Hadoop Market Trends and Forecast

The future of the Hadoop market looks promising with opportunities in the BFSI, retail & consumer goods, IT & telecommunication, healthcare, government & defense, and energy & utility sectors. The global Hadoop market is expected to grow with a CAGR of 37% to 39% from 2023 to 2028. The major drivers for this market are rise in demand for analysing large volumes of data, increasing investments in advanced analytics, and surge in need for remote services and location data during COVID-19.

Hadoop Market

Emerging Trends in the Hadoop Market

Emerging trends, which have a direct impact on the dynamics of the industry, include increasing use of social media applications for customer engagement and rise in development of smart payment technologies.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched and other details of the global Hadoop market report, please download the report brochure.

Hadoop Market by Segments

Hadoop Market by Segment

The study includes a forecast for the global Hadoop market by component, deployment model, enterprise size, end use industry, and region, as follows:

Hadoop Market by Component [Value (\$B) Shipment Analysis from 2017 to 2028]:

Hardware

Software

Services

Hadoop Market by Deployment Model [Value (\$B) Shipment Analysis from 2017 to 2028]:

On Premises

Cloud

Hybrid

Hadoop Market by Enterprise Size [Value (\$B) Shipment Analysis from 2017 to 2028]:

Large Enterprises

SMEs

Hadoop Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

BFSI

Retail & Consumer Goods

IT & Telecommunication

Healthcare

Government & Defense

Energy & Utility

Others

Hadoop Market by Region Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Hadoop Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies Hadoop companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the Hadoop companies profiled in this report include.

Amazon Web Services
Cisco Systems
Cloudera
Datameer
Dell EMC
Google
International Business Machines
MapR
MarkLogic
Teradata

Hadoop Market Insights

Lucintel forecasts that software will remain the largest segment over the forecast period due to increase in implementation by developers to build real-time applications. Healthcare is expected to remain the largest segment due to growing demand of efficient and smooth functioning cloud-based solutions in this sector. Additionally, it offers wide range of benefits such as easy access to medical records, huge data storage, scalability, efficient data visualization, and monitoring health records. APAC will remain the largest region due to the increasing demand for modernizing industries and infrastructure for data management across Asia Pacific countries, including China, Japan, and India.

Features of the Hadoop Market

Market Size Estimates: Hadoop market size estimation in terms of value (\$B)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Hadoop market size by various segments, such as by component, deployment model, enterprise size, end use industry, and region.

Regional Analysis: Hadoop market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by component, deployment model, enterprise size, end use industry, and regions for the Hadoop market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the Hadoop market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the Hadoop market size?

Answer: The global Hadoop market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for Hadoop market?

Answer: The global Hadoop market is expected to grow with a CAGR of 37% to 39% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the Hadoop market?

Answer: The major drivers for this market are rise in demand for analysing large volumes of data, increasing investments in advanced analytics, and surge in need for remote services and location data during COVID-19. Q4. What are the major segments for Hadoop market?

Answer: The future of the Hadoop market looks promising with opportunities in the BFSI, retail & consumer goods, IT & telecommunication, healthcare, government & defense, and energy & utility sectors.

Q5. What are the emerging trends in Hadoop market?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include increasing use of social media applications for customer engagement and rise in development of smart payment technologies.

Q6. Who are the key Hadoop companies?

Answer: Some of the key Hadoop companies are as follows:

Amazon Web Services

Cisco Systems

Cloudera

Datameer

Dell EMC

Google

International Business Machines

MapR

MarkLogic

Teradata

Q7. Which Hadoop segment will be the largest in future?

Answer: Lucintel forecasts that software will remain the largest segment over the forecast period due to increase in implementation by developers to build real-time

applications.

Q8. In Hadoop market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to the increasing demand for modernizing industries and infrastructure for data management across Asia Pacific countries, including China, Japan, and India.

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the Hadoop market by component (hardware, software, and services), deployment model (on-premises, cloud, and hybrid), enterprise size (large enterprises and SMEs), end use industry (BFSI, retail & consumer goods, IT & telecommunication, healthcare, government & defense, energy & utility, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
