Exosome Research Market Trends and Forecast

The future of the global exosome research market looks promising with opportunities in the academic & research institute, pharmaceutical & biotechnology companies, and hospital & clinical testing laboratory markets. The global exosome research market is expected to reach an estimated \$1.16 billion by 2028 with a CAGR of 33.6% from 2023 to 2028. The major drivers for this market are increasing number of cancer patients, growing need for cell-free therapies to treat variety of diseases, and rising funds for life sciences research.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Exosome Research Market by Segment

The study includes a forecast for the global exosome research market by product & service, indication, application, end use, and region, as follows:

Exosome Research Market by Product & Service [Value (\$B) Shipment Analysis from 2017 to 2028]:

Kits & Reagents

Instruments

Services

Exosome Research Market by Indication [Value (\$B) Shipment Analysis from 2017 to 2028]:

Cancer

Neurodegenerative Diseases

Cardiovascular Diseases

Infectious Diseases

Others

Exosome Research Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Biomarkers

Vaccine Development

Tissue Regeneration

Others

Exosome Research Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Academic & Research Institutes

Pharmaceutical & Biotechnology Companies

Hospital & Clinical Testing Laboratories

Exosome Research Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Exosome Research Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies exosome research companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the exosome research companies profiled in this report include.

Thermo Fisher Scientific

Bio-Techne Corporation

QIAGEN

System Biosciences

Miltenyi Biotec

NanoSomiX

NorgenBiotek Corp.

AMS Biotechnology

Lonza

Exosome Research Market Insights

Lucintel forecasts that kits & reagents will remain the largest segment over the forecast period because it helps in eliminating the tedious process of isolation of extracellular vesicles.

Within this market, academic & research institutes are expected to remain the largest segment due to their capability of disease diagnosis and emerging role as an intercellular messengers, has resulted in an increase in demand for exosome study in recent years.

North America is expected to remain the largest segment during the forecast period due to favorable government support in the form of funding for bio sciences research and presence of advanced infrastructure for diagnostic and lab research in the region.

Features of the Exosome Research Market

Market Size Estimates: Exosome research market size estimation in terms of value (\$B)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Exosome research market size by various segments, such as by product & service, indication, application, end use, and region

Regional Analysis: Exosome research market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by product & service, indication, application, end use, and regions for the exosome research market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the exosome research market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the exosome research market size?

Answer: The global exosome research market is expected to reach an estimated \$1.16 billion by 2028.

Q2. What is the growth forecast for exosome research market?

Answer: The global exosome research market is expected to grow with a CAGR of 33.6% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the exosome research market?

Answer: The major drivers for this market are increasing number of cancer patients, growing need for cell-free therapies to treat variety of diseases, and rising funds for life sciences research.

Q4. What are the major segments for exosome research market?

Answer: The future of the exosome research market looks promising with opportunities in the academic & research institute, pharmaceutical & biotechnology companies, and hospital & clinical testing laboratory markets.

Q5. Who are the key exosome research companies?

Answer: Some of the key exosome research companies are as follows:

Thermo Fisher Scientific

Bio-Techne Corporation

QIAGEN

System Biosciences

Miltenyi Biotec

NanoSomiX

NorgenBiotek Corp.

AMS Biotechnology

Lonza

Q6. Which exosome research segment will be the largest in future?

Answer: Lucintel forecasts that kits & reagents will remain the largest segment over the forecast period because it helps in eliminating the tedious process of isolation of extracellular vesicles.

Q7. In exosome research market, which region is expected to be the largest in next 5 years?

Answer: North America is expected to remain the largest segment during the forecast period due to favourable government support in the form of funding for bio sciences research and presence of advanced infrastructure for diagnostic and lab research in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the exosome research market by product & service (kits & reagents, instruments, and services), indication (cancer, neurodegenerative diseases, cardiovascular disease, infectious diseases, and others), application (biomarkers, vaccine development, tissue regenerative, and others), end use industry (academic & research institutes, pharmaceutical & biotechnology companies, and hospital & clinical testing laboratories),

and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity did occur in the last five years and how did they impact the industry?

For any questions related to exosome research market or related to exosome research companies, exosome research market size, exosome research market share, exosome research analysis, exosome research market growth, exosome research market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL EXOSOME RESEARCH MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1. Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2. Global Exosome Research Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Exosome Research Market by Product & Service

3.3.1 Kits & Reagents

3.3.2 Instruments

3.3.3 Services

3.4: Global Exosome Research Market by Indication

3.4.1 Cancer

3.4.2 Neurodegenerative Diseases

3.4.3 Cardiovascular Diseases

3.4.4 Infectious Diseases

3.4.5 Others

3.5: Global Exosome Research Market by Application

3.5.1 Biomarkers

3.5.2 Vaccine Development

3.5.3 Tissue Regeneration

3.5.4 Others

3.6: Global Exosome Research Market by End Use

3.6.1 Academic & Research Institutes

3.6.2 Pharmaceutical & Biotechnology Companies

3.6.3 Hospital & Clinical Testing Laboratories

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Exosome Research Market by Region

4.2: North American Exosome Research Market

4.2.1: North American Exosome Research Market by Product & Service: Kits & Reagents, Instruments, and Services

4.2.2: North American Exosome Research Market by End Use: Academic & Research Institutes, Pharmaceutical & Biotechnology Companies, and Hospital & Clinical Testing Laboratories

4.3: European Exosome Research Market

4.3.1: European Exosome Research Market by Product & Service: Kits & Reagents, Instruments, and Services

4.3.2: European Exosome Research Market by End Use: Academic & Research Institutes, Pharmaceutical & Biotechnology Companies, and Hospital & Clinical Testing Laboratories

4.4: APAC Exosome Research Market

4.4.1: APAC Exosome Research Market by Product & Service: Kits & Reagents, Instruments, and Services

4.4.2: APAC Exosome Research Market by End Use: Academic & Research Institutes, Pharmaceutical & Biotechnology Companies, and Hospital & Clinical Testing Laboratories

4.5: ROW Exosome Research Market

4.5.1: ROW Exosome Research Market by Product & Service: Kits & Reagents, Instruments, and Services

4.5.2: ROW Exosome Research Market by End Use: Academic & Research Institutes, Pharmaceutical & Biotechnology Companies, and Hospital & Clinical Testing Laboratories

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Exosome Research Market by Product & Service

6.1.2: Growth Opportunities for the Global Exosome Research Market by Indication

6.1.3: Growth Opportunities for the Global Exosome Research Market by Application

6.1.4: Growth Opportunities for the Global Exosome Research Market by End Use

6.1.5: Growth Opportunities for the Global Exosome Research Market by Region

6.2: Emerging Trends in the Global Exosome Research Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Exosome Research Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Exosome Research Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Thermo Fisher Scientific

7.2: Bio-Techne Corporation

7.3: QIAGEN

7.4: System Biosciences

7.5: Miltenyi Biotec

7.6: NanoSomiX

7.7: NorgenBiotek Corp.

7.8: AMS Biotechnology

7.9: Lonza
