Abstracts

The global Long Fiber Thermoplastics (LFT) Market is expected to grow at a CAGR of 5.4% during 2015-2020. The major driver of the LFT market is an increasing demand for lightweight and high-performance products. The LFT demand appear to be robust due to the increasing penetration of composites and growth of end user industries.

Automotive, which is the largest market of LFT, is likely to depict a good growth over the forecast period. Rising environmental concerns and increasing government mandates to achieve higher fuel economy will also help the LFT market to grow in the near future.

Lucintel, a leading global management consulting and market research firm, has analyzed the global long fiber thermoplastics market by applications in three different regions and has come up with a comprehensive research report, "Global Long Fiber Thermoplastics Market 2015-2020: Trends, Forecast, and Opportunity Analysis." This report provides an analysis of the LFT market by value and volume, including the analysis of market trends, competitive landscapes, company profiles, emerging trends, and key drivers of market growth. The study also includes the global LFT market forecasts through 2020, segmented by applications, forms of materials, reinforcement types, resin types, and regions as follows:

The global LFT market by applications: Automotive Consumer Goods Industrial Goods Others

The global LFT market by regions: North America Europe Asia Pacific (including Rest of the World)

On the basis of its comprehensive research, Lucintel forecasts that majority of the segments of LFT will depict good growth rate during 2015-2020. The automotive industry rebounded and auto production is expected to grow across the regions. Innovations for new and bio-based product development and finding metal replacement

options are anticipated to boost the LFT demand. SABIC, Celanese, RTP Company, Chisso/JNC, Techno Compound are among the major suppliers of LFT.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

To make business, investment, and strategic decisions, you need timely, useful information. This market report fulfills this core need and is an indispensable reference guide for multinational materials suppliers, product manufacturers, investors, executives, distributors, and many more that operate in this market.

Some of the features of "Opportunities in Global Long Fiber Thermoplastics Market: 2015-2020 Trends, Forecast, and Opportunity Analysis" include:

Market size estimates: Global long fiber thermoplastics market size estimation in terms of volume (M lbs.) and value (\$M) shipment. Trend and forecast analysis: Global long fiber thermoplastics market trend (2009-2014) and forecast (2015-2020) by regions and by segments. Segmentation analysis: Global long fiber thermoplastics market size by various application segments such as automotive, consumer goods, industrial goods and others both in terms of volume and value shipment. Regional analysis: Global long fiber thermoplastics market breakdown by key regions such as North America, Europe, Asia Pacific, and Rest of World. Growth opportunities: Analysis on growth opportunities in different applications and regions. Strategic analysis: This includes M&A, new product development, competitive landscape, and expansion strategies of global long fiber thermoplastics suppliers. Emerging applications: Emerging applications of global long fiber thermoplastics in various markets. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

Contents

1. EXECUTIVE SUMMARY

2. INDUSTRY BACKGROUND AND CLASSIFICATIONS

2.1: Introduction

2.1.1: Industry classification

2.1.2: Market served

2.1.3: Supply chain

3. MARKET TREND AND FORECAST ANALYSIS

3.1: Current market analysis

3.1.1: Global LFT market by value and volume

3.1.2: Regional LFT market by value and volume

3.2: Market Trend: 2009-2014

3.2.1: Macroeconomic trends

3.2.2: Global LFT market trend by value and volume

3.2.3: Regional LFT market trend by value and volume

3.2.4: Industry drivers and challenges

3.3: Market forecast 2015-2020

3.3.1: Macroeconomic forecasts

3.3.2: Global LFT market forecast by value and volume

3.3.3: Regional LFT market forecast by value and volume

4. COMPETITOR ANALYSIS

4.1: Product portfolio analysis

4.2: Market share analysis

4.3: Geographical reach

4.4: Operational integration

4.5: Porter's Five Forces Analysis

5. GROWTH OPPORTUNITY & STRATEGIC ANALYSIS

5.1: Growth opportunities analysis

5.1.1: Innovations in global LFT industry

5.2: Emerging trends in global LFT market

5.3: Strategic analysis

5.3.1: New market entry

5.3.2: New product development

5.3.3: Expansion strategy

5.4: Mergers and acquisitions in global LFT industry

6. COMPANY PROFILES OF LEADING PLAYERS
