The global depth filtration market is expected to reach an estimated \$5 billion by 2030 with a CAGR of 11.4% from 2024 to 2030. The major drivers for this market are increasing demand for clean water and wastewater treatment, stringent environmental regulations, and rising demand for disposable filters.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Depth Filtration by Segment

The study includes a forecast for the global depth filtration by product, media type, end use, and region.

Depth Filtration Market by Product [Shipment Analysis by Value from 2018 to 2030]:

Cartridge Filters

Capsule Filters

Others

Depth Filtration Market by Media Type [Shipment Analysis by Value from 2018 to 2030]:

Diatomaceous Earth

Activated Carbon

Cellulose

Perlite

Depth Filtration Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Water Filtration

Food & Beverages

Healthcare

Others

Depth Filtration Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Depth Filtration Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies depth filtration companies cater increasing demand, ensure

competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the depth filtration companies profiled in this report include-

Merck

Danaher

Sartorius

GE Healthcare

3M

Parker Hannifin

Porvair Filtration

Amazon Filters

Meissner Filtration Products

Donaldson Company

Depth Filtration Market Insights

Lucintel forecasts that cartridge filter will remain the larger segment over the forecast period due to its high dirt retention capacity and the long service life of these products.

Within this market, healthcare will remain the largest segment.

North America will remain the largest region over the forecast period due to the growing number of producers and suppliers and presence of advanced healthcare infrastructure in this region.
