## Abstracts

The global automotive lightweight materials market is expected to grow at a CAGR of 8.1% during 2014-2019. The major drivers of the global automotive lightweight materials market are government regulations on the fuel economy and emission controls, increasing stringent safety regulations, high vehicle production, increasing use of lightweight materials, increasing gasoline prices and fuel economy, and replacement of traditional materials.

Lucintel, a leading global management consulting and market research firm, has analyzed the global automotive lightweight materials market by material types in four different regions and has come up with a comprehensive research report, "Global Automotive Lightweight Materials Market 2014-2019: Trends, Forecast, and Opportunity Analysis". This report provides an analysis of the global automotive lightweight materials market by value and volume, including an analysis of the market trends, competitive landscapes, company profiles, emerging trends, and key drivers of market growth. The study also includes global automotive lightweight materials market forecasts through 2019, segmented by material types and regions as follows:

The global automotive lightweight materials market segmented by material types:

AHSS

Aluminum

Magnesium

Polypropylene

Polyamide

Polyurethane

Thermosetting Composites

High Performance Polymers

Others

The global automotive lightweight materials market by regions:

North America

Europe

Asia Pacific

Rest of World

On the basis of its comprehensive research, Lucintel forecasts that the global automotive lightweight materials market is expected to depict high growth during 2014-2019. The aluminum materials segment is likely to remain the largest segment in the global automotive lightweight materials market by material types during the forecast period. ArcelorMittal SA, Bayer MaterialScience AG, ThyssenKrupp AG, Alcoa Inc., and Novelis Inc. are some of the suppliers of lightweight materials for various applications in the automotive industry.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. AUTOMOTIVE LIGHTWEIGHT MATERIALS MARKET BACKGROUND AND CLASSIFICATIONS**

#### 2.1: Introduction

2.1.1: Industry Classification

2.1.2: Markets Served

2.1.3: Supply Chain

### **3. MARKET TREND AND FORECAST ANALYSIS**

#### 3.1: Market analysis 2013

3.1.1: Global automotive lightweight materials market by segment

3.1.2: Regional automotive lightweight materials market by value and volume

#### 3.2: Market trend 2008-2013

3.2.1: Macroeconomic trends

3.2.2: Global automotive lightweight materials market by value and volume

3.2.3: North American automotive lightweight materials market trend by value and volume

3.2.4: European automotive lightweight materials market trend by value and volume

3.2.5: APAC automotive lightweight materials market trend by value and volume

3.2.6: ROW automotive lightweight materials market trend by value and volume

3.2.7: Industry drivers and challenges

#### 3.3: Market forecast 2014–2019

3.3.1: Macroeconomic forecasts

3.3.2: Global automotive lightweight materials market forecast by value and volume

3.3.3: North American automotive lightweight materials market forecast by value and volume

3.3.4: European automotive lightweight materials market forecast by value and volume

3.3.5: APAC automotive lightweight materials market forecast by value and volume

3.3.6: ROW automotive lightweight materials market forecast by value and volume

### **4. COMPETITOR ANALYSIS**

4.1: Product portfolio analysis

4.2: Market share analysis

- 4.3: Growth leadership analysis
- 4.4: Porter's Five Forces Analysis

## **5. GROWTH OPPORTUNITY & STRATEGIC ANALYSIS**

- 5.1: Growth opportunities for global automotive lightweight materials market by region
- 5.2: Emerging trends in global automotive lightweight materials market
- 5.3: Strategic analysis
  - 5.3.1: New product development
  - 5.3.2: Expansion strategy
- 5.4: Growth strategies for automotive lightweight materials suppliers
  - 5.4.1: Opportunities for automotive lightweight materials across the globe
- 5.5: Innovations in automotive lightweight materials market
- 5.6: Mergers and acquisitions in global automotive lightweight materials market

## **6. COMPANY PROFILES OF LEADING PLAYERS**

## **7. CUSTOMER ANALYSIS**

- 7.1: Customers in different segments
- 7.2: Customer's geographic reach
- 7.3: Major customer profiles

## List Of Figures

### LIST OF FIGURES

#### Chapter 2. Automotive Lightweight Materials Market Background and Classifications
