global Composites Coating Market by Application

6.1.3: Growth Opportunities for the Global Composites Coating Market by Resin

6.1.4: Growth Opportunities for the Global Composites Coating Market by End Use Industry

6.1.5: Growth Opportunities for the Global Composites Coating Market by Region

6.2: Emerging Trends in the Global Composites Coating Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Composites Coating Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Composites coating Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Akzo Nobel

7.2: PPG Industries

7.3: The Sherwin-Williams Company

7.4: RPM International

7.5: AZTRON TECHNOLOGIES

7.6: Axalta Coating Systems

7.7: M?der
