Fertigation and Chemigation Market Trends and Forecast

The future of the fertigation and chemigation market looks promising with opportunities in the agriculture, landscape, horticulture, greenhouse sectors. The global fertigation and chemigation market is expected to grow with a CAGR of 6% to 8% from 2023 to 2028. The major drivers for this market are growing demand for quality food product, increasing water scarcity around the world, and continuously increasing population.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched and other details of the global fertigation and chemigation market report, please download the report brochure.

Fertigation and Chemigation Market by Segment

The study includes a forecast for the global fertigation and chemigation market by crop type, agri input, irrigation system, end use industry, and region, as follows:

Fertigation and Chemigation Market by Crop Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Field Crop

Plantation Crop

Orchard Crop
Forage and Turf Grass
Others
Fertigation and Chemigation Market by Agri Input [Value (\$B) Shipment Analysis from 2017 to 2028]:
Fertilizers
Herbicides
Insecticides
Fungicides
Others
Fertigation and Chemigation Market by Irrigation System [Value (\$B) Shipment Analysis from 2017 to 2028]:
Drip Irrigation
Sprinkler Irrigation
Others
Fertigation and ChemigationMarket by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:
Agriculture
Landscape

Horticulture
Greenhouse
Others
Fertigation and Chemigation Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:
North America
Europe
Asia Pacific
The Rest of the World
List of Fertigation and Chemigation Companies
Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies fertigation and chemigation companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the fertigation and chemigation companies profiled in this report include.
Valmont Industries
Jain Irrigation Systems
Rivulis Irrigation
Rain Bird Corporation
Nelson Irrigation Corporation

The Toro Company

Lindsay Corporation

Fertigation and Chemigation Market Insights

Lucintel forecasts that fertilizers will remain the largest segment over the forecast period due to the increasing usage of fertilizers, growing need to reduce the groundwater pollution, and rising requirement to maintain the environmental hazards.

Agriculture is expected to remain the largest segment due to the growing of greenhouse irrigation sector, rising need to reduce risk of pollinators, and increasing need for crops to receive a balanced distribution of nutrients and water.

Europe will remain the largest region due to the growing investments in agricultural activities, increasing population, and rising demand for fertigation & chemigation for easy production of the crop in the region.

Features of the Fertigation and Chemigation Market

Market Size Estimates: Fertigation and chemigation market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Fertigation and chemigation market size by various segments, such as by crop type, agri input, irrigation system, end use industry, and region

Regional Analysis: Fertigation and chemigation market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by crop type, agri input, irrigation system, end use industry, and regions for the fertigation and

chemigation market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the Fertigation and chemigation market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the fertigation and chemigation market size?

Answer: The global fertigation and chemigation market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for fertigation and chemigation market?

Answer: The global fertigation and chemigation market is expected to grow with a CAGR of 6% to 8% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the fertigation and chemigation market?

Answer: The major drivers for this market are growing demand for quality food product, increasing water scarcity around the world, and continuously increasing population.

Q4. What are the major segments for fertigation and chemigation market?

Answer: The future of the fertigation and chemigation market looks promising with opportunities in the agriculture, landscape, horticulture, greenhouse sectors.

Q5. Who are the key fertigation and chemigation companies?

Answer: Some of the key Fertigation and chemigation companies are as follows:

Valmont Industries

Jain Irrigation Systems

Rivulis Irrigation

Rain Bird Corporation

Nelson Irrigation Corporation

The Toro Company

Lindsay Corporation

Q6. Which fertigation and chemigation segment will be the largest in future?

Answer:Lucintel forecasts that fertilizers will remain the largest segment over the forecast period due to the increasing usage of fertilizers, growing need to reduce the groundwater pollution, and rising requirement to maintain the environmental hazards.

Q7. In fertigation and chemigation market, which region is expected to be the largest in next 5 years?

Answer: Europe will remain the largest region due to the growing investments in agricultural activities, increasing population and rising demand for fertigation & chemigation for easy production of the crop in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the fertigation and chemigation market by crop type (field crop, plantation crop, orchard crop, forage and turf grass, and others), agri input (fertilizers, herbicides, insecticides, fungicides, and others), irrigation system (drip irrigation, sprinkler irrigation, and others), end use industry (agriculture, landscape, horticulture, greenhouse, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

- Q.3. Which region will grow at a faster pace and why?
- Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?
- Q.5. What are the business risks and competitive threats in this market?
- Q.6. What are the emerging trends in this market and the reasons behind them?
- Q.7. What are some of the changing demands of customers in the market?
- Q.8. What are the new developments in the market? Which companies are leading these developments?
- Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?
- Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?
- Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to fertigation and chemigation market or related fertigation and chemigation companies, fertigation and chemigation market size, fertigation and chemigation market share, fertigation and chemigation analysis, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.
