### Industrial Pumps and Valves Market Trends and Forecast

The future of the industrial pump and valve market looks promising with opportunities in the power generation, oil and gas, metal and mining, agriculture, building services, and water and wastewater markets. The global industrial pump and valve market is expected to grow with a CAGR of 4% to 6% from 2023 to 2028. The major drivers for this market are rise in adoption of industrial pump in petrochemicals, chemicals, medical, and pharmaceutical industry, continuous technological advancements in pumps, increase in construction activities, and strong industrialization and rapid urbanization in emerging economies.

### Industrial Pump and Valve Market by Product, Position, Driving Force, and End Use

### Emerging Trends in the Industrial Pump and Valve Market

Emerging trends, which have a direct impact on the dynamics of the industry, include rise in demand for food from developing nations, technological advancement in production of industrial pump, and rise in demand for electric and hybrid electric vehicles.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched and other details of the global industrial pump and valve market report, please download the report brochure.

## Industrial Pump and Valve Market by Segments

### Industrial Pump and Valve Market by Segment

The study includes a forecast for the global industrial pump and valve market by product type, position, driving force, end use and region, as follows:

Industrial pump and valve Market by Product Type [Value (\$B) shipment analysis for 2017-2028]:

Centrifugal

Positive Displacement

Reciprocating

Rotary

Others

Industrial pump and valve Market by Position [Value (\$B) shipment analysis for 2017-2028]:

Submersible

Non-Submersible

Industrial pump and valve Market by Driving Force [Value (\$B) shipment analysis for 2017-2028]:

Engine Driven

Electrical Driven

Industrial pump and valve Market by End Use [Value (\$B) shipment analysis for 2017-2028]:

Power Generation

Oil and Gas

Metal and Mining

Agriculture

Building Services

Water and Wastewater

Others

Industrial pump and valve Market by Region [Value (\$B) shipment analysis for 2017-2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Industrial Pump and Valve Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies industrial pump and valve companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the industrial pump and valve companies profiled in this report include.

Flowserve Corporation

The Weir Group plc

Grundfos

KSB

ITT Inc

Sulzer

EBARA Corporation

Xylem

## Industrial Pump and Valve Market Insights

Lucintel forecasts that centrifugal will remain the largest segment over the forecast period due to its wide utilization in several application, low maintenance and increasing construction activities.

Oil and gas is expected to remain the largest segment due to the growing demand for oil and gas in developing countries and increasing usage of industrial pump to evacuate toxic and flammable gases.

APAC will remain the largest region due to the significant investments in upstream oil and gas activities and increasing research and development activities for innovative products in the region.

## Features of the Industrial Pump and Valve Market

Market Size Estimates: Industrial pump and valve market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2021) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Industrial pump and valve market size by various segments, such as by product type, position, driving force, end use and region

Regional Analysis: Industrial pump and valve market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by product type, position, driving force, end use and regions for the industrial pump and valve market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the Industrial pump and valve market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

## FAQ

Q1. What is the industrial pump and valve market size?

Answer: The global Industrial pump and valve market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for industrial pump and valve market?

Answer: The global industrial pump and valve market is expected to grow with a CAGR of 4% to 6% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the industrial pump and valve market?

Answer: The major drivers for this market are continuous technological advancements in pumps, higher returns on investments, and growth in disposable income.

Q4. What are the major segments for industrial pump and valve market?

Answer: The future of the industrial pump and valve market looks promising with opportunities in the power generation, oil and gas, metal and mining, agriculture, building services, water and wastewater, and other markets.

Q5. What are the emerging trends in industrial pump and valve market?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include rise in demand for food from developing nations, technological advancement in production of industrial pump, and rise in demand for electric and hybrid electric vehicles.

Q6. Who are the key industrial pump and valve companies?

Answer: Some of the key Industrial pump and valve companies are as follows:

Flowserve Corporation

The Weir Group plc

Grundfos

KSB

ITT Inc

Sulzer

EBARA Corporation

Xylem

Q7. Which industrial pump and valve segment will be the largest in future?

Answer: Lucintel forecasts that centrifugal will remain the largest segment over the forecast period due to its wide utilization in several application, low maintenance and increasing construction activities.

Q8. In industrial pump and valve market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to the significant investments in upstream oil and gas activities and increasing research and development activities for innovative products in the region.

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the industrial pump and valve market by product type (centrifugal, positive displacement, reciprocating, rotary and others), position (submersible and non-submersible), driving force (engine driven and electrical driven), end use (power generation, oil and gas, metal and mining, agriculture, building services, water and wastewater, and others) and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

for any questions related to industrial pump and valve market or related to industrial pump and valve for sale, industrial pump and valve cost, industrial pump and valve companies, industrial pump and valve market size, industrial pump and valve market share, industrial pump and valve market analysis, industrial pump and valve market size, write lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com). we will be glad to get back to you soon.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. GLOBAL INDUSTRIAL PUMP AND VALVE MARKET: MARKET DYNAMICS**

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### **3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028**

3.1: Macroeconomic Trends (2017-2021) and Forecast (2023-2028)

3.2: Global Industrial pump and valve Market Trends (2017-2021) and Forecast (2023-2028)

3.3: Global Industrial pump and valve Market by Product Type

3.3.1: Centrifugal

3.3.2: Positive Displacement

3.3.3: Reciprocating

3.3.4: Rotary

3.3.5: Others

3.4: Global Industrial pump and valve Market by Position

3.4.1: Submersible

3.4.2: Non-Submersible

3.5: Global Industrial pump and valve Market by Driving Force

3.5.1: Engine Driven

3.5.2: Electrical Driven

3.6: Global Industrial pump and valve Market by End Use

3.6.1: Power Generation

3.6.2: Oil and Gas

3.6.3: Metal and Mining

3.6.4: Agriculture

3.6.5: Building Services

3.6.6: Water and Wastewater

3.6.7: Others

### **4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017-2028**

4.1: Global Industrial pump and valve Market by Region

#### 4.2: North American Industrial pump and valve Market

4.2.1: North American Industrial pump and valve Market by Product Type: Centrifugal, Positive Displacement, Reciprocating, Rotary and Others

4.2.2: North American Industrial pump and valve Market by End Use: Power Generation, Oil and Gas, Metal and Mining, Agriculture, Building Services, Water and Wastewater, and Others

#### 4.3: European Industrial pump and valve Market

4.3.1: European Industrial pump and valve Market by Product Type: Centrifugal, Positive Displacement, Reciprocating, Rotary and Others

4.3.2: European Industrial pump and valve Market by End Use: Power Generation, Oil and Gas, Metal and Mining, Agriculture, Building Services, Water and Wastewater, and Others

#### 4.4: APAC Industrial pump and valve Market

4.4.1: APAC Industrial pump and valve Market by Product Type: Centrifugal, Positive Displacement, Reciprocating, Rotary and Others

4.4.2: APAC Industrial pump and valve Market by End Use: Power Generation, Oil and Gas, Metal and Mining, Agriculture, Building Services, Water and Wastewater, and Others

#### 4.5: ROW Industrial pump and valve Market

4.5.1: ROW Industrial pump and valve Market by Product Type: Centrifugal, Positive Displacement, Reciprocating, Rotary and Others

4.5.2: ROW Industrial pump and valve Market by End Use: Power Generation, Oil and Gas, Metal and Mining, Agriculture, Building Services, Water and Wastewater, and Others

### **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

### **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Industrial pump and valve Market by Product Type

6.1.2: Growth Opportunities for the Global Industrial pump and valve Market by Position

6.1.3: Growth Opportunities for the Global Industrial pump and valve Market by Driving

Force

6.1.4: Growth Opportunities for the Global Industrial pump and valve Market by End Use

6.1.5: Growth Opportunities for the Global Industrial pump and valve Market by Region

6.2: Emerging Trends in the Global Industrial pump and valve Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Industrial pump and valve Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Industrial pump and valve Market

6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: Flowserve Corporation

7.2: The Weir Group plc

7.3: Grundfos

7.4: KSB

### **7.5: ITT INC**

7.6: Sulzer

7.7: EBARA Corporation

7.8: Xylem
