Computer and Peripherals in the PCB Market Trends and Forecast

The future of computer and peripherals in the global PCB market looks promising with opportunities in the residential and commercial market. Computer and peripherals in the global PCB market is expected to reach an estimated \$27.4 billion by 2028 with a CAGR of 6.0% from 2023 to 2028. The major drivers for this market are growing demand for external storage devices, increasing usage of computers/peripherals in offices, the educational field, and other application areas, and reduction in prices of consumer peripheral devices.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Computer and Peripherals in the PCB Market by Segment

The study includes a forecast for computer and peripherals in the global PCB market by connectivity, end use industry, and region, as follows:

Computer and Peripherals in the PCB Market by Connectivity [Value (\$B) Shipment Analysis from 2017 to 2028]:

Wireless

Wired

Computer and Peripherals in the PCB Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Residential

Commercial

Computer and Peripherals in the PCB Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Computer and Peripherals in the PCB Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies computer and peripherals in the PCB companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of computer and peripherals in the PCB companies profiled in this report include.

Zhen Ding Technology Holding

NOK Corporation

TTM Technologies

Unimicron Technology

Compeq Manufacturing

Young Poong Electronics

Samsung Electro-Mechanics

Tripod Technology

Ibiden

Computer and Peripherals in the PCB Market Insights

Lucintel forecasts that wireless is expected to remain the larger segment over the forecast period due to growing investment in technologically advanced and ergonomic computer peripheral devices and increasing desire for wireless and smart peripherals towards consumers owing to its benefits like interoperability and usability.

Within this market, commercial is expected to remain largest segment over the forecast period due to increasing demand of additional computer peripherals from business organizations to speed up their work and improve their overall productivity.

North America will remain the largest region due to rapid digitalization and increasing investments in computer gaming gear in countries like the U.S. and Canada.

Features of Computer and Peripherals in the PCB Market

Market Size Estimates: Computer and Peripherals in the global PCB market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Computer and Peripherals in the global PCB market size by various segments, such as by connectivity, end use industry, and region

Regional Analysis: Computer and Peripherals in the global PCB market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by connectivity, end use industry, and regions for computer and peripherals in the PCB market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for computer and peripherals in the PCB market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is computer and peripherals in the PCB market size?

Answer: Computer and peripherals in the global PCB market is expected to reach an estimated \$27.4 billion by 2028.

Q2. What is the growth forecast for computer and peripherals in the PCB market?

Answer: Computer and peripherals in the global PCB market is expected to grow with a CAGR of 6.0% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of computer and peripherals in the PCB market?

Answer: The major drivers for this market are growing demand for external storage devices, increasing usage of computers/peripherals in offices, the educational field, and other application areas, and reduction in prices of consumer peripheral devices.

Q4. What are the major segments for computer and peripherals in the PCB market?

Answer: The future of computer and peripherals in the global PCB market looks

promising with opportunities in the residential and commercial market.

Q5. Who is the key computer and peripherals in the PCB companies?

Answer: Some of the key computer and peripherals in the PCB companies are as follows:

Zhen Ding Technology Holding

NOK Corporation

TTM Technologies

Unimicron Technology

Compeq Manufacturing

Young Poong Electronics

Samsung Electro-Mechanics

Tripod Technology

Ibiden

Q6. Which computer and peripherals in the PCB segment will be the largest in future?

Answer: Lucintel forecasts that wireless is expected to remain the larger segment over the forecast period due to growing investment in technologically advanced and ergonomic computer peripheral devices and increasing desire for wireless and smart peripherals towards consumers owing to its benefits like interoperability and usability.

Q7. In computer and peripherals in the PCB market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region due to rapid digitalization and increasing investments in computer gaming gear in countries like the U.S. and Canada.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for IC substrate in PCB market by connectivity (wireless and wired), end use industry (residential and commercial), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to computer and peripherals in the global market or related to computer and peripherals in the global PCB companies, computer and peripherals in the global PCB market size, computer and peripherals in the global PCB market share, computer and peripherals in the global PCB market analysis, computer and peripherals in the global PCB market growth, computer and peripherals in the global PCB market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. COMPUTER AND PERIPHERALS IN THE GLOBAL PCB MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Computer and Peripherals in the Global PCB Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Computer and Peripherals in the Global PCB Market by Connectivity

3.3.1: Wireless

3.3.2: Wired

3.4: Computer and Peripherals in the Global PCB Market by End Use Industry

3.4.1: Residential

3.4.2: Commercial

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Computer and Peripherals in the Global PCB Market by Region

4.2: Computer and Peripherals in the North American PCB Market

4.2.1: Computer and Peripherals in the North American PCB Market by Connectivity: Wireless and Wired

4.2.2: Computer and Peripherals in the North American PCB Market by End Use Industry: Residential and Commercial

4.3: Computer and Peripherals in the European PCB Market

4.3.1: Computer and Peripherals in the European PCB Market by Connectivity: Wireless and Wired

4.3.2: Computer and Peripherals in the European PCB Market by End Use Industry: Residential and Commercial

4.4: Computer and Peripherals in the APAC PCB Market

4.4.1: Computer and Peripherals in the APAC PCB Market by Connectivity: Wireless

and Wired

4.4.2: Computer and Peripherals in the APAC PCB Market by End Use Industry:
Residential and Commercial

4.5: Computer and Peripherals in the ROW PCB Market

4.5.1: Computer and Peripherals in the ROW PCB Market by Connectivity: Wireless
and Wired

4.5.2: Computer and Peripherals in the ROW PCB Market by End Use Industry:
Residential and Commercial

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for Computer and Peripherals in the Global PCB Market
by Connectivity

6.1.2: Growth Opportunities for Computer and Peripherals in the Global PCB Market
by End Use Industry

6.1.3: Growth Opportunities for Computer and Peripherals in the Global PCB Market
by Region

6.2: Emerging Trends of Computer and Peripherals in the Global PCB Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of Computer and Peripherals in the Global PCB Market

6.3.3: Mergers, Acquisitions, and Joint Ventures of Computer and Peripherals in the
Global PCB Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Zhen Ding Technology Holding

7.2: NOK Corporation

7.3: TTM Technologies

7.4: Unimicron Technology

7.5: Compeq Manufacturing

- 7.6: Young Poong Electronics
- 7.7: Samsung Electro-Mechanics
- 7.8: Tripod Technology
- 7.9: Ibiden
