

# Data Center Chip Market Report: Trends, Forecast and Competitive Analysis

<https://marketpublishers.com/r/D7E179B4C53EEN.html>

Date: May 2024

Pages: 150

Price: US\$ 4,850.00 (Single User License)

ID: D7E179B4C53EEN

## Abstracts

Get it in 2 to 4 weeks by ordering today

The future of the digital radio frequency memory market looks promising with opportunities in the defense and commercial & civil industries. The global digital radio frequency memory market is expected to grow with a CAGR of 12% to 14% from 2021 to 2026. The major drivers for this market are upgradation of warfare devices and growth in military expenditure.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of digital radio frequency memory market report download the report brochure.

The study includes trends and forecasts for the global digital radio frequency memory market by application, architecture, end use industry, and region as follows:

By Application [\$M shipment analysis for 2021 – 2026]:

Electronic Warfare

Radar Test & Evaluation

Electronic Warfare Training

Radio & Cellular Network Jamming

By Architecture [\$M shipment analysis for 2021 – 2026]:

Processor

Modulator

Convertor

Memory

Others

By End Use Industry [\$M shipment analysis for 2021 – 2026]:

Defense

Commercial & Civil

By Region [\$M shipment analysis for 2021 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Electronic warfare will remain the largest application segment due to installation in both air and naval platforms and improved capability.

Defense will remain the largest end use industry during the forecast period due to frequent installation of electronic systems in various defense platforms, such as ground-based military units, navy ships, and others.

North America will remain the largest region over the forecast period due to increasing investment in the development of technologically advanced DRFM systems.

Some of the digital radio frequency memory companies profiled in this report include Airbus Group, Northrop Grumman Corporation, Thales Group, Raytheon Company, and BAE Systems plc.

Features of Digital Radio Frequency Market

Market Size Estimates: Digital radio frequency memory market size estimation in terms of value (\$M)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Market size by application, architecture, and end use industry

**Regional Analysis:** Digital radio frequency memory market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different end use industries, architecture, and regions for digital radio frequency memory market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the digital radio frequency memory market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global digital radio frequency memory market by application (electronic warfare, radar test & evaluation, electronic warfare training, and radio & cellular network jamming), architecture (processor, modulator, convertor, memory, and others), end use industry (defense and commercial & civil), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the digital radio frequency memory market?

Q.5 What are the business risks and threats to the digital radio frequency memory market?

Q.6 What are the emerging trends in the digital radio frequency memory market and the reasons behind them?

Q.7 What are some changing demands of customers in the digital radio frequency memory market?

Q.8 What are the new developments in the digital radio frequency memory market? Which companies are leading these developments?

Q.9 Who are the major players in the digital radio frequency memory market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the digital radio

frequency memory market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the digital radio frequency memory market?

## Contents

- Executive Summary
- Market Background and Classifications
  - Introduction, Background, and Classifications
  - Supply Chain
  - Industry Drivers and Challenges
- Market Trends and Forecast Analysis from 2021 t 2026
  - Macroeconomic Trends (2015-2020) and Forecast (2021-2026)
  - Global Digital Radi Frequency Memory Market Trends (2015-2020) and Forecast (2021-2026)
    - Global Digital Radi Frequency Memory Market by Application
      - Electronic Warfare
      - Radar Test & Evaluation
      - Electronic Warfare Training
      - Radi & Cellular Network Jamming
    - Global Digital Radi Frequency Memory Market by Architecture
      - Processor
      - Modulator
      - Convertor
      - Memory
      - Others
    - Global Digital Radi Frequency Memory Market by End Use Industry
      - Defense
      - Commercial & Civil
- Market Trends and Forecast Analysis by Region from 2021 t 2026
  - Global Digital Radi Frequency Memory Market by Region
    - North American Digital Radi Frequency Memory Market
      - Market by Application
      - Market by End Use Industry
        - The US Digital Radi Frequency Memory Market
        - The Canadian Digital Radi Frequency Memory Market
        - The Mexican Digital Radi Frequency Memory Market
    - European Digital Radi Frequency Memory Market
      - Market by Application
      - Market by End Use Industry
        - German Digital Radi Frequency Memory Market
        - United Kingdom Digital Radi Frequency Memory Market
        - French Digital Radi Frequency Memory Market

Italian Digital Radi Frequency Memory Market  
APAC Digital Radi Frequency Memory Market  
Market by Application  
Market by End Use Industry  
Chinese Digital Radi Frequency Memory Market  
Japanese Digital Radi Frequency Memory Market  
Indian Digital Radi Frequency Memory Market  
South Korean Digital Radi Frequency Memory Market  
ROW Digital Radi Frequency Memory Market  
Market by Application  
Market by End Use Industry  
Competitor Analysis  
Product Portfoli Analysis  
Geographical Reach  
Porter's Five Forces Analysis  
Growth Opportunities and Strategic Analysis  
Growth Opportunity Analysis  
Growth Opportunities for the Global Digital Radi Frequency Memory Market by Application  
Growth Opportunities for the Global Digital Radi Frequency Memory Market by Architecture  
Growth Opportunities for the Global Digital Radi Frequency Memory Market by End Use Industry  
Growth Opportunities for the Global Digital Radi Frequency Memory Market by Region  
Emerging Trends in the Global Digital Radi Frequency Memory Market  
Strategic Analysis  
New Product Development  
Capacity Expansion of the Global Digital Radi Frequency Memory Market  
Technology Development  
Mergers and Acquisitions in the Global Digital Radi Frequency Memory Industry  
Company Profiles of Leading Players  
Airbus Group  
Northrop Grumman Corporation  
Thales Group  
Raytheon Company  
BAE Systems plc

## I would like to order

Product name: Data Center Chip Market Report: Trends, Forecast and Competitive Analysis

Product link: <https://marketpublishers.com/r/D7E179B4C53EEN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
