Drone Services Market Trends and Forecast

The future of the global drone services market looks promising with opportunities in the construction & infrastructure, agriculture, utility, oil & gas, mining, defense & law enforcement, media & entertainment, scientific research, insurance, aviation, marine, healthcare & social assistance, and transport, logistic & warehousing end use industries. The global drone services market is expected to reach an estimated \$59.0 billion by 2028 with a CAGR of 29.9% from 2023 to 2028. The major drivers for this market are increasing adoption of drone in various applications, such as construction, agriculture military and defense, logistics, and warehousing, and transport industries as it delivers high-quality services with real-time data.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Drone Services Market by Segment

The study includes a forecast for the global drone services market by product type, application, end use industry, solution, and region, as follows:

Drone Services Market by Product Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Platform Service

Maintenance Repair Overhaul (MRO)

Simulation & Training

Drone Services Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Inspection & Monitoring

Mapping & Surveying

Spraying & Seeding

Filming & Photography

Transport & Delivery

Security, Search & Rescue

Drone Services Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Construction & Infrastructure

Agriculture

Utilities

Oil & Gas

Mining

Defense & Law Enforcement

Media & Entertainment

Scientific Research

Insurance

Aviation

Marine

Healthcare & Social Assistance

Transport, Logistics & Warehousing

Drone Services Market by Solution [Value (\$B) Shipment Analysis from 2017 to 2028]:

End-to-End

Point

Drone Services Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Drone Services Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies drone services companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the drone services

companies profiled in this report include.

Cyberhawk

DroneDeploy

Terra Drone Corporation

PrecisionHawk

Aerodyne Group

Drone Services Market Insights

Lucintel forecasts that platform service will witness the highest growth over the forecast period due to its increasing adoption in data collection in various commercial domains.

Agriculture will witness the highest growth due to increasing usage of drone to boost productivity and enhance farming methods.

North America will remain the largest region due to the increasing acceptance of high-end drone technologies and growing trend of aerial photography in the real estate and construction industries in the region.

Features of the Drone Services Market

Market Size Estimates: Drone services market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Drone services market size by various segments, such as by product type, application, end use industry, solution, and region

Regional Analysis: Drone services market breakdown by North America,

Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by product type, application, end use industry, solution, and regions for the drone services market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the drone services market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the drone services market size?

Answer: The global drone services market is expected to reach an estimated \$59.0 billion by 2028.

Q2. What is the growth forecast for drone services market?

Answer: The global drone services market is expected to grow with a CAGR of 29.9% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the drone services market?

Answer: The major drivers for this market are increasing adoption of drone in various applications, such as construction, agriculture military and defense, logistics, and warehousing, and transport industries as it delivers high-quality services with real-time data.
