The future of the construction chemical market looks promising with opportunities in the residential, non-residential, and other industries. The global construction chemical market is expected to grow with a CAGR of 6% to 8% from 2021 to 2026. The major drivers for this market are growth in the chemical industry and growing infrastructural developments.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of Construction Chemical market report download the report brochure.

The study includes trends and forecast for the global construction chemical market by product type, application, and region as follows:

By Product Type [Volume (Kilotons) and \$M shipment analysis for 2015 – 2026]:

Concrete Admixtures

Water Proofing & Roofing

Repair

Flooring

Sealants & Adhesives

Other Chemicals

By Application [Volume (Kilotons) and \$M shipment analysis for 2015 – 2026]:

Residential

Non-Residential

Others

By Region [Volume (Kilotons) and \$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Concrete admixtures will remain the largest product type segment over the forecast period due to rising residential complexes and buildings.

Residential will remain the largest application segment during the forecast period due to growth in the building and construction industry and increasing demand for waterproofing in residential construction.

Asia Pacific will remain the largest region over the forecast period due to growth in residential and non-residential construction, supported by increasing disposable income, changing life style, and rise in urbanization.

Some of the major construction chemical manufacturers are BASF, W.R. Grace, RPM International, Sika, Fosroc International, The Dow Chemical Company, Arkema, Ashland, Mapei, and Pidilite Industries.

Features of Construction Chemical Market

Market Size Estimates: Construction chemical market size estimation in terms of value (\$M) and volume (kilotons)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Market size by product type and application

Regional Analysis: Construction chemical market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different product type, application, and regions for construction chemical market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the Construction Chemical market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

- Q.1 What are some of the most promising potential, high-growth opportunities for the global Construction Chemical market by product type (concrete admixtures, water proofing, repair, flooring, adhesives & sealants, and other chemicals), application (residential, non-residential, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?
- Q.2 Which segments will grow at a faster pace and why?
- Q.3 Which regions will grow at a faster pace and why?
- Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the construction chemical market?
- Q.5 What are the business risks and threats to the construction chemical market?
- Q.6 What are the emerging trends in the construction chemical market and the reasons behind them?
- Q.7 What are some changing demands of customers in the construction chemical market?
- Q.8 What are the new developments in the construction chemical market? Which companies are leading these developments?
- Q.9 Who are the major players in the construction chemical market? What strategic initiatives are being implemented by key players for business growth?
- Q.10 What are some of the competitive products and processes in the construction chemical market, and how big of a threat do they pose for loss of market share via material or product substitution?
- Q.11 What M&A activities did take place in the last five years in the construction chemical market?

Market by Product Type
Market by Application

5. COMPETITOR ANALYSIS

Product Portfolio Analysis
Geographical Reach
Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

Growth Opportunity Analysis
Growth Opportunities for the Global Construction Chemical Market by Product Type
Growth Opportunities for the Global Construction Chemical Market by Application
Growth Opportunities for the Global Construction Chemical Market by Region
Emerging Trends in the Global Construction Chemical Market
Strategic Analysis
New Product Development
Capacity Expansion of the Global Construction Chemical Market
Technology Development
Mergers and Acquisitions in the Global Construction Chemical Industry

7. COMPANY PROFILES OF LEADING PLAYERS

Zhejiang Great Wall Mixers
Mixer Direct Inc.
Ekat Holdings GmbH
