## **Abstracts**

The global natural gas-fired power plant market registered moderate growth during 2007-2012, and is forecast to witness modest growth over 2013-2018. The Rest of the World (ROW) region dominated the market during 2007-2012 and is expected to continue its lead position through 2018 because it has an ideal combination of natural gas reserves and potential customers.

Lucintel, a leading global management consulting and market research firm, has analyzed the global natural gas-fired power plant market and offers its findings in its comprehensive research report, "Growth Opportunities in Global Natural Gas-Fired Power Plant Market 2013-2018: Trend, Forecast, and Opportunity Analysis."

The report studies the natural gas-fired power plant market worldwide with an in-depth analysis of North America, Europe, Asia Pacific, and ROW. Some of the reasons contributing to the global market growth are government support and innovations and advancement in natural gas production techniques.

Lucintel has identified that environmental concerns, raw material cost, and encouragement of renewable energy sources are the major growth challengers. Relatively low cost of production, good distribution systems, abundance of natural gas, and a relatively cleaner solution than coal are the drivers that provide the industry with a competitive advantage.

This market report is an indispensable reference guide for materials suppliers, product manufacturers, investors, executives, distributors, and many more that operate in this market. To make business, investment, and strategic decisions, useful information such

as that contained in this market reports can help fulfill those core needs. This Lucintel research report provides excellent understanding of recent industry scope and overview, global macroeconomic overview, relative market attractiveness by region, annual industry trend, emerging trends, industry forecasts, and offers a Porter's Five Forces Analysis, of the market. The key insights section provides beneficial information on an industry segment's growth and regional growth trends.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. INDUSTRY BACKGROUND AND CHARACTERISTICS**

#### **2.1: Introduction to natural gas**

#### **2.2: Advantages of natural gas-fired power plant**

#### **2.3: Disadvantages of natural gas-fired power energy**

#### **2.4: Overview and types of natural gas-fired power plant technologies**

#### **2.5: Working of gas-fired power station (combined cycle gas-fired unit)**

#### **2.6: Recent developments of natural gas-fired power plant industry**

### **3. GLOBAL NATURAL GAS-FIRED POWER PLANT MARKET 2012**

#### **3.1: Global natural gas-fired power plant market by region in 2012**

### **4. GLOBAL NATURAL GAS-FIRED POWER PLANT MARKET TREND 2007-2012**

#### **4.1: Global natural gas-fired power plant market trend 2007-2012**

#### **4.2: Natural gas-fired power plant market trend by regions during 2007-2012**

### **5. GLOBAL NATURAL GAS-FIRED POWER PLANT MARKET FORECAST 2013-2018**

#### **5.1: Global natural gas-fired power plant market forecast 2013-2018**

#### **5.2: Natural gas-fired power plant market forecast by regions during 2013-2018**

#### **5.3: Natural gas-fired power plant annual market and cumulative market 2018**

#### **5.4: Drivers and challenges for global natural gas-fired power plant market**

### **6. GROWTH OPPORTUNITIES AND EMERGING TRENDS IN GLOBAL NATURAL GAS-FIRED POWER PLANT MARKET**

#### **6.1: Growth opportunities in global natural gas-fired power plant market**

#### **6.2: Emerging trends in global natural gas-fired power plant market**

## List Of Figures

### LIST OF FIGURES

#### Chapter 1. Executive Summary

Figure 1.1: Porter's Five Forces analysis for global natural gas-fired power plant industry

#### Chapter 2. Natural Gas-Fired Power Plant Market Background and Characteristics

Figure 2.1: Natural gas-fired power plant (currant creek) near Mona, Utah

Figure 2.2: Natural gas-fired power plant in Fort Worth, Texas

Figure 2.3: Natural gas-fired power plant in Long Beach, California

Figure 2.4: Types of natural gas-fired power plant technologies

Figure 2.5: Open cycle unit diagram

Figure 2.6: Proposed natural gas combined cycle power plant in New York

Figure 2.7: Combined cycle unit diagram

Figure 2.8: Combined gas-fired unit working

Figure 2.9: Systematic process of electricity generation and distribution

#### Chapter 3. Global Natural Gas-Fired Power Plant Market 2012

Figure 3.1: Global natural gas-fired power plant annual market (GW) by region in 2012

Figure 3.2: Global natural gas-fired power plant cumulative market (GW) by region in 2012

#### Chapter 4. Global Natural Gas-Fired Power Plant Market Trend 2007-2012

Figure 4.1: Global natural gas-fired power plant annual market trend 2007-2012 (GW)

Figure 4.2: Global natural gas-fired power plant cumulative market trend 2007-2012 (GW)

Figure 4.3: Global natural gas-fired power plant annual market trend by region 2007-2012 (GW)

Figure 4.4: Global natural gas-fired power plant cumulative market trend by region 2007-2012 (GW)

#### Chapter 5. Global Natural Gas-Fired Power Plant Market Forecast 2013-2018

Figure 5.1: Global natural gas-fired power plant annual market forecast 2013-2018 (GW)

Figure 5.2: Global natural gas-fired power plant cumulative market forecast 2013-2018 (GW)

Figure 5.3: Global natural gas-fired power plant annual market forecast by region 2013-2018 (GW)

Figure 5.4: Global natural gas-fired power plant cumulative market forecast by region 2013-2018 (GW)

Figure 5.5: Global natural gas-fired power plant annual market in 2018 by region (GW)
