Abstracts

The glass fiber textiles market is expected to grow with a CAGR of 5.2% over 2015-2020. The major drivers of the glass fiber textiles market are growth of end use applications, such as wind energy, construction, marine, aerospace & defense, and electrical & electronics as well as increased demand for reinforced composites from the above applications. Glass fibers textile is lightweight, corrosion resistant, and has high strength, which help this material to be the choice of OEMs in comparison to traditional materials. Asia Pacific is expected to be the leading region because of the growth in end use application market in emerging markets India, and China.

Lucintel, a leading global management consulting and market research firm, has analyzed the global glass fiber textiles market by applications, product types, and regions, and has brought out a comprehensive research report titled, "Growth Opportunities in the Global Glass Fiber Textiles Market 2015-2020: Trends, Forecast, and Opportunity Analysis." This report provides an analysis of global glass fiber textiles market, including the market trends, growth opportunities, key drivers, emerging trends, and company profiles of the leading suppliers in the market. The study also includes forecast of global glass fiber textiles market through 2020, segmented by applications, product types, and regions as follows:

The global glass fiber textiles market by applications: Marine Wind Energy
Aerospace/Defense Construction Electrical/Electronics Others

The global glass fiber textiles market by product types: Woven Roving Multi-Axials
Fabric CFM/CSM

The global glass fiber textiles market by regions: North America Europe Asia Pacific

Rest of World

On the basis of its comprehensive research, Lucintel forecasts that majority of the applications for the glass fiber textiles will have good growth during 2015-2020. Electrical/electronic along with wind energy segments are expected to remain as the largest market for glass fiber textiles in 2020. Owens Corning, SAERTEX, CPIC, Jushi, and Taishan are among the major suppliers of glass fiber textiles. The industry players are going for partnership and strategic alliances to deliver unique solutions and to meet the constantly changing demands of customers.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

To make business, investment, and strategic decisions, you need timely, useful information. This market report fulfills this core need and is an indispensable reference guide for multinational materials suppliers, product manufacturers, investors, executives, distributors, and many more that operate in this market.

Some of the features of "Growth Opportunities in Global Glass Fiber Textiles Market 2015–2020: Trends, Forecast, and Opportunity Analysis" include:

Market size estimates: Global glass fiber textiles market size estimation in terms of volume (M lbs.) and value (\$M) shipment. Trend and forecast analysis: Global glass fiber textiles market trend (2009-2014) and forecast (2015-2020) by regions and by segments. Segmentation analysis: Global glass fiber textiles market size by product types such as woven roving, multi-axials, fabric, and CFM/CSM. And by various application segments such as marine, wind energy, aerospace/defense, construction, electrical/electronics and others both in terms of volume and value shipment. Regional analysis: Global glass fiber textiles market breakdown by key regions such as North America, Europe, Asia Pacific, and Rest of World. Growth opportunities: Analysis on growth opportunities in different applications and regions. Strategic analysis: This includes M&A, new product development, and competitive landscape of global glass fiber textiles market suppliers. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

3. MARKET TREND AND FORECAST ANALYSIS

3.1: Current market analysis

3.1.1: Global glass fiber textiles market by value and volume

3.1.2: Regional market for glass fiber textiles by value and volume

3.2: Market Trend: 2009-2014

3.2.1: Macroeconomic Trends

3.2.2: Global glass fiber textiles market trend by value and volume

3.2.3: Regional glass fiber textiles market trend by value and volume

3.2.4: Industry drivers and challenges

3.3: Market Forecast 2015-2020

3.3.1: Macroeconomic forecasts

3.3.2: Global glass fiber textiles market forecast by value and volume

3.3.3: Regional glass fiber textiles market forecast by value and volume

4. COMPETITOR ANALYSIS

4.1: Product portfolio analysis

4.2: Geographical reach

4.3: Operational integration

4.4: Porter's Five Forces Analysis

5. GROWTH OPPORTUNITY & STRATEGIC ANALYSIS

5.1: Growth opportunities analysis

5.1.1: Growth opportunities in global glass fiber textiles market by products

5.1.2: Growth opportunities in global glass fiber textiles market by applications

5.1.3: Growth opportunities in the global glass fiber textiles market by regions

5.2: Emerging trends in global glass fiber textiles market

5.3: Strategic Analysis

5.3.1: New product development

5.4: Mergers and acquisitions in global glass fiber textiles industry
