The future of the in-memory data grid market looks promising with opportunities in various end use industries, which are banking, financial services, & insurance, media & entertainment, consumer goods & retail, healthcare & life sciences, manufacturing, telecom & IT, transportation, and logistics. The global in-memory data grid market is expected to grow with a CAGR of 10% to 12% from 2021 to 2026. The major drivers for this market are increasing need for distributed architecture to enhance the limited storage capacity of the main memory and eliminating the need for relational data model and database.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of in-memory data grid market report download the report brochure.

The study includes trends and forecasts for the global in-memory data grid market by application, end use industry, and region as follows:

By Application [\$M shipment analysis for 2015 – 2026]:

Transaction Processing

Fraud and Risk Management

Supply Chain Optimization

Sales and Marketing Optimization

By End Use Industry [\$M shipment analysis for 2015 – 2026]:

Banking, Financial Services, and Insurance

Media and Entertainment

Consumer Goods and Retail

Healthcare and Life Sciences

Manufacturing

Telecom and IT

Transportation

Logistics

Others

By Region [\$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Transaction processing will remain the largest application segment over the forecast period because various industries have undertaken initiatives for digital transformation, which has led to an increase in transactional applications.

BFSI will remain the largest end use industry during the forecast period due to growing digitalization of banking services.

North America will remain the largest region over the forecast period due to high concentration of large multinational companies.

Some of the in-memory data grid market companies profiled in this report include IBM, Oracle, Red Hat, Software AG, Pivotal, Hitachi, Hazelcast, TIBCO, GridGain, ScaleOut Software, GigaSpaces, Alachisoft, and TmaxSoft.

Features of In-Memory Data Grid Market

Market Size Estimates: In-memory data grid market size estimation in terms of value (\$M)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast

(2021-2026) by various segments and regions.

Segmentation Analysis: Market size by application and end use industry

Regional Analysis: In-memory data grid market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different end use industries, application, and regions for in-memory data grid market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the in-memory data grid market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global in-memory data grid market by application (transaction processing, fraud and risk management, supply chain optimization, sales and marketing optimization), end use industry (banking, financial services, and insurance, media and entertainment, consumer goods and retail, healthcare and life sciences, manufacturing, telecom and it, transportation, logistics, others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the in-memory data grid market?

Q.5 What are the business risks and threats to the in-memory data grid market?

Q.6 What are the emerging trends in the in-memory data grid market and the reasons behind them?

Q.7 What are some changing demands of customers in the in-memory data grid market?

Q.8 What are the new developments in the in-memory data grid market? Which companies are leading these developments?

Q.9 Who are the major players in the in-memory data grid market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the in-memory data grid market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the in-memory data grid market?

Contents

Executive Summary

Market Background and Classifications

Introduction, Background, and Classifications

Supply Chain

Industry Drivers and Challenges

Market Trends and Forecast Analysis from 2021 t 2026

Macroeconomic Trends (2015-2020) and Forecast (2021-2026)

Global In-memory data grid Market Trends (2015-2020) and Forecast (2021-2026)

Global In-memory data grid Market by Application

Transaction Processing

Fraud and Risk Management

Supply Chain Optimization

Sales and Marketing Optimization

Global In-memory Data Grid Market by End Use Industry

Banking, Financial Services, and Insurance

Media and Entertainment

Consumer Goods and Retail

Healthcare and Life Sciences

Manufacturing

Telecom and IT

Transportation

Logistics

Others

Market Trends and Forecast Analysis by Region from 2021 t 2026

Global In-memory Data Grid Market by Region

North American In-memory Data Grid Market

Market by Application

Market by End Use Industry

The US In-memory Data Grid Market

The Canadian In-memory Data Grid Market

The Mexican In-memory Data Grid Market

European In-memory Data Grid Market

Market by Application

Market by End Use Industry

German In-memory Data Grid Market

United Kingdom In-memory Data Grid Market

French In-memory Data Grid Market

Italian In-memory Data Grid Market
APAC In-memory Data Grid Market
Market by Application
Market by End Use Industry
Chinese In-memory Data Grid Market
Japanese In-memory Data Grid Market
Indian In-memory Data Grid Market
South Korean In-memory Data Grid Market
ROW In-memory Data Grid Market
Market by Application
Market by End Use Industry
Competitor Analysis
Product Portfolio Analysis
Geographical Reach
Porter's Five Forces Analysis
Growth Opportunities and Strategic Analysis
Growth Opportunity Analysis
Growth Opportunities for the Global In-memory Data Grid Market by Application
Growth Opportunities for the Global In-memory Data Grid Market by End Use Industry
Growth Opportunities for the Global In-memory Data Grid Market by Region
Emerging Trends in the Global In-memory Data Grid Market
Strategic Analysis
New Product Development
Capacity Expansion of the Global In-memory Data Grid Market
Technology Development
Mergers and Acquisitions in the Global In-memory Data Grid Industry
Company Profiles of Leading Players
IBM
Oracle
Red Hat
Software AG
Pivotal, Hitachi
Hazelcast
TIBCO
GridGain
ScaleOut Software
