Abstracts

According to this report, The global waste management and remediation services industry experienced good growth during the last five years and is expected to continue its growth momentum, reaching approximately US\$263.4billion in 2017 with a CAGR of 4.7% over the next five years (2012-2017).Increasing population, rise in living standard of people in emerging and developed economies, technological advancement, and impending infrastructural projects urbanization are expected to drive the industry.

The global waste management and remediation services industry experienced good growth during the last five years and is expected to continue its growth momentum, reaching approximately US\$263.4billion in 2017 with a CAGR of 4.7% over the next five years (2012-2017).Increasing population, rise in living standard of people in emerging and developed economies, technological advancement, and impending infrastructural projects urbanization are expected to drive the industry.

Lucintel, a leading global management consulting and market research firm, has analyzed the global waste management and remediation services industry and presents its findings in -Global Waste Management and Remediation Services Industry 2012-2017:Trend, Profit and Forecast Analysis.

The industry covers the revenue generated from the collection, treatment, and disposal of solid waste, which includes hazardous and non-hazardous waste and remediation services. North America dominates the market, contributing 44.7%. The industry is fragmented with a substantial number of companies. A robust growth for the industry is expected in the near future.

Lucintel's research indicates that in 2011, the industry witnessed a robust growth over 2010 as growth and advancement in the economy fostered the demand for a cleaner environment and technologies for remediation of contaminated land.

APAC is expected to emerge as the most potential region for growth in the industry due to good growth in solid waste generation promoted by significant industrialization, urbanization, and government regulations for organizations releasing waste and causing damage and pollution.

Government regulation for a clean environment, technological advancement and operational flexibility, population growth and awareness, investment in infrastructure, growth in the economy, and industrialization are anticipated to boost the industry. The industry is expected to face certain challenges such as Performance and operational effectiveness, unorganized and illegal waste disposal, poor waste management and resource depletion, and a lack of consumer knowledge about recycled products.

This study provides an overview of the global waste management and remediation services industry. The report tracks two market segments for four geographic regions: thus, it tracks eight segments of the industry.

This comprehensive guide from Lucintel provides readers with valuable information and the tools needed to successfully drive critical business decisions with a thorough understanding of the market's potential. This report will save Lucintel clients hundreds of hours in personal research time on a global market and it offers significant benefits in expanding business opportunities throughout the global waste management and remediation services industry. In a fast-paced ever-changing world, business leaders need every advantage available to them in a timely manner to drive change in the market and to stay ahead of their competition. This report provides business leaders with a keen advantage in this regard by making them aware of emerging trends and demand requirements on an annual basis.

To make any investment or strategic decision, you need adequate and timely information. This market report fulfills this core need. **Some of the features of this market report are:**

Industry size estimates in terms of (US \$) value by regions and by segment

Global waste management and remediation services industry annual trend (2006-2011) and forecast (2012-2017)

Porter's Five Force analysis

New product launch and merger and acquisition activity in global waste management and remediation services industry

Quarterly demand trend (Q1 2010-Q4 2011) and forecast analysis (Q1 2012 Q4 2012) for global waste management and remediation services industry

Gross and net profit trends in the global waste management and remediation services industry

Cost structure trend in the global as well as regional waste management and remediation services industry

More than 49 valuable figures and charts and 10 tables are provided in this report

Contents

- 1. EXECUTIVE SUMMARY**
- 2. INDUSTRY DEFINITION AND SCOPE**
- 3. INDUSTRY OVERVIEW**
- 4. GLOBAL MACROECONOMIC OVERVIEW**
- 5. INDUSTRY TRENDS**
- 6. INDUSTRY FORECASTS**
- 7. EMERGING TRENDS**
- 8. CONCLUSIONS**
