Abstracts

The future of the hydration pack market looks promising with opportunities in outdoor activities such as trekking, hiking, cycling, and running. The global hydration pack market is expected to grow with a CAGR of 5.9% from 2019 to 2024. The major growth drivers for this market are increasing outdoor recreational activities, growing disposable income, and the rapid rise in popularity of adventure tourism in western countries.

Emerging trends, which have a direct impact on the dynamics of the hydration pack market, include increasing usage of removable bladders for easy reservoir cleaning and pressurized hydration nozzles for easy sipping.

A total of 125 figures/charts and 88 tables are provided in this 195 -page report to help in your business decisions. Sample figures with some insights are shown below.
