The future of the global dental implant and prosthetic market looks good with opportunities in dental clinics. The global dental implant and prosthetic market is expected to reach an estimated \$9.8 billion by 2022, and it is forecast to grow at a CAGR of 4.7% from 2017 to 2022. The major drivers for growth of the dental implant and prosthetic market are increasing aging population, increasing awareness of cosmetic and aesthetic dentistry, increasing dental tourism and disposable income, and raising incidences of tooth decay and periodontal diseases.

Emerging trends, which have a direct impact on the dynamics of the dental implant and prosthetic industry, include adoption of CAD/CAM technology, new development in implant design, and increasing use of new implant materials.

A total of 120 figures / charts and 95 tables are provided in this 187-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of this dental implant and prosthetic market report, download the report brochure.

The study includes the dental implant and prosthetic market size and a forecast for the global dental implant and prosthetics market through 2022 by type, material, procedure, price, product and region as follows:

Dental Prosthetic Market by Type [Value (\$ Million) from 2011 to 2022]: Implants By Material Titanium Zirconium By Procedure Root Form Plate form By Price Premium Value Discounted Prosthetics By Product Crowns and Bridges All Ceramic Porcelain Fused to Metal Metal Dentures Abutments Veneers Inlays and Outlays

Dental Prosthetic Market by Region [Value (\$ Million) from 2011 to 2022]: North America US Canada Mexico Europe Germany France Spain APAC South Korea Japan India ROW Brazil

Dental implant and prosthetic companies profiled in this market include Straumann AG, Danaher Corporation, Dentsply Sinora, Zimmer Biomet Holding, and Henry Schein are among the major suppliers of dental implants and prosthetics.

On the basis of comprehensive research, Lucintel forecasts the dental prosthetics segment is expected to show above average growth during the forecast period.

Within the global dental prosthetic market, crown and bridges, dentures, abutment, veneers and inlays & onlays are the segments by product type. Crown and bridges is expected to be the largest segment during the forecast period. Crowns and bridges are used as substitutes for amalgam fillings; these offer a more permanent solution to tooth decay and periodontal diseases, and this leads to increasing demand. In crowns and bridges, the materials include all ceramics, porcelain fused to metal and metal.

Europe is expected to remain the largest market during the forecast period mainly due to the increasing aging population of the region and favorable reimbursement programs and government expenditure for dental procedures.
