### Electrophotographic Printing Market Trends and Forecast

The future of the global electrophotographic printing (EP) market looks promising with opportunities in the commercial printing, packaging, advertising, security, and stationery applications. The global electrophotographic printing market is expected to reach an estimated \$4.3 billion by 2028 with a CAGR of 6.2% from 2023 to 2028. The major drivers for this market are rising usage of this device to create a 3D object and enormous demand for EP to print labels for different products, such as food and beverage, pharmaceuticals, and cosmetics.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Electrophotographic Printing Market by Segment

The study includes a forecast for the global electrophotographic printing market by product type, application, and region, as follows:

Electrophotographic Printing Market by Product Type [Shipment Analysis by Value from 2017 to 2028]:

Monochrome Printing

Color Printing

Electrophotographic Printing Market by Application [Shipment Analysis by Value from 2017 to 2028]:

Commercial Printing

Packaging

Advertising

Security

Stationery

Others

Electrophotographic Printing Market by Region [Shipment Analysis by Value from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Electrophotographic Printing Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies electrophotographic printing companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the electrophotographic printing companies profiled in this report include.

HP

A B Graphic International

Anglia Labels

Associated Labels & Packaging

Canon

Consolidated Labels

Eastman Kodak

## Electrophotographic Printing Market Insights

Lucintel forecasts that color printing will remain the larger segment over the forecast period due to the increasing customer demand for enhanced packaging standards.

Packaging is expected to witness highest growth over the forecast period due to the enormous use of this printing technology for labels and tags because they convey information, brand recognition marks, and shipping details.

North America will remain the largest region due to the huge spending towards marketing of products and existence of a modern and established printing market in the region.

## Features of the Electrophotographic Printing Market

**Market Size Estimates:** Electrophotographic printing market size estimation in terms of value.

**Trend And Forecast Analysis:** Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

**Segmentation Analysis:** Electrophotographic printing market size by various

segments, such as by product type, application, and region

**Regional Analysis:** Electrophotographic printing market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different by product type, application, and regions for the electrophotographic printing market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the electrophotographic printing market.

**Analysis of competitive intensity of the industry based on Porter's Five Forces model.**

## FAQ

Q1. What is the electrophotographic printing market size?

Answer: The global electrophotographic printing market is expected to reach an estimated \$4.3 billion by 2028.

Q2. What is the growth forecast for electrophotographic printing market?

Answer: The global electrophotographic printing market is expected to grow with a CAGR of 6.2% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the electrophotographic printing market?

Answer: The major drivers for this market are rising usage of this device to create a 3D object and enormous demand for EP to print labels for different products, such as food and beverage, pharmaceuticals, and cosmetics.

Q4. What are the major segments for electrophotographic printing market?

Answer: The future of the electrophotographic printing (EP) market looks promising with opportunities in the commercial printing, packaging, advertising, security, and stationery applications.

Q5. Who are the key electrophotographic printing companies?

Answer: Some of the key electrophotographic printing companies are as follows:

HP

A B Graphic International

Anglia Labels

Associated Labels & Packaging

Canon

Consolidated Labels

Eastman Kodak

Q6. Which electrophotographic printing segment will be the largest in future?

Answer: Lucintel forecasts that color printing will remain the larger segment over the forecast period due to the increasing customer demand for enhanced packaging standards.

Q7. In electrophotographic printing market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region due to the huge spending towards marketing of products and existence of a modern and established printing market in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

- Q.1. What are some of the most promising, high-growth opportunities for the electrophotographic printing market by product type (monochrome printing and color printing), application (commercial printing, packaging, advertising, security, stationery, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?
- Q.2. Which segments will grow at a faster pace and why?
- Q.3. Which region will grow at a faster pace and why?
- Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?
- Q.5. What are the business risks and competitive threats in this market?
- Q.6. What are the emerging trends in this market and the reasons behind them?
- Q.7. What are some of the changing demands of customers in the market?
- Q.8. What are the new developments in the market? Which companies are leading these developments?
- Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?
- Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?
- Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
