The future of the dry mix mortar market looks promising with opportunities in the residential and non-residential industries. The global dry mix mortar market is expected to decline in 2020 due to global economic recession led by the COVID-19 pandemic. However, the market will witness recovery in the year 2021, and it is expected to grow with a CAGR of 4% to 6% from 2020 to 2025. The major drivers for this market are growing construction activities and increasing usage of dry mix mortar because it is easy to use and cost effective.
