## Abstracts

2 – 3 business days after placing order

### Defoamers for Potato Processing Trends and Forecast

The future of the global defoamers for potato processing market looks promising with opportunities in the flake, fries, chip, granule, dried & mashed potato markets. The global defoamers for potato processing market is expected to reach an estimated \$169.8 million by 2030 with a CAGR of 4.5% from 2024 to 2030. The major drivers for this market are growing consumption of processed potato food items worldwide, increasing product development and innovations in defoamers for food processing, and rising demand for sustainable products among people.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Defoamers for Potato Processing by Segment

The study includes a forecast for the global defoamers for potato processing by product type, function, application, and region.

Defoamers for Potato Processing Market by Product Type [Shipment Analysis by Value from 2018 to 2030]:

Silicone Based Defoamers

Non Silicone Based Defoamers/Polymer Based Defoamers

Defoamers for Potato Processing Market by Function [Shipment Analysis by Value from 2018 to 2030]:

Processing Aid

Food Additive

Defoamers for Potato Processing Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Flakes

Fries

Chips

Granules

Dried & Mashed Potatoes

Others

Defoamers for Potato Processing Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Defoamers for Potato Processing Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies defoamers for potato processing companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the defoamers for potato processing companies profiled in this report include-

DyStar Singapore

Hydrite Chemical

DuBois Chemicals

Rossari Biotech

M?nzing

Bussetti

LEVACO

Dow

Elkem ASA

Accepta Water Treatment

## Defoamers for Potato Processing Market Insights

Lucintel forecasts that silicone based defoamers is expected to witness higher growth over the forecast period.

Within this market, fries will remain the largest segment.

APAC is expected to witness the highest growth over the forecast period due to growing consumer demand for potato-based products such as snacks and frozen items in this

region.

## Features of the Global Defoamers for Potato Processing Market

**Market Size Estimates:** Defoamers for potato processing market size estimation in terms of value (\$M).

**Trend and Forecast Analysis:** Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

**Segmentation Analysis:** Defoamers for potato processing market size by product type, function, application, and region in terms of value (\$M).

**Regional Analysis:** Defoamers for potato processing market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

**Growth Opportunities:** Analysis of growth opportunities in different product type, function, application, and regions for the defoamers for potato processing market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape of the defoamers for potato processing market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

## FAQ

Q1. What is the defoamers for potato processing market size?

Answer: The global defoamers for potato processing market is expected to reach an estimated \$169.8 million by 2030.

Q2. What is the growth forecast for defoamers for potato processing market?

Answer: The global defoamers for potato processing market is expected to grow with a CAGR of 4.5% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the defoamers for potato processing market?

Answer: The major drivers for this market are growing consumption of processed potato food items worldwide, increasing product development and innovations in defoamers for food processing, and rising demand for sustainable products among people.

Q4. What are the major segments for defoamers for potato processing market?

Answer: The future of the global defoamers for potato processing market looks promising with opportunities in the flake, fries, chip, granule, dried & mashed potato markets.

Q5. Who are the key defoamers for potato processing market companies?

Answer: Some of the key defoamers for potato processing companies are as follows:

DyStar Singapore

Hydrite Chemical

DuBois Chemicals

Rossari Biotech

M?nzing

Bussetti

LEVACO

Dow

Elkem ASA

Accepta Water Treatment

Q6. Which defoamers for potato processing market segment will be the largest in future?

Answer: Lucintel forecasts that silicone based defoamers is expected to witness higher

growth over the forecast period.

Q7. In defoamers for potato processing market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness the highest growth over the forecast period due to growing consumer demand for potato-based products such as snacks and frozen items in this region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the defoamers for potato processing market by product type (silicone based defoamers and non silicone based defoamers/polymer based defoamers), function (processing aid and food additive), application (flakes, fries, chips, granules, dried & mashed potatoes, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to Defoamers for Potato Processing Market, Defoamers for Potato Processing Market Size, Defoamers for Potato Processing Market Growth, Defoamers for Potato Processing Market Analysis, Defoamers for Potato Processing Market Report, Defoamers for Potato Processing Market Share, Defoamers for Potato Processing Market Trends, Defoamers for Potato Processing Market Forecast, Defoamers for Potato Processing Companies, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com). We will be glad to get back to you soon.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. GLOBAL DEFOAMERS FOR POTATO PROCESSING MARKET : MARKET DYNAMICS**

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### **3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030**

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Defoamers for Potato Processing Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Defoamers for Potato Processing Market by Product Type

3.3.1: Silicone Based Defoamers

3.3.2: Non Silicone Based Defoamers/Polymer Based Defoamers

3.4: Global Defoamers for Potato Processing Market by Function

3.4.1: Processing Aid

3.4.2: Food Additive

3.5: Global Defoamers for Potato Processing Market by Application

3.5.1: Flakes

3.5.2: Fries

3.5.3: Chips

3.5.4: Granules

3.5.5: Dried & Mashed Potatoes

3.5.6: Others

### **4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030**

4.1: Global Defoamers for Potato Processing Market by Region

4.2: North American Defoamers for Potato Processing Market

4.2.1: North American Defoamers for Potato Processing Market by Product Type: Silicone Based Defoamers and Non Silicone Based Defoamers/Polymer Based Defoamers

4.2.2: North American Defoamers for Potato Processing Market by Application: Flakes,

Fries, Chips, Granules, Dried & Mashed Potatoes, and Others

4.3: European Defoamers for Potato Processing Market

4.3.1: European Defoamers for Potato Processing Market by Product Type: Silicone Based Defoamers and Non Silicone Based Defoamers/Polymer Based Defoamers

4.3.2: European Defoamers for Potato Processing Market by Application: Flakes, Fries, Chips, Granules, Dried & Mashed Potatoes, and Others

4.4: APAC Defoamers for Potato Processing Market

4.4.1: APAC Defoamers for Potato Processing Market by Product Type: Silicone Based Defoamers and Non Silicone Based Defoamers/Polymer Based Defoamers

4.4.2: APAC Defoamers for Potato Processing Market by Application: Flakes, Fries, Chips, Granules, Dried & Mashed Potatoes, and Others

4.5: ROW Defoamers for Potato Processing Market

4.5.1: ROW Defoamers for Potato Processing Market by Product Type: Silicone Based Defoamers and Non Silicone Based Defoamers/Polymer Based Defoamers

4.5.2: ROW Defoamers for Potato Processing Market by Application: Flakes, Fries, Chips, Granules, Dried & Mashed Potatoes, and Others

## **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

## **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Defoamers for Potato Processing Market by Product Type

6.1.2: Growth Opportunities for the Global Defoamers for Potato Processing Market by Function

6.1.3: Growth Opportunities for the Global Defoamers for Potato Processing Market by Application

6.1.4: Growth Opportunities for the Global Defoamers for Potato Processing Market by Region

6.2: Emerging Trends in the Global Defoamers for Potato Processing Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Defoamers for Potato Processing Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Defoamers for Potato

Processing Market

6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: DyStar Singapore

7.2: Hydrite Chemical

7.3: DuBois Chemicals

7.4: Rossari Biotech

7.5: M?nzing

7.6: Bussetti

7.7: LEVACO

7.8: Dow

7.9: Elkem ASA

7.10: Accepta Water Treatment
