## Abstracts

According to a new market report published by Lucintel, the future of the global aluminum door and window market looks promising, with opportunities in the growth of the residential and commercial construction industry. The global aluminum door and window market is estimated to reach \$72.1 billion by 2021 and is forecast to grow at a CAGR of 5.1% from 2016 to 2021. The major drivers of growth for this market are increasing new construction and renovation activities.

In this market, residential and commercial are the market segments by end use type. Commercial construction segment is the major segment by end use of the global aluminum door and window market, as the acceptance of aluminum in commercial building is increasing. On the basis of its comprehensive research, Lucintel forecasts that the commercial segment is expected to show above average growth rate due increasing urbanization and commercialization during the forecast period.

Within the global aluminum door and window market, the aluminum window segment is expected to remain the largest market. Increasing construction activities and aesthetic appeal of aluminum door and window products are projected to augment the demand for the aluminum door and window market. These major factors would spur growth for this segment over the forecast period.

For business expansion, Lucintel's report suggests innovation and new product development to ease the installation process and provide variety of designs to the customer. Emerging trends, which have a direct impact on the dynamics of the industry, include the introduction of impact windows and doors, energy efficiency in aluminum doors and windows, replacement of wood by eco-friendly aluminum, and introduction of fully reversible windows. YKK AP, Ply Gem Holdings Inc., PGT, Inc., Apogee

Enterprises, Inc., and Fletcher Building are the major aluminum door and window suppliers in the global aluminum door and window market.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's challenging economy, you need every advantage that you can find.
