Abstracts

Conductive Additive for Coating Market Trends and Forecast

The future of the conductive additive for coating market looks promising with opportunities in the automotive, consumer electronics, and other markets. The global conductive additive for coating market is expected to grow at a CAGR of 5% to 7% from 2023 to 2028. The major growth drivers for this market are increasing demand for electrically conductive coatings in various applications, such as consumer electronics and automotive industries and rise in electromagnetic pollution.

Conductive Additive for Coating Market by Product, Polymer, and End Use Industry

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the global conductive additive for coating market report, please download the report brochure.

Conductive Additive for Coating Market by Segments

Conductive Additive for Coating Market by Segment

The study includes a forecast for the global conductive additive for coating market by product type, polymer type, end use industry, and region as follows:

Conductive Additive for Coating Market by Product Type [Value (\$M) Shipment Analysis from 2017 to 2028]:

Carbon Black

Carbon Nanotube

Silver

Others

Conductive Additive for Coating Market by Polymer Type [Value (\$M) Shipment Analysis from 2017 to 2028]:

Epoxy

Acrylic

Polyurethane

Polyester

Others

Conductive Additive for Coating Market by End Use Industry [Value (\$M) Shipment Analysis from 2017 to 2028]:

Automotive.

Consumer Electronics

Others

Conductive Additive for Coating Market by Region [Value (\$M) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Conductive Additive for Coating Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies conductive additive for coating companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the conductive additive for coating companies profiled in this report includes.

Arkema

Nanocyl

Continental Carbon Nanotechnologies

OCSiAl

Johnson Matthey

Ferro Corporation

LEONI

Birla Carbon

Orion Engineered Carbons

Cabot Corporation

Conductive Additive for Coating Market Insights

Asia Pacific will remain the largest region by value over the forecast period supported by growth in demand for displays and electronics in emerging economies, such as China, India, South Korea, and Japan.

Features of Conductive Additive for Coating Market

Market Size Estimates: Conductive additive for coating market size estimation in terms of value (\$M)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Conductive additive for coating market size by product type, polymer type, and end use industry

Regional Analysis: Conductive additive for coating market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different product type, polymer type, end use industry, and regions for the conductive additive for coating market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the conductive additive for coating market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the conductive additive for coating market size?

Answer: The global conductive additive for coating market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for conductive additive for coating market?

Answer: The conductive additive for coating market is expected to grow at a CAGR of 5%-7% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the conductive additive for coating market?

Answer: The major growth drivers for this market are increasing demand for electrically conductive coatings in various applications, such as consumer electronics and automotive industries and rise in electromagnetic pollution.

Q4. What are the major applications or end use industries for conductive additive for coating?

Answer: The future of the conductive additive for coating market looks promising with opportunities in the automotive, consumer electronic, and other markets.

Q5. Who are the key conductive additive for coating companies?

Answer: Some of the key conductive additive for coating companies are as follows:

Arkema

Nanocyl

Continental Carbon Nanotechnologies

OCSiAl

Johnson Matthey

Ferro Corporation

LEONI

Birla Carbon

Orion Engineered Carbons

Cabot Corporation

Q6: In conductive additive for coating market, which region is expected to be the largest in next 5 years?

Answer: Asia Pacific will remain the largest region by value over the forecast period supported by growth in demand for displays and electronics in emerging economies, such as China, India, South Korea, and Japan.

Q7. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising potential, high growth opportunities for the global conductive additive for coating market by product type (carbon black, carbon nanotube, silver, and others), polymer type (epoxy, acrylic, polyurethane, polyester, and others), end use industry (automotive, consumer electronics, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q. 2. Which segments will grow at a faster pace and why?

Q.3. Which regions will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the drivers and challenges of the market?

Q.5. What are the business risks and threats to the market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are being implemented by key players for business growth?

Q.10. What are some of the competitive products and processes in this area and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11. What M & A activities have taken place in the last 5 years in this market?

For any questions related to conductive additive for coating market or related conductive additive for coating companies, conductive additive for coating market size, conductive additive for coating market share, conductive additive for coating analysis

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Conductive Additive for Coating Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Conductive Additive for Coating Market by Product Type

3.3.1: Carbon Black

3.3.2: Carbon Nanotube

3.3.3: Silver

3.3.4: Others

3.4: Global Conductive Additive for Coating Market by Polymer Type

3.4.1: Epoxy

3.4.2: Acrylic

3.4.3: Polyurethane

3.4.4: Polyester

3.4.5: Others

3.5: Global Conductive Additive for Coating Market by End Use Industry

3.5.1: Automotive

3.5.2: Consumer Electronics

3.5.3: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Global Conductive Additive for Coating Market by Region

4.2: North American Conductive Additive for Coating Market

4.2.1: Market by Product Type: Carbon Black Carbon Nanotubes, Silver, and Others

4.2.2: Market by End Use Industry: Automotive, Consumer Electronics, and Others

4.3: European Conductive Additive for Coating Market

- 4.3.1: Market by Product Type: Carbon Black Carbon Nanotubes, Silver, and Others
- 4.3.2: Market by End Use Industry: Automotive, Consumer Electronics, and Others
- 4.4: APAC Conductive Additive for Coating Market
 - 4.4.1: Market by Product Type: Carbon Black Carbon Nanotubes, Silver, and Others
 - 4.4.2: Market by End Use Industry: Automotive, Consumer Electronics, and Others
- 4.5: ROW Conductive Additive for Coating Market
 - 4.5.1: Market by Product Type: Carbon Black Carbon Nanotubes, Silver, and Others
 - 4.5.2: Market by End Use Industry: Automotive, Consumer Electronics, and Others

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Geographical Reach
- 5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for the Global Conductive Additive for Coating Market by Product Type
 - 6.1.2: Growth Opportunities for the Global Conductive Additive for Coating Market by Polymer Type
 - 6.1.3: Growth Opportunities for the Global Conductive Additive for Coating Market by End Use Industry
 - 6.1.4: Growth Opportunities for the Global Conductive Additive for Coating Market by Region
- 6.2: Emerging Trends in the Global Conductive Additive for Coating Market
- 6.3: Strategic Analysis
 - 6.3.1: New Product Development
 - 6.3.2: Capacity Expansion of the Global Conductive Additive for Coating Market
 - 6.3.3: Mergers and Acquisitions, and Joint Ventures in the Global Conductive Additive for Coating Industry

7. COMPANY PROFILES OF LEADING PLAYERS

- 7.1: Birla Carbon
- 7.2: Orion Engineered Carbons
- 7.3: Cabot Corporation
- 7.4: Arkema

- 7.5: Nanocyl
- 7.6: Continental Carbon Nanotechnologies
- 7.7: OCSiAl
- 7.8: Johnson Matthey
- 7.9: Ferro Corporation
- 7.10: LEONI
