The future of the magnesium oxysulfate market looks promising with opportunities in the construction, pharmaceutical, agriculture, and other end use industries. The global magnesium oxysulfate market is expected to grow with a CAGR of 3% to 5% from 2021 to 2026. The major drivers for this market are increasing demand for magnesium oxysulfate in the cement industry and growing demand for chemicals with good binding properties.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of magnesium oxysulfate market report download the report brochure.

The study includes trends and forecasts for the global magnesium oxysulfate market by purity, end use industry, application, and region as follows:

By Purity [Volume (Kilotons) and \$M shipment analysis for 2015 – 2026]:

Purity

Purity > 95%

By End Use Industry [Volume (Kilotons) and \$M shipment analysis for 2015 – 2026]:

Pharmaceutical

Agriculture

Construction

Others

By Application [Volume (Kilotons) and \$M shipment analysis for 2015 – 2026]:

Cement

Fibers

Others

By Region [Volume (Kilotons) and \$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Cement will remain the largest end use industry over the forecast period due to the increasing demand for magnesium sulfate cement, as it offers superior compressive and transverse strength to portland cement.

Asia Pacific will remain the largest region the forecast period due to growth in the construction and agriculture industries.

Some of the magnesium oxysulfate companies profiled in this report include PQ Corporation, UMAI CHEMICAL, Laizhou Guangcheng Chemical, Laizhou Zhongda Chemical, Giles, Balaji, China Nafine Group International, Laizhou City Laiyu Chemical, and Weifang Guomei Chemical.

Features of Magnesium Oxysulfate Market

Market Size Estimates: Magnesium oxysulfate market size estimation in terms of value (\$M) and volume (kilotons)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Market size by purity, end use industry, and application

Regional Analysis: Magnesium oxysulfate market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different purity, end use industry, application, and regions for magnesium oxysulfate market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the magnesium oxysulfate market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

- Q.1 What are some of the most promising potential, high-growth opportunities for the global magnesium oxysulfate market by purity (purity 95%), end use industry (pharmaceutical, agriculture, construction, and others), application (cement, fibers, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?
- Q.2 Which segments will grow at a faster pace and why?
- Q.3 Which regions will grow at a faster pace and why?
- Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the magnesium oxysulfate market?
- Q.5 What are the business risks and threats to the magnesium oxysulfate market?
- Q.6 What are emerging trends in this magnesium oxysulfate market and the reasons behind them?
- Q.7 What are some changing demands of customers in the magnesium oxysulfate market?
- Q.8 What are the new developments in the magnesium oxysulfate market? Which companies are leading these developments?
- Q.9 Who are the major players in the magnesium oxysulfate market? What strategic initiatives are being implemented by key players for business growth?
- Q.10 What are some of the competitive products and processes in the magnesium oxysulfate market, and how big of a threat do they pose for loss of market share via material or product substitution?
- Q.11 What M&A activities did take place in the last five years in the magnesium oxysulfate market?
