## Digital Fitness Market Insights

Lucintel forecasts that the smartwatch segment is expected to witness significant growth during the forecast period due to their versatile features as a wristband.

Within global digital fitness market, fitness wristband is expected to remain the largest segment by product type. Increasing health awareness and fitness wristband's properties, like 24/7 heart rate monitoring and providing useful insights about the user's health, will drive the demand for fitness wristbands over the forecast period.

North America is expected to remain the largest region due to an increasing obesity rate and growing awareness on physical fitness with the availability of a more sophisticated digital wearable fitness device.
