Abstracts

Green Building Material Market Trends and Forecast

The future of the green building material market looks promising with opportunities in the residential and non-residential market. The global green building material market is expected to grow with a CAGR of 12% to 14% from 2023 to 2028. The major drivers for this market are increasing building construction & renovation activities, growing government regulations, and initiatives to implement environmentally sustainable & energy-efficient building standards.

Green Building Material Market by Product, Application, and End User

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched and other details of the global green building material market report please download the report brochure.

Green Building Material Market by Segments

Green Building Material Market by Segment

The study includes a forecast for the global green building material market by product, application, end-user, and region, as follows:

Green Building Material Market by Product [Value (\$B) Shipment Analysis from 2017 to 2028]:

Exterior

Interior

Structural
Others

Green Building Material Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Insulation
Roofing
Framing
Interior Finishing
Exterior Siding
Others

Green Building Material Market by End-User [Value (\$B) Shipment Analysis from 2017 to 2028]:

Residential
Non-Residential

Green Building Material Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America
Europe
Asia Pacific
The Rest of the World

List of Green Building Material Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies green building material companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the green building material companies profiled in this report include.

Kingspan Group
Amvik Systems
BASF

Alumasc Group Plc
Bauder Limited
Binderholz
Forbo International
Interface
Owens Corning

Green Building Material Market Insights

Lucintel forecasts that structural will remain the largest segment over the forecast period due to its ability to reduce carbon emissions and provide superior durability at a lower cost.

Within this market, insulation is expected to remain the largest segment due to its ability to energy conservation and increasing construction activities.

North America will remain the largest region due to building codes and favourable policies regarding the use of green building material in the construction industry coupled with increasing renovation activities.

Features of the Green Building Material Market

Market Size Estimates: Green building material market size estimation in terms of value (\$B)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Green building material market size by various segments, such as by product, application, end-user, and region.

Regional Analysis: Green building material market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by product, application, end-user, and regions for the green building material market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the green building material market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the green building material market size?

Answer: The global green building material market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for green building material market?

Answer: The global green building material market is expected to grow with a CAGR of 12% to 14% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the green building material market?

Answer: The major drivers for this market are increasing building construction & renovation activities, growing government regulations, and initiatives to implement environmentally sustainable & energy-efficient building standards.

Q4. What are the major segments for green building material market?

Answer: The future of the green building material market looks promising with opportunities in the residential and non-residential market.

Q5. Who are the key green building material companies?

Answer: Some of the key green building material companies are as follows:

Kingspan Group

Amvik Systems

BASF

Alumasc Group Plc

Bauder Limited

Binderholz

Forbo International

Interface

Owens Corning

Q6. Which green building material segment will be the largest in future?

Answer: Lucintel forecasts that structural will remain the largest segment over the forecast period due to its ability to reduce carbon emissions and provide superior durability at a lower cost.

Q7. In green building material market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region due to building codes and favourable policies regarding the use of green building material in the construction industry coupled with increasing renovation activities.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the green building material market by product (exterior, interior, and structural), application (insulation, roofing, framing, interior finishing, and exterior siding), end-user (residential

and non-residential) and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to green building material market or related green building material companies, green building material market size, green building material market share, green building material analysis, write Lucintel analyst at email:

helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL GREEN BUILDING MATERIAL MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Green Building Material Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Green Building Material Market by Product

3.3.1: Exterior

3.3.2: Interior

3.3.3: Structural

3.3.4: Others

3.4: Global Green Building Material Market by Application

3.4.1: Insulation

3.4.3: Roofing

3.4.2: Framing

3.4.4: Interior Finishing

3.4.5: Exterior Siding

3.4.6: Others

3.5: Global Green Building Material Market by End-User

3.5.1: Residential

3.5.2: Non-Residential

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Global Green Building Material Market by Region

4.2: North American Green Building Material Market

4.2.1: North American Green Building Material Market by Product: Exterior, Interior, and Structural

4.2.2: North American Green Building Material Market by Application: Residential and

Non-Residential

4.3: European Green Building Material Market

4.3.1: European Green Building Material Market by Product: Exterior, Interior, and Structural

4.3.2: European Green Building Material Market by Application: Residential and Non-Residential

4.4: APAC Green Building Material Market

4.4.1: APAC Green Building Material Market by Product: Exterior, Interior, and Structural

4.4.2: APAC Green Building Material Market by Application: Residential and Non-Residential

4.5: ROW Green Building Material Market

4.5.1: ROW Green Building Material Market by Product: Exterior, Interior, and Structural

4.5.2: ROW Green Building Material Market by Application: Residential and Non-Residential

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Green Building Material Market by Product

6.1.2: Growth Opportunities for the Global Green Building Material Market by Application

6.1.3: Growth Opportunities for the Global Green Building Material Market by End-User

6.1.4: Growth Opportunities for the Global Green Building Material Market by Region

6.2: Emerging Trends in the Global Green Building Material Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Green Building Material Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Green Building Material Market

7. COMPANY PROFILES OF LEADING PLAYERS

- 7.1: Kingspan Group
- 7.2: Amvik Systems
- 7.3: BASF SE
- 7.4: Alumasc Group Plc
- 7.5: Bauder Limited
- 7.6: Binderholz
- 7.7: Forbo International
- 7.8: Interface
- 7.9: Owens Corning
