Abstracts

Electric Vehicle Connector Trends and Forecast

The future of the electric vehicle connector market looks promising with opportunities in the commercial and residential markets. The electric vehicle connector market is expected to reach an estimated \$157.3 million by 2030 with a CAGR of 15.6% from 2024 to 2030. The major drivers for this market are the execution of numerous government programs to increase the use of EVs and hybrid vehicles, raising the standard of electric and hybrid cars, as well as, increasing sales of EV's and demand for fast charging.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Electric Vehicle Connector by Segment

The study includes a forecast for the global electric vehicle connector by charging type, charging speed, voltage type, end use, and region.

Electric Vehicle Connector Market by Charging Type [Shipment Analysis by Value from 2018 to 2030]:

Type 1

Type 2

Type 3

Electric Vehicle Connector Market by Charging Speed [Shipment Analysis by Value from 2018 to 2030]:

Slow

Fast

Rapid

Electric Vehicle Connector Market by Voltage Type [Shipment Analysis by Value from 2018 to 2030]:

AC Charging

DC Charging

Electric Vehicle Connector Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Commercial

Residential

Others

Electric Vehicle Connector Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Electric Vehicle Connector Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies electric vehicle connector companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the electric vehicle connector companies profiled in this report include-

Yazaki

TE Connectivity

Sumitomo

Schneider Electric

HUBER+SUHNER

Tesla

Bosch

Electric Vehicle Connector Market Insights

Lucintel forecasts that fast charging is expected to witness the highest growth over the forecast period because the majority of public and commercial electric vehicle charging stations are switching to rapid charging.

APAC will remain the largest region over the forecast period due to government assistance in the form of tax breaks, grants, and subsidies, as well as ongoing infrastructure improvements for charging in nations like China and Japan.

Features of the Electric Vehicle Connector Market

Market Size Estimates: Electric vehicle connector market size estimation in terms of value (\$M).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Electric vehicle connector market size by charging type, charging speed, voltage type, end use, and region in terms of value (\$M).

Regional Analysis: Electric vehicle connector market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different charging type, charging speed, voltage type, end use, and regions for the electric vehicle connector market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the electric vehicle connector market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the electric vehicle connector market size?

Answer: The global electric vehicle connector market is expected to reach an estimated \$157.3 million by 2030.

Q2. What is the growth forecast for electric vehicle connector market?

Answer: The global electric vehicle connector market is expected to grow with a CAGR of 15.6% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the electric vehicle connector market?

Answer: The major drivers for this market are the execution of numerous government programs to increase the use of EVs and hybrid vehicles, raising the standard of electric

and hybrid cars, as well as, increasing sales of EV's and demand for fast charging.

Q4. What are the major segments for electric vehicle connector market?

Answer: The future of the electric vehicle connector market looks promising with opportunities in the commercial and residential markets.

Q5. Who are the key electric vehicle connector market companies?

Answer: Some of the key electric vehicle connector companies are as follows:

Yazaki

TE Connectivity

Sumitomo

Schneider Electric

HUBER+SUHNER

Tesla

Bosch

Q6. Which electric vehicle connector market segment will be the largest in future?

Answer: Lucintel forecasts that fast charging is expected to witness the highest growth over the forecast period because the majority of public and commercial electric vehicle charging stations are switching to rapid charging.

Q7. In electric vehicle connector market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region over the forecast period due to government assistance in the form of tax breaks, grants, and subsidies, as well as ongoing infrastructure improvements for charging in nations like China and Japan.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the electric vehicle connector market by charging type (type 1, type 2, and type 3), charging speed (slow, fast, and rapid), voltage type (ac charging and dc charging), end use (commercial, residential, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to Electric Vehicle Connector Market, Electric Vehicle Connector Market Size, Electric Vehicle Connector Market Growth, Electric Vehicle

Connector Market Analysis, Electric Vehicle Connector Market Report, Electric Vehicle Connector Market Share, Electric Vehicle Connector Market Trends, Electric Vehicle Connector Market Forecast, Electric Vehicle Connector Companies, write Lucintel analyst at email: helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL ELECTRIC VEHICLE CONNECTOR MARKET : MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Electric Vehicle Connector Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Electric Vehicle Connector Market by Charging Type

3.3.1: Type

3.3.2: Type

3.3.3: Type

3.4: Global Electric Vehicle Connector Market by Charging Speed

3.4.1: Slow

3.4.2: Fast

3.4.3: Rapid

3.5: Global Electric Vehicle Connector Market by Voltage Type

3.5.1: AC Charging

3.5.2: DC Charging

3.6: Global Electric Vehicle Connector Market by End Use

3.6.1: Commercial

3.6.2: Residential

3.6.3: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030

4.1: Global Electric Vehicle Connector Market by Region

4.2: North American Electric Vehicle Connector Market

4.2.1: North American Electric Vehicle Connector Market by Charging Speed: Slow, Fast, and Rapid

4.2.2: North American Electric Vehicle Connector Market by End Use: Commercial ,

Residential, and Others

4.3: European Electric Vehicle Connector Market

4.3.1: European Electric Vehicle Connector Market by Charging Speed: Slow, Fast, and Rapid

4.3.2: European Electric Vehicle Connector Market by End Use: Commercial , Residential, and Others

4.4: APAC Electric Vehicle Connector Market

4.4.1: APAC Electric Vehicle Connector Market by Charging Speed: Slow, Fast, and Rapid

4.4.2: APAC Electric Vehicle Connector Market by End Use: Commercial , Residential, and Others

4.5: ROW Electric Vehicle Connector Market

4.5.1: ROW Electric Vehicle Connector Market by Charging Speed: Slow, Fast, and Rapid

4.5.2: ROW Electric Vehicle Connector Market by End Use: Commercial , Residential, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Electric Vehicle Connector Market by Charging Type

6.1.2: Growth Opportunities for the Global Electric Vehicle Connector Market by Charging Speed

6.1.3: Growth Opportunities for the Global Electric Vehicle Connector Market by Voltage Type

6.1.4: Growth Opportunities for the Global Electric Vehicle Connector Market by End Use

6.1.5: Growth Opportunities for the Global Electric Vehicle Connector Market by Region

6.2: Emerging Trends in the Global Electric Vehicle Connector Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Electric Vehicle Connector Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Electric Vehicle
Connector Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Yazaki

7.2: TE Connectivity

7.3: Sumitomo

7.4: Schneider Electric

7.5: HUBER+SUHNER

7.6: Tesla

7.7: Bosch
