Abstracts

The global sheet molding compound market is expected to grow at a CAGR of 5.5% during 2014-2019. The major driver of the sheet molding compound market is the increasing focus on lightweight materials in the automotive industry to achieve fuel efficiency. The demand for sheet molding compound is driven by the growth in end user applications, such as transportation, electrical & electronics, and construction industry. Asia Pacific is the largest consumer of the global sheet molding compound market, driven by growth in end user industries in China and India.

Lucintel, a leading global management consulting and market research firm, has analyzed the global sheet molding compound market by various segments and regions, and has come up with a comprehensive research report "Growth Opportunities for the Global Sheet Molding Compound Market 2014-2019: Trends, Forecast, and Market Analysis." This report provides an analysis of the sheet molding compound market including analysis of market trends, competitive landscapes, company profiles, emerging trends, and key drivers of industry growth. The study also includes the global sheet molding compound market forecasts through 2019, segmented by regions and markets as follows:

The global sheet molding compound market segmented by regions:

North America

Europe

Asia Pacific

Rest of World

The global sheet molding compound market segmented by application markets:

Transportation

E&E

Construction

Others

On the basis of its comprehensive research, Lucintel forecasts that the global sheet molding compound market is expected to depict a moderate growth during 2014-2019. The transportation industry is expected to remain the largest segment in terms of both value and volume during the forecast period. The major driving force behind the growth of the market is the increasing penetration of SMC materials in the automotive industry to reduce the overall weight of the vehicle in order to achieve better fuel efficiency. IDI Composites International, Premix, Menzolit, Magna, Polynt, and Continental Structural Plastics are some of the major producers of sheet molding compound materials for various applications.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

Contents

1. EXECUTIVE SUMMARY

2. INDUSTRY BACKGROUND AND CLASSIFICATIONS

- 2.1: Introduction
- 2.2: Market classification
- 2.3: Market served
- 2.4: Supply chain

3. MARKET TREND AND FORECAST ANALYSIS

- 3.1: Market analysis 2013
 - 3.1.1: Global SMC market by end use applications in terms of value and volume
 - 3.1.2: Global SMC market by region in terms of value and volume
- 3.2: Market trend 2008-2013
 - 3.2.1 Macroeconomic trends
 - 3.2.2 Global SMC market trend by value and volume
 - 3.2.3 Regional SMC market by value and volume
 - 3.2.4 Industry drivers and challenges
- 3.3 Market forecast 2014–2019
 - 3.3.1 Macroeconomic forecast
 - 3.3.2 Global SMC market forecast by value and volume
 - 3.3.3 Regional SMC market by value and volume

4. COMPETITOR ANALYSIS

- 4.1: Product portfolio analysis
- 4.2: Market share analysis
- 4.3: Geographical reach
- 4.4: Operational integration
- 4.5: Porter's Five Forces Analysis

5. GROWTH OPPORTUNITY AND STRATEGIC ANALYSIS

- 5.1 Growth opportunities analysis
 - 5.1.1 Growth opportunities for the global SMC market by region
 - 5.1.2 Growth opportunities for the global SMC market by end use application

5.2 Emerging trends for the global SMC market

5.3 Strategic analysis

5.3.1 New product development by competitors

5.3.2 Expansion strategy

5.4 Mergers and acquisitions in the global SMC market

6. COMPANY PROFILES OF LEADING PLAYERS
