Abstracts

The future of thermoplastic composites in the European consumer goods market looks promising with opportunities in circuit breakers, power tools, appliances, and furniture. Thermoplastic composites in the European consumer goods market are expected to reach an estimated \$1.2 billion by 2022 and are forecast to grow at a CAGR of 2.0% from 2017 to 2022.

Emerging trends, which have a direct impact on the dynamics of the thermoplastic composites in the European consumer goods industry, include the increasing use of thermoplastic composites in new applications and growing inter-material competition.

A total of 56 figures / charts and 47 tables are provided in this 137-page report to help in your business decisions.

The study includes the thermoplastic composites in the European consumer goods market size and forecast for growth opportunities for thermoplastic composites in the European consumer goods market through by application, resin type, and material type, as follows:

Thermoplastic composites in the European consumer goods market by application [Volume (M lbs) and Value (\$ Million) from 2011 to 2022]:

Circuit Breakers

Power Tools

Appliances

Furniture

Others

Thermoplastic composites in the European consumer goods market by resin type [volume (M lbs) and Value (\$ Million) from 2011 to 2022]:

Polyamide (PA)

Polypropylene (PP)

Polybutylene terephthalate (PBT)

Others

Thermoplastic composites in the European consumer goods market by material type [volume (M lbs) and Value (\$ Million) from 2011 to 2022]:

Short Fiber Thermoplastics (SFT)

Long Fiber Thermoplastics (LFT)

Others

Thermoplastic composites in the European consumer goods market companies profiled in this market include DSM, BASF SE, SABIC, DuPont, LANXESS, Solvay, and Celanese are among the major suppliers of thermoplastic composites in the European consumer goods market.

On the basis of comprehensive research, the researcher forecasts that the appliances and furniture applications are expected to show above average growth during the forecast period.

By material type, short fiber reinforced thermoplastic (SFT) composites are expected to remain the largest market for thermoplastic composites in the European consumer

goods market in value shipment because they offer versatility in processing.

By resin type, polypropylene (PP) based thermoplastic composites in the European consumer goods market are expected to remain the most widely-used thermoplastic composite by both value and volume.

Some of the features of “Growth Opportunities for Thermoplastic Composites in the European Consumer Goods Market 2017-2022: Trends, Forecast, and Opportunity Analysis” include:

Market size estimates: Thermoplastic composites in the European consumer goods market size estimation in terms of value (\$M) and volume (M lbs.) shipment.

Trend and forecast analysis: Market trend (2011-2016) and forecast (2017-2022) by segments and region.

Segmentation analysis: Thermoplastic composites in the European consumer goods market size by various applications such as application, resin and material in terms of value and volume shipment.

Regional analysis: Thermoplastic composites in the European consumer goods market breakdown by key regions such as North America, Europe, and Asia & Rest of World.

Growth opportunities: Analysis on growth opportunities in different application, manufacturing process, product, country of thermoplastic composites in the European consumer goods market.

Strategic analysis: This includes M&A, new product development, and competitive landscape of thermoplastic composites in the European consumer goods market

Analysis of competitive intensity of the industry based on Porter’s Five Forces model.

This report answers the following 10 key questions:

Q.1. What are some of the most promising, high-growth opportunities for thermoplastic composites in the European consumer goods market by application (circuit breakers, power tools, appliances, furniture, and others), resin type (Polyamide (PA), Polypropylene (PP), Polybutylene terephthalate (PBT), and others), material type (Short Fiber Thermoplastics (SFT), Long Fiber Thermoplastics (LFT), and others)?

- Q.2. Which application segments will grow at a faster pace at what rate and why?
- Q.3. What are the key factors affecting market dynamics? What are the drivers, challenges, and business risks in thermoplastic composites in the European consumer goods market?
- Q.4. What are the business risks and competitive threats in thermoplastic composites in the European consumer goods market?
- Q.5. What are emerging trends in this market and the reasons behind them?
- Q.6. What are some of the changing demands of customers in thermoplastic composites in the European consumer goods market?
- Q.7. What are the new developments of thermoplastic composites in the European consumer goods market and which companies are leading these developments?
- Q.8. Who are the major players in thermoplastic composites in the European consumer goods market? What strategic initiatives are being taken by key companies for business growth?
- Q.9. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by product substitution?
- Q.10. What M&A activities by the major thermoplastic composites in the European consumer goods suppliers have occurred in the last 5 years in thermoplastic composites in the European consumer goods market?

Contents

1. EXECUTIVE SUMMARY

2. THERMOPLASTIC COMPOSITES IN THE EUROPEAN CONSUMER GOODS MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2011 TO 2022

3.1: Macroeconomic Trends and Forecast Analysis

3.2: Thermoplastic Composites in European Consumer Goods Market Trends and Forecast

3.3: Thermoplastic Composites in the European Consumer Goods Market by Application

3.3.1: Circuit Breakers

3.3.2: Power Tools

3.3.3: Appliances

3.3.4: Furniture

3.3.5: Others

3.4: Thermoplastic Composites in European Consumer Goods Market by Resin Type

3.4.1: Polyamide

3.4.2: Polypropylene

3.4.3: Polybutylene Terephthalate

3.4.4: Others

3.5: Thermoplastic Composites in European Consumer Goods Market by Material Type

3.5.1: Short fiber Reinforced Thermoplastic

3.5.2: Long fiber Reinforced Thermoplastic

3.5.3: Others

4. COMPETITOR ANALYSIS

4.1: Product Portfolio Analysis

4.2: Market Share Analysis

4.3: Operational Integration

4.4: Geographical Reach

4.5: Porter's Five Forces Analysis

5. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

5.1: Growth Opportunities Analysis

5.1.1: Growth Opportunities for Thermoplastic Composites in the European Consumer Goods Market by Application

5.1.2: Growth Opportunities for Thermoplastic Composites in the European Consumer Goods Market by Resin

5.1.3: Growth Opportunities for Thermoplastic Composites in the European Consumer Goods Market by Material Type

5.2: Innovations in Thermoplastic Composite Market

5.3: Emerging Trends of Global Thermoplastic Composite Market

5.4: Strategic Analysis

5.4.1: New Product Development

5.4.2: Capacity Expansion in Thermoplastic Composites Market

5.4.3: Mergers, Acquisitions and Joint Ventures

6. COMPANY PROFILES OF LEADING PLAYERS

6.1: DuPont

6.2: DSM

6.3: Solvay

6.4: BASF SE

6.5: SABIC

6.6: Celanese

6.7: LANXESS

6.8: TenCate
