### Concrete Admixture Construction Chemical Market Trends and Forecast

The future of the global concrete admixture construction chemical market looks promising with opportunities in the residential construction, commercial construction, industrial commercial, and infrastructure markets. The global concrete admixtures construction chemical market is expected to reach an estimated \$15.4 billion by 2028 with a CAGR of 6.5% from 2023 to 2028. The major drivers for this market are growth in the construction sector, rise in advanced infrastructural properties, and increasing public interest towards its housing repair works.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Concrete Admixture Construction Chemical Market by Segment

The study includes a forecast for the global concrete admixture construction chemical market by admixture type, end use industry, and region, as follows:

Concrete Admixture Construction Chemical Market by Admixture Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Water Reducing

## High Range Water Reducing

Accelerators

Alkali/Alkali Free

Air Entraining

Concrete Admixture Construction Chemical Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Residential Construction

Commercial Construction

Industrial Commercial

Infrastructure

Concrete Admixture Construction Chemical Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

## List of Concrete Admixture Construction Chemical Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies concrete admixture construction chemical companies cater

increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the concrete admixture construction chemical companies profiled in this report include.

BASF

Sika AG

Yara International

Normet Group

CEMEX

Bostik

## Concrete Admixture Construction Chemical Market Insights

Lucintel forecast that high range water reducing segment will remain the largest segment over the forecast period due to its water-reducing, strength enhancement, durability, and plasticizing properties.

Residential construction segment will remain the largest segment over the forecast period due to rise in the construction sector and growing public interest towards buying luxury homes for comfort and privacy.

APAC will remain the largest region due to growing construction industry, rapid infrastructural development, and rising demand for affordable houses in this region.

## Features of the Concrete Admixture Construction Chemical Market

Market Size Estimates: Concrete admixture construction chemical market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

**Segmentation Analysis:** Concrete admixture construction chemical market size by various segments, such as by admixture type, end use industry, and region.

**Regional Analysis:** Concrete admixture construction chemical market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different by admixture type, end use industry, and regions for the concrete admixture construction chemical market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the concrete admixture construction chemical market.

**Analysis of competitive intensity of the industry based on Porter's Five Forces model.**

## FAQ

**Q1. What is the concrete admixture construction chemical market size?**

**Answer:** The global concrete admixture construction chemical market is expected to reach an estimated \$15.4 billion by 2028.

**Q2. What is the growth forecast for concrete admixture construction chemical market?**

**Answer:** The global concrete admixture construction chemical market is expected to grow with a CAGR of 6.5% from 2023 to 2028.

**Q3. What are the major drivers influencing the growth of the concrete admixture construction chemical market?**

**Answer:** The major drivers for this market are growth in the construction sector, rise in advanced infrastructural properties, and increasing public interest towards its housing repair works.

**Q4. What are the major segments for concrete admixture construction chemical market?**

Answer: The future of the concrete admixture construction chemical market looks promising with opportunities in the residential construction, commercial construction, industrial commercial, and infrastructure markets.

Q5. Who are the key concrete admixture construction chemical companies?

Answer: Some of the key concrete admixture construction chemical companies are as follows:

BASF

Sika AG

Yara International

Normet Group

CEMEX

Bostik

Q6. Which concrete admixture construction chemical segment will be the largest in future?

Answer: Lucintel forecast that high range water reducing segment will remain the largest segment over the forecast period due to its water-reducing, strength enhancement, durability, and plasticizing properties.

Q7. In concrete admixture construction chemical market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to growing construction industry, rapid infrastructural development, and rising demand for affordable houses in this region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

- Q.1. What are some of the most promising, high-growth opportunities for the concrete admixture construction chemical market by admixture type (water reducing, high range water reducing, accelerators, alkali/alkali free, air entraining, water resisting, admixtures for mortars & grouts, and retarding admixtures), end use industry (residential construction, commercial construction, industrial commercial, and infrastructure), and region (North America, Europe, Asia Pacific, and the Rest of the World)?
- Q.2. Which segments will grow at a faster pace and why?
- Q.3. Which region will grow at a faster pace and why?
- Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?
- Q.5. What are the business risks and competitive threats in this market?
- Q.6. What are the emerging trends in this market and the reasons behind them?
- Q.7. What are some of the changing demands of customers in the market?
- Q.8. What are the new developments in the market? Which companies are leading these developments?
- Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?
- Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?
- Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to concrete admixture construction chemical market or related to concrete admixture construction chemical companies, concrete admixture construction chemical market size, concrete admixture construction chemical market share, concrete admixture construction chemical analysis, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com) we will be glad to get back to you soon.

## Contents

### 1. EXECUTIVE SUMMARY

### 2. GLOBAL CONCRETE ADMIXTURE CONSTRUCTION CHEMICAL MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### 3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Concrete Admixture Construction Chemical Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Concrete Admixture Construction Chemical Market by Admixture Type

3.3.1: Water Reducing

3.3.2: High Range Water Reducing

3.3.3: Accelerators

3.3.4: Alkali/Alkali Free

3.3.5: Air Entraining

3.4: Global Concrete Admixture Construction Chemical Market by End Use Industry

3.4.1: Residential Construction

3.4.2: Commercial Construction

3.4.3: Industrial Commercial

3.4.4: Infrastructure

### 4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017-2028

4.1: Global Concrete Admixture Construction Chemical Market by Region

4.2: North American Concrete Admixture Construction Chemical Market

4.2.1: North American Concrete Admixture Construction Chemical Market by Admixture Type

4.2.2: North American Concrete Admixture Construction Chemical Market by End Use Industry

4.3: European Concrete Admixture Construction Chemical Market

4.3.1: European Concrete Admixture Construction Chemical Market by Admixture Type

4.3.2: European Concrete Admixture Construction Chemical Market by End Use Industry

4.4: APAC Concrete Admixture Construction Chemical Market

4.4.1: APAC Concrete Admixture Construction Chemical Market by Admixture Type

4.4.2: APAC Concrete Admixture Construction Chemical Market by End Use Industry

4.5: ROW Concrete Admixture Construction Chemical Market

4.5.1: ROW Concrete Admixture Construction Chemical Market by Admixture Type

4.5.2: ROW Concrete Admixture Construction Chemical Market by End Use Industry

## **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

## **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Concrete Admixture Construction Chemical Market by Admixture Type

6.1.2: Growth Opportunities for the Global Concrete Admixture Construction Chemical Market by End use industry

6.1.3: Growth Opportunities for the Global Concrete Admixture Construction Chemical Market by Region

6.2: Strategic Analysis

6.2.1: New Product Development

6.2.2: Capacity Expansion of the Global Concrete Admixture Construction Chemical Market

6.2.3: Mergers, Acquisitions, and Joint Ventures in the Global Concrete Admixture Construction Chemical Market

6.2.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: BASF

7.2: Sika AG

7.3: Yara International

7.4: Normet Group

7.5: CEMEX

## 7.6: Bostik

## I would like to order

Product name: Concrete Admixture Construction Chemical Market: Trends, Opportunities and Competitive Analysis [2023-2028]

Product link: <https://marketpublishers.com/r/C8D579FEA64BEN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
