Flatbread Trends and Forecast

The future of the global flatbread market looks promising with opportunities in the business-to-business and business-to-consumer markets. The global flatbread market is expected to reach an estimated \$53.8 billion by 2030 with a CAGR of 5.3% from 2024 to 2030. The major drivers for this market are growing consumer preference for gluten-free products, increase in the popularity of whole grain and wheat-based breads, and increasing inclination towards frozen flatbread items.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.
