## Abstracts

### Consumer Electronics in the Capacitor Market Trends and Forecast

The future of consumer electronics in the global capacitor market looks promising with opportunities in the ceramic, aluminum, tantalum, paper & plastic, and supercapacitor markets. The consumer electronics in the global capacitor market is expected to reach an estimated \$3.6 billion by 2028 with a CAGR of 9.3% from 2023 to 2028. The major drivers for this market are significantly growing demand for consumer electronics, such as TVs, mobile phones, and computers and increasing adoption of smart technology in the emerging economies.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Consumer Electronics in the Capacitor Market by Segment

The study includes a forecast for the consumer electronics in the global capacitor market by capacitor type, voltage, and region, as follows:

Consumer Electronics in Capacitor Market by Capacitor Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Ceramics

Aluminum

Tantalum

Papers and Plastics

Supercapacitors

Consumer Electronics in Capacitor Market by Voltage [Value (\$B) Shipment Analysis from 2017 to 2028]:

Low Voltage

High Voltage

Consumer Electronics in Capacitor Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Consumer Electronics in the Capacitor Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies consumer electronics in capacitor companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the consumer electronics in capacitor companies profiled in this report include.

Murata Manufacturing

Maxwell Technologies

Samsung Electro-Mechanics

Nippon Chemi-Con

TDK

## Consumer Electronics in the Capacitor Market Insights

Lucintel forecasts that high voltage is expected to witness highest growth over the forecast period due to the extensive use of high voltage capacitors among various electronic gadgets.

Ceramic is expected to witness highest growth over the forecast period due to the significant usage of ceramic capacitors among modern electronics owing to its high capacitance and lower impedance characteristics.

APAC is expected to witness highest growth over the forecast period due to increasing consumption of electronic products and the presence of key consumer electronic manufacturers and suppliers in the region.

## Features of Consumer Electronics in the Capacitor Market

**Market Size Estimates:** Consumer electronics in the capacitor market size estimation in terms of value (\$B)

**Trend And Forecast Analysis:** Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

**Segmentation Analysis:** Consumer electronics in the capacitor market size by various segments, such as by capacitor type, voltage, and region

**Regional Analysis:** Consumer electronics in the capacitor market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different by capacitor

type, voltage, and regions for the consumer electronics in capacitor market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the consumer electronics in capacitor market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

## FAQ

Q1. What is consumer electronics in the capacitor market size?

Answer: The consumer electronics in the global capacitor market is expected to reach an estimated \$3.6 billion by 2028.

Q2. What is the growth forecast for consumer electronics in the capacitor market?

Answer: The consumer electronics in the global capacitor market is expected to grow with a CAGR of 9.3% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of consumer electronics in the capacitor market?

Answer: The major drivers for this market are significantly growing demand for consumer electronics, such as TVs, mobile phones, and computers and increasing adoption of smart technology in the emerging economies.

Q4. What are the major segments for consumer electronics in the capacitor market?

Answer: The future of the consumer electronics in capacitor market looks promising with opportunities in the ceramic, aluminum, tantalum, paper & plastic, and supercapacitor markets.

Q5. Who are the key consumer electronics in the capacitor companies?

Answer: Some of the key consumer electronics in capacitor companies are as follows:

**Murata Manufacturing**

Maxwell Technologies

Samsung Electro-Mechanics

Nippon Chemi-Con

TDK

Q6. Which consumer electronics in the capacitor segment will be the largest in future?

Answer: Lucintel forecasts that high voltage is expected to witness highest growth over the forecast period due to the extensive use of high voltage capacitors among various electronic gadgets.

Q7. In consumer electronics in the capacitor market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness highest growth over the forecast period due to increasing consumption of electronic products and the presence of key consumer electronic manufacturers and suppliers in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for consumer electronics in the capacitor market by capacitor type (ceramics, aluminum, tantalum, papers and plastics, and supercapacitors), voltage (low voltage and high voltage), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to consumer electronics in the global capacitor market or related to consumer electronics in the global capacitor companies, consumer electronics in the global capacitor market size, consumer electronics in the global capacitor market share, consumer electronics in the global capacitor analysis, consumer electronics in the global capacitor market growth, consumer electronics in the global capacitor market research, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com) we will be glad to get back to you soon.

## Contents

### 1. EXECUTIVE SUMMARY

### 2. CONSUMER ELECTRONICS IN THE GLOBAL CAPACITOR MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### 3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Consumer Electronics in the Global Capacitor Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Consumer Electronics in the Global Capacitor Market by Capacitor Type

3.3.1: Ceramics

3.3.2: Aluminum

3.3.3: Tantalum

3.3.4: Papers and Plastics

3.3.5: Supercapacitors

3.4: Consumer Electronics in the Global Capacitor Market by Voltage

3.4.1: Low Voltage

3.4.2: High Voltage

### 4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Consumer Electronics in the Global Capacitor Market by Region

4.2: Consumer Electronics in the North American Capacitor Market

4.2.1: Consumer Electronics in the North American Capacitor Market by Capacitor Type: Ceramics, Aluminum, Tantalum, Papers and Plastics, and Supercapacitors

4.2.2: Consumer Electronics in the North American Capacitor Market by Voltage: Low Voltage and High Voltage

4.3: Consumer Electronics in the European Capacitor Market

4.3.1: Consumer Electronics in the European Capacitor Market by Capacitor Type: Ceramics, Aluminum, Tantalum, Papers and Plastics, and Supercapacitors

4.3.2: Consumer Electronics in the European Capacitor Market by Voltage: Low

Voltage and High Voltage

4.4: Consumer Electronics in the APAC Capacitor Market

4.4.1: Consumer Electronics in the APAC Capacitor Market by Capacitor Type: Ceramics, Aluminum, Tantalum, Papers and Plastics, and Supercapacitors

4.4.2: Consumer Electronics in the APAC Capacitor Market by Voltage: Low Voltage and High Voltage

4.5: Consumer Electronics in the ROW Capacitor Market

4.5.1: Consumer Electronics in the ROW Capacitor Market by Capacitor Type: Ceramics, Aluminum, Tantalum, Papers and Plastics, and Supercapacitors

4.5.2: Consumer Electronics in the ROW Capacitor Market by Voltage: Low Voltage and High Voltage

## **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

## **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for Consumer Electronics in the Global Capacitor Market by Capacitor Type

6.1.2: Growth Opportunities for Consumer Electronics in the Global Capacitor Market by Voltage

6.1.3: Growth Opportunities for Consumer Electronics in the Global Capacitor Market by Region

6.2: Emerging Trends of Consumer Electronics in the Global Capacitor Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of Consumer Electronics in the Global Capacitor Market

6.3.3: Mergers, Acquisitions, and Joint Ventures of Consumer Electronics in the Global Capacitor Market

6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: Murata Manufacturing

7.2: Maxwell Technologies

7.3: Samsung Electro-Mechanics

7.4: Nippon Chemi-Con

**7:5: TDK**

## I would like to order

Product name: Consumer Electronics in the Global Capacitor Market: Trends, Opportunities and Competitive Analysis [2023-2028]

Product link: <https://marketpublishers.com/r/CAF835EC4CE5EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
