Cycling Apparel Trends and Forecast

The future of the global cycling apparel market looks promising with opportunities in the professional and amateur markets. The global cycling apparel market is expected to reach an estimated \$6.0 billion by 2030 with a CAGR of 4.7% from 2024 to 2030. The major drivers for this market are rising adoption of cycling as a hobby or an exercising medium to stay fit, growing awareness about health benefits of cycling, and increasing inclination to favor modern clothing over traditional styles.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.
