Crosslinking Agent Trends and Forecast

The future of the global crosslinking agent market looks promising with opportunities in the decorative and industrial markets. The global crosslinking agent market is expected to grow with a CAGR of 6.7% from 2024 to 2030. The major drivers for this market are growth in the use of powder coatings worldwide, growth in consumer demand for environmentally friendly crosslinking agents and the creation of sustainable goods, as well as, surge in investments and rapid industrialization.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Crosslinking Agent by Segment

The study includes a forecast for the global crosslinking agent by chemistry, application, and region.

Crosslinking Agent Market by Chemistry [Shipment Analysis by Value from 2018 to 2030]:

Amino

Amine

Amide

Aziridine

Carbodiimide

Isocyanate

Others

Crosslinking Agent Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Decorative

Industrial

Crosslinking Agent Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Crosslinking Agent Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies crosslinking agent companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the crosslinking agent companies profiled in this report include-

BASF

Covestro

Allnex Group

Evonik Industries

Huntsman

Aditya Birla

Wanhua Chemicals Group

The Dow Chemical Company

DSM Coatings Resins

INEOS

Crosslinking Agent Market Insights

Lucintel forecasts that amino will remain the largest segment over the forecast period because they have strong cross-linking capabilities and compatibility with a variety of polymers.

Within this market, industrial will remain larger segment because it improve the performance and durability of materials in these sectors.

APAC is expected to witness the highest growth over the forecast period due to the region's strong industrial and manufacturing sector which generate substantial demand for cross-linking agents in various industries.

Features of the Global Crosslinking Agent Market

Market Size Estimates: Crosslinking agent market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Crosslinking agent market size by chemistry, application, and region in terms of value (\$B).

Regional Analysis: Crosslinking agent market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different chemistry, application, and regions for the crosslinking agent market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the crosslinking agent market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the growth forecast for crosslinking agent market?

Answer: The global crosslinking agent market is expected to grow with a CAGR of 6.7% from 2024 to 2030.

Q2. What are the major drivers influencing the growth of the crosslinking agent market?

Answer: The major drivers for this market are growth in the use of powder coatings worldwide, growth in consumer demand for environmentally friendly crosslinking agents and the creation of sustainable goods, as well as, surge in investments and rapid industrialization.

Q3. What are the major segments for crosslinking agent market?

Answer: The future of the global crosslinking agent market looks promising with opportunities in the decorative and industrial markets.

Q4. Who are the key crosslinking agent market companies?

Answer: Some of the key crosslinking agent companies are as follows:

BASF

Covestro

Allnex Group

Evonik Industries

Huntsman

Aditya Birla

Wanhua Chemicals Group

The Dow Chemical Company

DSM Coatings Resins

INEOS

Q5. Which crosslinking agent market segment will be the largest in future?

Answer: Lucintel forecasts that amino will remain the largest segment over the forecast period because they have strong cross-linking capabilities and compatibility with a variety of polymers.

Q6. In crosslinking agent market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness the highest growth over the forecast period due to the region's strong industrial and manufacturing sector which generate substantial demand for cross-linking agents in various industries.

Q7. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

- Q.1. What are some of the most promising, high-growth opportunities for the crosslinking agent market by chemistry (amino, amine, amide, aziridine, carbodiimide, isocyanate, and others), application (decorative and industrial), and region (North America, Europe, Asia Pacific, and the Rest of the World)?
- Q.2. Which segments will grow at a faster pace and why?
- Q.3. Which region will grow at a faster pace and why?
- Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?
- Q.5. What are the business risks and competitive threats in this market?
- Q.6. What are the emerging trends in this market and the reasons behind them?
- Q.7. What are some of the changing demands of customers in the market?
- Q.8. What are the new developments in the market? Which companies are leading these developments?
- Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?
- Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?
- Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
