The future of the EMI shielding market looks promising with opportunities in the consumer electronics, telecom & IT automotive, healthcare, and aerospace & defense, and other industries. The global EMI shielding market is expected to grow with a CAGR of 5% to 7% from 2021 to 2026. The major drivers for this market are growth in communication network to develop the 5G technology, increasing demand for consumer electronics, growth in the automotive industry, and stringent environmental and EMC regulations across industries.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of EMI shielding market report download the report brochure.

The study includes trends and forecasts for the global EMI shielding market by material, method, end use industry, and region as follows:

By Material Type [\$M shipment analysis for 2015 – 2026]:

EMI Shielding Tapes & Laminates

Conductive Coatings & Paints

Metal Shielding

Conductive Polymers

EMI/EMC Filters

By Method [\$M shipment analysis for 2015 – 2026]:

Radiation

Conduction

By End Use Industry [\$M shipment analysis for 2015 – 2026]:

Consumer Electronics

Telecom & IT

Automotive

Healthcare

Aerospace & Defense

Others

By Region [\$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Conductive coatings & paints for EMI shielding will remain the largest material type segment, as they provide EMI shielding for non-metal surfaces.

Consumer electronics will remain the largest end use industry during the forecast period due to the proliferation of consumer electronics products and to comply with EMI shielding guidelines.

Asia Pacific will remain the largest region during the forecast period due to increasing automotive production, growing demand for tablets and smartphones, and growth in demand for consumer electronics.

Some of the EMI shielding companies profiled in this report include Laird Performance Materials, Parker-Hannifin, PPG Industries, and HENKEL.

Features of EMI Shielding Market

Market Size Estimates: EMI Shielding market size estimation in terms of value (\$M)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast

(2021-2026) by various segments and regions.

Segmentation Analysis: Market size by material, method, and end use industries.

Regional Analysis: EMI shielding market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different material, method, end use industries, and regions for EMI shielding market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the EMI shielding market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global EMI shielding market by material type (EMI shielding tapes & laminates, conductive coatings & paints, metal shielding, conductive polymers and EMI/EMC filters), method (radiation and conduction), end use industry (consumer electronics, telecom & IT automotive, healthcare, aerospace & defense, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the EMI shielding market?

Q.5 What are the business risks and threats to the EMI shielding market?

Q.6 What are the emerging trends in the EMI shielding market and the reasons behind them?

Q.7 What are some changing demands of customers in the EMI shielding market?

Q.8 What are the new developments in the EMI shielding market? Which companies are leading these developments?

Q.9 Who are the major players in the EMI shielding market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the EMI shielding

market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the EMI shielding market?

Contents

- Executive Summary
- Market Background and Classifications
 - Introduction, Background, and Classifications
 - Supply Chain
 - Industry Drivers and Challenges
- Market Trends and Forecast Analysis from 2015 t 2026
 - Macroeconomic Trends (2015-2020) and Forecast (2021-2026)
 - Global EMI Shielding Market Trends (2015-2020) and Forecast (2021-2026)
 - Global EMI Shielding Market by End Use Industry
 - Consumer electronics
 - Telecom & IT
 - Automotive
 - Healthcare
 - Aerospace & defense
 - Others
 - Global EMI Shielding Market by Material Type
 - EMI shielding tapes & laminates
 - Conductive coatings & paints
 - Metal shielding
 - Conductive polymers
 - EMI/EMC filters
 - Global EMI Shielding Market by Method
 - EMI shielding tapes & laminates
 - Conductive coatings & paints
- Market Trends and Forecast Analysis by Region from 2015 t 2026
 - Global EMI Shielding Market by Region
 - North American EMI Shielding Market
 - Market by End Use Industry
 - Market by Material Type
 - The US EMI Shielding Market
 - The Canadian EMI Shielding Market
 - The Mexican EMI Shielding Market
 - European EMI Shielding Market
 - Market by End Use Industry
 - Market by Material Type
 - German EMI Shielding Market
 - United Kingdom EMI Shielding Market

French EMI Shielding Market
APAC EMI Shielding Market
Market by End Use Industry
Market by Material Type
Chinese EMI Shielding Market
Japanese EMI Shielding Market
Indian EMI Shielding Market
South Korean EMI Shielding Market
ROW EMI Shielding Market
Market by End Use Industry
Market by Material Type
Competitor Analysis
Product Portfolio Analysis
Geographical Reach
Porter's Five Forces Analysis
Growth Opportunities and Strategic Analysis
Growth Opportunity Analysis
Growth Opportunities for the Global EMI Shielding Market by End Use Industry
Growth Opportunities for the Global EMI Shielding Market by Material Type
Growth Opportunities for the Global EMI Shielding Market by Region
Emerging Trends in the Global EMI Shielding Market
Strategic Analysis
New Product Development
Capacity Expansion of the Global EMI Shielding Market
Technology Development
Mergers and Acquisitions in the Global EMI Shielding Industry
Company Profiles of Leading Players
Laird Performance Materials
Parker-Hannifin
PPG Industries
HENKEL
