## Abstracts

Get it in 2 to 4 weeks by ordering today

The future of the embedded system market looks promising with opportunities in the automotive, consumer electronics, industrial, aerospace & defense, energy, healthcare, and communication industries. The global embedded system market is expected to grow with a CAGR of 4% to 6% from 2021 to 2026. The major drivers for this market are increase in demand for portable devices and rising demand for embedded systems in the military and automotive segments.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of embedded system market report download the report brochure.

The study includes trends and forecast for the global embedded system market by hardware, software, application, functionality, system size, and region as follows:

By Hardware [\$M shipment analysis for 2015 – 2026]:

Application-specific Integrated Circuits (ASIC)

Microcontrollers

Microprocessors

Power Management Integrated Circuits (PMIC)

Field Programmable Gate Arrays (FPGA)

Digital Signal Processors (DSP)

Memories

By Software [\$M shipment analysis for 2015 – 2026]:

Operating Systems

Middleware

By Functionality [\$M shipment analysis for 2015 – 2026]:

Real-time Embedded Systems

Standalone Embedded Systems

By System Size [\$M shipment analysis for 2015 – 2026]:

Small-scale Embedded Systems

Medium-scale Embedded Systems

Large-scale Embedded Systems

By Application [\$M shipment analysis for 2015 – 2026]:

Automotive

Consumer Electronics

Industrial

Aerospace and Defense

Energy

Healthcare

Communication

By Region [\$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

## The Rest of the World

Medium-scale embedded systems will remain the largest segment due to growth in various applications in the communication segment.

Communication will remain the largest end use industry during the forecast period due to increasing demand for embedded systems in various applications, such as wireless infrastructure, protocol converters, and others.

Asia Pacific will remain the largest region during the forecast period due to rising use of autonomous robots and embedded vision systems and many industries, like transportation, energy, and healthcare among others, which contributes to the demand for embedded system in the region.

Some of the embedded system companies profiled in this report include Intel, STMicroelectronics, Renesas, Texas Instruments, and NXP Semiconductors.

## Features of Embedded System Market

**Market Size Estimates:** Embedded System market size estimation in terms of value (\$M)

**Trend and Forecast Analysis:** Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

**Segmentation Analysis:** Market size by hardware, software, functionality, system size, application.

**Regional Analysis:** Embedded System market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different hardware, software, functionality, system size, application, and regions for embedded system market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the embedded system market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global embedded system market by software (operating system and middleware), functionality (real-time embedded systems and standalone embedded systems), hardware (application-specific integrated circuits (ASIC), microcontrollers, microprocessors, power management integrated circuits (PMIC), field programmable gate arrays (FPGA), digital signal processors (DSP), and memories), system size (small-scale embedded system, medium-scale embedded system, and large-scale embedded system), end use industry (automotive, consumer electronics, industrial, aerospace & defense, energy, healthcare, and communication), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the embedded system market?

Q.5 What are the business risks and threats to the embedded system market?

Q.6 What are emerging trends in this embedded system market and the reasons behind them?

Q.7 What are some changing demands of customers in the embedded system market?

Q.8 What are the new developments in the embedded system market? Which companies are leading these developments?

Q.9 Who are the major players in the embedded system market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the embedded system market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the embedded system market?

## Contents

### 1. EXECUTIVE SUMMARY

### 2. MARKET BACKGROUND AND CLASSIFICATIONS

Introduction, Background, and Classifications

Supply Chain

Industry Drivers and Challenges

### 3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2015 T 2026

Macroeconomic Trends (2015-2020) and Forecast (2021-2026)

Global Embedded System Market Trends (2015-2020) and Forecast (2021-2026)

Global Embedded System Market by Application

Automotive

Consumer Electronics

Industrial

Aerospace and Defense

Energy

Healthcare

Communication

Global Embedded System Market by Hardware

Application-specific Integrated Circuits (ASIC)

Microcontrollers

Microprocessors

Power Management Integrated Circuits (PMIC)

Field Programmable Gate Arrays (FPGA)

Digital Signal Processors (DSP)

Memories

Global Embedded System Market by Software

Operating Systems

Middleware

Global Embedded System Market by Functionality

Real-time Embedded Systems

Standalone Embedded Systems

Global Embedded System Market by Product System Size

Small-scale Embedded Systems

Medium-scale Embedded Systems

Large-scale Embedded Systems

#### **4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2015 T 2026**

Global Embedded System Market by Region

North American Embedded System Market

Market by Application

Market by System Size

The US Embedded System Market

The Canadian Embedded System Market

The Mexican Embedded System Market

European Embedded System Market

Market by Application

Market by System Size

German Embedded System Market

United Kingdom Embedded System Market

French Embedded System Market

Italian Embedded System Market

APAC Embedded System Market

Market by Application

Market by System Size

Chinese Embedded System Market

Japanese Embedded System Market

Indian Embedded System Market

South Korean Embedded System Market

ROW Embedded System Market

Market by Application

Market by System Size

#### **5. COMPETITOR ANALYSIS**

Product Portfolio Analysis

Geographical Reach

Porter's Five Forces Analysis

#### **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

Growth Opportunity Analysis

Growth Opportunities for the Global Embedded System Market by Application

Growth Opportunities for the Global Embedded System Market by Hardware  
Growth Opportunities for the Global Embedded System Market by Software  
Growth Opportunities for the Global Embedded System Market by Functionality  
Growth Opportunities for the Global Embedded System Market by System Size  
Growth Opportunities for the Global Embedded System Market by Region  
Emerging Trends in the Global Embedded System Market  
Strategic Analysis  
New Product Development  
Capacity Expansion of the Global Embedded System Market  
Technology Development  
Mergers and Acquisitions in the Global Embedded System Industry

## **7. COMPANY PROFILES OF LEADING PLAYERS**

Intel  
STMicroelectronics  
Renesas  
Texas Instruments  
NXP Semiconductors

## I would like to order

Product name: Embedded System Market Report: Trends, Forecast and Competitive Analysis

Product link: <https://marketpublishers.com/r/EF50514D58B8EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/EF50514D58B8EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:  
Country:  
Tel:  
Fax:
