Construction Industry Trends and Forecast

The future of the global construction industry looks promising with opportunities in the residential, non-residential, and infrastructure building sectors. The global construction industry is forecast to reach \$13.2 trillion by 2027 with a CAGR of 6.1% from 2022 to 2027. The major drivers for the growth of this market are increasing housing starts and rising infrastructure due to increasing urbanization and growing population.

Emerging Trends in Construction Industry

Emerging trends, which have a direct impact on the dynamics of the construction industry, include increasing demand for green construction to reduce carbon footprint, bridge lock-up device systems to enhance the life of structures, building information systems for efficient building management, and use of fiber-reinforced polymer composites for rehabilitation of aging structure.

This report of less than 200 pages has been developed to help in your business decisions. A sample figure with some insights is shown below. To learn the scope of, benefits, companies researched, and other details of construction industry report, please download the report brochure.

Construction Market by Segment

In this industry, Residential is the largest segment by Type.

The study includes trends and forecast for the global construction industry by type and region, as follows:

Construction Industry by Type [\$B shipment analysis for 2016 – 2027]:

Residential

Non-Residential

o Healthcare

o Education

o Hospitality

o Retail

o Office

Infrastructure

o Transport Infrastructure

o Roads and Bridges

o Power and Energy

o Water and Wastewater

o Others

Construction Industry by Region [\$B shipment analysis for 2016 – 2027]:

North America

o United States

o Canada

o Mexico

Europe

o Germany

o France

o United Kingdom

o Russia

o Spain

o Italy

APAC

o China

o Japan

o India

ROW

o Brazil

o UAE

List of Construction Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, construction companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the construction companies profiled in this report include-

China Railway Group Limited

China Railway Construction Corp. Limited

China Communications Construction

Grupo ACS

China State Construction Engineering

Vinci

Bouygues

HOCHTIEF

Metallurgical Corporation of China

Construction Industry Insights

Within this market, residential construction will remain the largest segment, and it is also expected to witness the highest growth over the forecast period due to rising per capita income and higher disposable income.

Asia Pacific will remain the largest region due to increasing urbanization and higher expenditure on infrastructural development in this region. Growing population, increasing consumer spending, and affordable housing financing solutions in developing countries, such as India and China, are driving the construction industry in this region.

Features of Global Construction Industry

Market size estimates: Construction industry size estimation in terms of value (\$B) shipment.

Trend and forecast analysis: Market trends (2016-2021) and forecast (2022-2027) by segment and region.

Segment analysis: Construction industry size by type

Regional analysis: Construction industry breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth opportunities: Analysis on growth opportunities in different types and regions for construction.

Strategic analysis: This includes M&A, new product development, and competitive landscape for construction industry.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the construction industry size?

Answer: The global construction industry is expected to reach an estimated \$13.2 trillion by 2027.

Q2. What is the growth forecast for construction industry?

Answer: The construction industry is expected to grow at a CAGR of ~4.9% from 2022 to 2027.

Q3. What are the major drivers influencing the growth of the construction industry?

Answer: The major drivers for this market are increasing housing starts and rising infrastructure due to increasing urbanization and growing population.

Q4. What are the major types for the construction industry?

Answer: Residential, non-residential, and infrastructure are the major types of construction.

Q5. What are the emerging trends in construction industry?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include increasing demand for green construction to reduce carbon footprint, building information systems for efficient building management, and use of fiber-reinforced polymer composites for rehabilitation of aging structure.

Q6. Who are the key construction companies?

Answer: Some of the key construction companies are as follows:

China Railway

China Railway Construction

China Communication Construction

Grupo ACS

China State Construction Engineering

Vinci

Bouygues

HOCHTIEF

Metallurgical Corporation

Q7. Which will be the largest construction type segment in the future?

Answer: Lucintel forecasts residential construction to remain the largest type segment,

and it is also expected to witness the highest growth over the forecast period due to rising per capita income and higher disposable income.

Q8: In construction industry, which region is expected to be the largest in the next five years?

Answer: Asia Pacific is expected to be the largest region over the next five years.

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report addresses the following key questions:

Q. 1. What are some of the most promising, high growth opportunities for the global construction industry by type (residential, non-residential, and infrastructure) and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q. 2. Which products segments will grow at a faster pace and why?

Q. 3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the drivers, challenges, and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market and which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are being initiated by key companies for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by product substitution?

Q. 11. What M&A activity has occurred in the last 5 years?

For any questions related to construction industry or related to construction industry share, construction industry analysis, and construction industry size, write to Lucintel analysts at helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2016 TO 2027

3.1: Macroeconomic Trends (2014-2021) and Forecast (2022-2027)

3.2: Global Construction Industry Trends (2016-2021) and Forecast (2022-2027)

3.3: Global Construction Industry by Type

3.3.1: Residential

3.3.2: Non-Residential (Healthcare, Education, Hospitality, Retail, Office, and Others)

3.3.3: Infrastructure (Transport Infrastructure, Roads and Bridges, Power and Energy, Water and Wastewater, and Others)

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2016 TO 2027

4.1: Global Construction Industry by Region

4.2: North American Construction Industry

4.2.1: Market by Type: Residential, Non-Residential (Healthcare, Education, Hospitality, Retail, Office, and Others), and Infrastructure (Transport Infrastructure, Roads and Bridges, Power and Energy, Water and Wastewater, and Others)

4.2.2: The United States Construction Industry

4.2.3: The Canadian Construction Industry

4.2.4: The Mexican Construction Industry

4.3: European Construction Industry

4.3.1: Market by Type: Residential, Non-Residential (Healthcare, Education, Hospitality, Retail, Office, and Others), and Infrastructure (Transport Infrastructure, Roads and Bridges, Power and Energy, Water and Wastewater, and Others)

4.3.2: German Construction Industry:

4.3.3: The French Construction Industry

4.3.4: Construction Industry of the United Kingdom

4.3.5: The Russian Construction Industry

- 4.3.6: The Spanish Construction Industry
- 4.3.7: The Italian Construction Industry
- 4.4: APAC Construction Industry
 - 4.4.1: Market by Type: Residential, Non-Residential (Healthcare, Education, Hospitality, Retail, Office, and Others), and Infrastructure (Transport Infrastructure, Roads and Bridges, Power and Energy, Water and Wastewater, and Others)
 - 4.4.2: Chinese Construction Industry
 - 4.4.3: Japanese Construction industry
 - 4.4.4: Indian Construction Industry
- 4.5: ROW Construction Industry
 - 4.5.1: Market by Type: Residential, Non-Residential (Healthcare, Education, Hospitality, Retail, Office, and Others), and Infrastructure (Transport Infrastructure, Roads and Bridges, Power and Energy, Water and Wastewater, and Others)
 - 4.5.2: Brazilian Construction Industry
 - 4.5.3: Construction Industry of the United Arab Emirates (UAE)

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Market Share Analysis
- 5.3: Geographical Reach
- 5.4: Porter's Five Forces Analysis

6. COST STRUCTURE ANALYSIS

- 6.1: Cost of Goods Sold
- 6.2: SG&A
- 6.3: EBITDA Margin

7. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 7.1: Growth Opportunity Analysis
 - 7.1.1: Growth Opportunities for the Global Construction Industry by Type
 - 7.1.2: Growth Opportunities for the Global Construction Industry by Region
- 7.2: Emerging Trends in the Global Construction Industry
- 7.3: Strategic Analysis
 - 7.3.1: Emerging Projects in the Global Construction Industry by Major Players:
 - 7.3.2: Certification and Licensing
 - 7.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Construction Industry

7.3.4: Technology Development

8. COMPANY PROFILES OF LEADING PLAYERS

8.1: China Railway Group Limited

8.2: China Railway Construction Corp. Limited

8.3: China Communication Construction Company Limited

8.4: Grupo ACS

8.5: China State Construction Engineering Corporation

8.6: Vinci SA

8.7: Bouygues SA

8.8: HOCHTIEF AG

8.9: Metallurgical Corporation of China
