## Cycling Hydration Pack Market Insights

Lucintel forecasts that 1-3 liters will remain the largest segment over the forecast period because it provides enough water for a few hours of riding without adding unnecessary weight and it is also more comfortable rather than wearing a larger pack.

E-commerce is expected to remain the largest segment as it provides the convenience of shopping from home and also offers a wide range of products at a very competitive price.

North America will remain the largest region due to the strong cycling culture along with an increasing number of people opting for cycling for sports, recreation, and transportation purpose and presence of large number of retail channels including sporting goods store, bike shops, and outdoor gear stores in the region.
