Some of the cryotherapy model companies profiled in this report include CryoConcepts, Brymill Cryogenic Systems, Metrum Cryoflex, Medtronic, CooperSurgical, Cortex Technology, Mectronic Medicale, and Cryoalfa.

Lucintel forecasts that cryosurgery devices will remain the fastest growing product segment over the forecast period due to growing demand for cryotherapy by surgeries, fewer side effects, and greater affordability of cryosurgery devices.

Within this market, surgical application will remain the largest application segment over the forecast period due to higher adoption of cryoablation for cancer treatment as well as the advantages offered by this technique over traditional surgery.

North America will remain the largest region over the forecast period due to growing popularity of cryotherapy, rising prevalence of cancer, and increase in sports and physical activity-related injuries in the region.
