Abstracts

The global titanium mill products industry is expected to grow at a CAGR of 2.9% over 2015-2020. Growth in the power, healthcare, chemical, and aerospace sectors is likely to create demand opportunities for the titanium mill products market globally. Increasing demand for high strength and lightweight materials in different industries increases the demand for titanium mill products. The aerospace industry is expected to be the largest market for titanium mill products. Growth in the aerospace industry along with the higher use of carbon fiber composites, which are compatible with titanium, is likely to increase the demand for titanium. Being lightweight materials along with outstanding corrosion resistance properties, titanium mill products are the preferred material for aircraft manufacturers.

Lucintel, a leading global management consulting and market research firm, has analyzed the global titanium mill products industry by applications, product types, and regions and has come up with a comprehensive research report, "Growth Opportunities for Global Titanium Mill Products Industry 2014-2019." This report provides an analysis of the global titanium mill products industry, including the industry trends, competitive landscapes, company profiles, emerging trends, and key drivers of the industry growth. The study also includes forecast of the global titanium mill products industry through 2019 by value (\$M) and by volume (million lbs) segmented by applications and regions as follows:

The global titanium mill products industry segmented by regions North America Europe Asia Pacific Rest of World

The global titanium mill products segmented by applications Commercial Aircraft Military Aircraft Power Plants Marine Other Industrial and Consumer

The global titanium mill products market segmented by product types for one year Sheet and Plates Billets and Bars Others

On the basis of its comprehensive research, Lucintel forecasts that majority of the segments for the global titanium mill products market will have good growth during 2014-2019. The chemical and commercial aircraft segment is expected to witness sound growth. North America is expected to remain as the dominate player in the industry. Precision Castparts Corp., VSMPO-AVISMA Corporation, Allegheny Technologies Incorporated, Baoji Titanium Industry Co., Ltd., and RTI International Metals, Inc. are some of the major suppliers of titanium mill products. The industry players are focusing on partnership and strategic alliances to meet the constantly changing demands of customers.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

To make business, investment, and strategic decisions, you need timely, useful information. This market report fulfills this core need and is an indispensable reference guide for multinational materials suppliers, product manufacturers, investors, executives, distributors, and many more that operate in this market.

Some of the features of "Growth Opportunities for Global Titanium Mill Products Industry 2014-2019: Trends, Forecast, and Opportunity Analysis" include:

Market size estimates: Global titanium mill products industry size estimation in terms of volume (M lbs.) and value (\$M) shipment. Trend and forecast analysis: Global titanium mill products industry trend (2009-2014) and forecast (2015-2020) by regions and by segments. Segmentation analysis: Global titanium mill products industry size by various application segments such as automotive, consumer goods, industrial goods and others both in terms of volume and value shipment. Regional analysis: Global titanium mill products industry breakdown by key regions such as North America, Europe, Asia Pacific, and Rest of World. Growth opportunities: Analysis on growth opportunities in different applications and regions. Strategic analysis: This includes M&A, new product development, competitive landscape, and expansion strategies of global titanium mill products suppliers. Emerging applications: Emerging applications of global titanium mill

products in various markets. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

Contents

1. EXECUTIVE SUMMARY

2. INDUSTRY BACKGROUND AND CLASSIFICATIONS

- 2.1. Introduction
- 2.2. Industry classification
- 2.3. Market served
- 2.4. Supply chain

3. MARKET TREND AND FORECAST ANALYSIS

- 3.1. Market analysis 2013
 - 3.1.1. Global titanium mill products market by end use applications
 - 3.1.2. Global titanium mill products market by region
- 3.2. Market trend 2008-2013
 - 3.2.1. Macroeconomic trends
 - 3.2.2. Global titanium mill products market trend by value and volume
 - 3.2.3. Regional titanium mill products market by value and volume
 - 3.2.4. Industry drivers and challenges
- 3.3. Market forecast 2014-2019
 - 3.3.1. Macroeconomic forecast
 - 3.3.2. Global titanium mill products market forecast by value and volume
 - 3.3.3. Regional titanium mill products market by value and volume

4. COMPETITOR ANALYSIS

- 4.1. Product portfolio analysis
- 4.2. Market share analysis
- 4.3. Geographical reach
- 4.4. Operational integration
- 4.5. Porter's Five Forces Analysis

5. GROWTH OPPORTUNITY AND STRATEGIC ANALYSIS

- 5.1. Growth opportunities analysis
 - 5.1.1. Growth opportunities for global titanium mill products industry by regions
 - 5.1.2. Growth opportunities for global titanium mill products market by end use

applications

5.2. Emerging trends for global titanium mill products market

5.3. Strategic analysis

5.3.1. New product development by competitors

5.3.2. Expansion strategy

5.4. Mergers and acquisitions in global titanium mill products market

6. COMPANY PROFILES OF LEADING PLAYERS
