Abstracts

The global telecom cable industry experienced good growth during 2006-2011 and is expected to retain the same growth momentum over 2012-2017. The industry is forecast to reach an estimated \$25.4 billion by 2017 at a CAGR of 6.7% over the next five years (2012-2017).

Telecom cables include fiber optic and copper cables, of which the fiber optic cable segment of the global telecom cable industry represents good growth during the forecast period. Lucintel, a leading global management consulting and market research firm, has analyzed global telecom cable industry and offers its findings in its comprehensive research report, 'Global Telecom Cable Industry 2012-2017: Trend, Profit, and Forecast Analysis.' Lucintel has identified that technological challenges, supply and demand market, government regulations, tight liquidity positions, and scarcity of skilled workforce are the major industry growth challengers. Increasing budget allocation, positive trend in telecom sector, new technological advancements, supportive GDP growth, and high investments made by private companies are the drivers providing the industry with a competitive advantage. This market report is an indispensable reference guide for materials suppliers, product manufacturers, investors, executives, distributors, and many more that operate in this market.

To make business, investment, and strategic decisions, you need timely, useful information these market reports fulfill these core needs. This Lucintel research report provides excellent understanding of recent industry scope and overview, global macroeconomic overview, relative market attractiveness by region, annual industry trend, emerging trends, industry forecasts, Porter's Five Forces analysis, product launches and merger and acquisitions that determine the regional and segmentary opportunities, competitive landscape, and profitability trend and analysis of the major

industry players. The key insights sections portray beneficial information on an industry segment's growth and regional growth trends.

This comprehensive guide from Lucintel provides readers with valuable information and the tools needed to successfully drive critical business decisions with a thorough understanding of the market's potential. This report will save Lucintel clients hundreds of hours in personal research time on a global market and it offers significant benefits in expanding business opportunities throughout the global telecom cable industry analysis. In a fast-paced ever-changing world, business leaders need every advantage available to them in a timely manner to drive change in the market and to stay ahead of their competition. This report provides business leaders with a keen advantage in this regard by making them aware of emerging trends and demand requirements on an annual basis.

Features and Scope of this Report:

To make any investment or strategic decision, you need adequate and timely information. This market report fulfills this core need. **Some of the features of this market report are:**

Industry size estimates in terms of (US \$) value by regions and segments

Global telecom cable industry analysis annual trend (2006-2011) and forecast (2012- 2017)

Porter's Five Force analysis

New product launch and merger and acquisition activity in global telecom cable industry analysis

Quarterly demand trend (Q1 2010-Q4 2011) and forecast analysis (Q1 2012-Q4 2013) for global telecom cable industry analysis

Gross and net profit trends in the global telecom cable industry analysis

Cost structure trend in the global as well as regional telecom cable industry analysis

Contents

- 1. EXECUTIVE SUMMARY**
- 2. INDUSTRY DEFINITION AND SCOPE**
- 3. INDUSTRY OVERVIEW**
- 4. GLOBAL MACROECONOMIC OVERVIEW**
- 5. INDUSTRY TRENDS**
- 6. INDUSTRY FORECASTS**
- 7. EMERGING TRENDS**
- 8. CONCLUSIONS**
