### Engineered Wood Trends and Forecast

The future of the global engineered wood market looks promising with opportunities in the residential and commercial & industrial markets. The global engineered wood market is expected to reach an estimated \$422.8 billion by 2030 with a CAGR of 5.5% from 2024 to 2030. The major drivers for this market are escalating demand for this wood from the non-residential segment and surge in the restoration, refurbishment, and transformation of aged structures.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Engineered Wood by Segment

The study includes a forecast for the global engineered wood by type, application, end use, and region.

Engineered Wood Market by Type [Shipment Analysis by Value from 2018 to 2030]:

I-Beams

Plywood

Laminated Veneer Lumber

Glulam

Oriented Strand Boards

Cross-Laminated Timber

Others

Engineered Wood Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Construction

Furniture

Flooring

Packaging

Others

Engineered Wood Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Residential

Commercial & Industrial

Others

Engineered Wood Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

## List of Engineered Wood Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies engineered wood companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the engineered wood companies profiled in this report include-

Boise Cascade

Havwoods

Huber Engineered Woods

Louisiana-Pacific

Mayr-Melnhof Holz Holding

Nordic Structures

Pacific WoodTech

Roseburg Forest Products

Stora Enso

UFP Industries

## Engineered Wood Market Insights

Lucintel forecasts that furniture will remain the largest segment over the forecast period.

Within this market, residential will remain larger segment due to growing demand for wood-based building materials in residential structures as well as an increase in home construction and renovation projects.

APAC will remain the largest region over the forecast period due to expanding building projects and increasing infrastructure development in the region.

### Features of the Global Engineered Wood Market

**Market Size Estimates:** Engineered wood market size estimation in terms of value (\$B).

**Trend and Forecast Analysis:** Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

**Segmentation Analysis:** Engineered wood market size by type, application, end use, and region in terms of value (\$B).

**Regional Analysis:** Engineered wood market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

**Growth Opportunities:** Analysis of growth opportunities in different types, applications, end uses, and regions for the engineered wood market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape of the engineered wood market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

### FAQ

Q1. What is the engineered wood market size?

Answer: The global engineered wood market is expected to reach an estimated \$422.8 billion by 2030.

Q2. What is the growth forecast for engineered wood market?

Answer: The global engineered wood market is expected to grow with a CAGR of 5.5%

from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the engineered wood market?

Answer: The major drivers for this market are escalating demand for this wood from the non-residential segment and surge in the restoration, refurbishment, and transformation of aged structures.

Q4. What are the major segments for engineered wood market?

Answer: The future of the engineered wood market looks promising with opportunities in the residential and commercial & industrial markets.

Q5. Who are the key engineered wood market companies?

Answer: Some of the key engineered wood companies are as follows:

Boise Cascade

Havwoods

Huber Engineered Woods

Louisiana-Pacific

Mayr-Melnhof Holz Holding

Nordic Structures

Pacific WoodTech

Roseburg Forest Products

Stora Enso

UFP Industries

Q6. Which engineered wood market segment will be the largest in future?

Answer: Lucintel forecasts that furniture will remain the largest segment over the forecast period.

Q7. In engineered wood market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region over the forecast period due to expanding building projects and increasing infrastructure development in the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the engineered wood market by type (i-beams, plywood, laminated veneer lumber, glulam, oriented strand boards, cross-laminated timber, and others), application (construction, furniture, flooring, packaging, and others), end use (residential, commercial & industrial, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players

pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
