### Industrial Water Treatment Chemical Market Trends and Forecast

The future of the global industrial water treatment chemical market looks promising with opportunities in the pulp and paper, municipal water & waste water, oil & gas, chemical, food & beverage, power generation, and metal & mining industries. The global industrial water treatment chemical market is expected to reach an estimated \$30.0 billion by 2028 with a CAGR of 2.5% from 2023 to 2028. The major drivers for this market are growing need for portable water, presence of number of industrial units and increasing government regulations for quality water.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Industrial Water Treatment Chemical Market by Segment

The study includes a forecast for the global industrial water treatment chemical market by product, end use industry, and region, as follows:

Industrial Water Treatment Chemical Market by Product [Value (\$B) Shipment Analysis from 2017 to 2028]:

Coagulants & Flocculants

pH Adjusters & Softeners

Biocides

Scale Inhibitors & Dispersants

Corrosion Inhibitors

Disinfectants

Chelating agents

Industrial Water Treatment Chemical Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Pulp and Paper

Municipal Water & Wastewater

Oil & Gas

Chemicals

Food & Beverages

Power Generation

Metal & Mining

Industrial Water Treatment Chemical Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

## The Rest of the World

### List of Industrial Water Treatment Chemical Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies industrial water treatment chemical companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the industrial water treatment chemical companies profiled in this report include.

AkzoNobel

Baker Hughes

BASF

Solenis

Kemira

Lonza Group

Suez SA

### Industrial Water Treatment Chemical Market Insights

Lucintel forecast that coagulants & flocculants will remain the largest segment over the forecast period due to rapid industrialization and increase in number of waterborne diseases, which will drive the demand for waste water treatment.

Municipal water & waste water is anticipated to witness the highest growth due to increasing need for raw water treatment and rising awareness pertaining to waste water recycling, sewage treatment, and pipeline network.

APAC will remain the largest region due to the increasing industrial activities and

implementation of strict environment regulations in order to protect water resources.

## Features of the Industrial Water Treatment Chemical Market

**Market Size Estimates:** Industrial water treatment chemical market size estimation in terms of value (\$B)

**Trend And Forecast Analysis:** Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

**Segmentation Analysis:** Industrial water treatment chemical market size by various segments, such as by product, end use industry, and region

**Regional Analysis:** Industrial water treatment chemical market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different by product, end use industry, and regions for the industrial water treatment chemical market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the industrial water treatment chemical market.

**Analysis of competitive intensity of the industry based on Porter's Five Forces model.**

## FAQ

Q1. What is the industrial water treatment chemical market size?

Answer: The global industrial water treatment chemical market is expected to reach an estimated \$30.0 billion by 2028.

Q2. What is the growth forecast for the industrial water treatment chemical market?

Answer: The global industrial water treatment chemical market is expected to grow with a CAGR of 2.5% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the industrial water treatment chemical market?

Answer: The major drivers for this market are growing need for portable water, presence of number of industrial units and increasing government regulations for quality water.

Q4. What are the major segments for the industrial water treatment chemical market?

Answer: The future of the industrial water treatment chemical market looks promising with opportunities in the pulp and paper, municipal water & waste water, oil & gas, chemical, food & beverage, power generation, and metal & mining industries.

Q5. Who are the key industrial water treatment chemical companies?

Answer: Some of the key industrial water treatment chemical companies are as follows:

AkzoNobel

Baker Hughes

BASF

Solenis

Kemira

Lonza Group

Suez SA

Q6. Which industrial water treatment chemical segment will be the largest in future?

Answer: Lucintel forecast that coagulants & flocculants will remain the largest segment over the forecast period due to rapid industrialization and increase in number of waterborne diseases, which will drive the demand for waste water treatment.

Q7. In the industrial water treatment chemical market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to the increasing industrial activities and implementation of strict environment regulations in order to protect water resources.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the industrial water treatment chemical market by product (coagulants & flocculants, pH adjusters & softeners, biocides, scale inhibitors & dispersants, corrosion inhibitors, disinfectants, and chelating agents), end use industry (pulp and paper, municipal water & wastewater, oil & gas, chemicals, food & beverages, power generation, and metal & mining), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to industrial water treatment chemical market or related to industrial water treatment chemical companies, industrial water treatment chemical market size, industrial water treatment chemical market share, industrial water treatment chemical analysis, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com) we will be glad to get back to you soon.

## Contents

### 1. EXECUTIVE SUMMARY

### 2. GLOBAL INDUSTRIAL WATER TREATMENT CHEMICAL MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### 3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Industrial Water Treatment Chemical Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Industrial Water Treatment Chemical Market by Product

3.3.1: Coagulants & Flocculants

3.3.2: pH Adjusters & Softeners

3.3.3: Biocides

3.3.4: Scale Inhibitors & Dispersants

3.3.5: Corrosion Inhibitors

3.3.6: Disinfectants

3.3.7: Chelating agents

3.4: Global Industrial Water Treatment Chemical Market by End Use Industry

3.4.1: Pulp and Paper

3.4.2: Municipal Water & Wastewater

3.4.3: Oil & Gas

3.4.4: Chemicals

3.4.5: Food & Beverages

3.4.6: Power Generation

3.4.7: Metal & Mining

### 4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017-2028

4.1: Global Industrial Water Treatment Chemical Market by Region

4.2: North American Industrial Water Treatment Chemical Market

4.2.1: North American Industrial Water Treatment Chemical Market by Product: Coagulants & Flocculants, Ph Adjusters & Softeners, Biocides, Scale Inhibitors &

Dispersants, Corrosion Inhibitors, Disinfectants, and Chelating Agents

4.2.2: North American Industrial Water Treatment Chemical Market by End Use Industry: Pulp and Paper, Municipal Water & Wastewater, Oil & Gas, Chemicals, Food & Beverages, Power Generation, and Metal & Mining

4.3: European Industrial Water Treatment Chemical Market

4.3.1: European Industrial Water Treatment Chemical Market by Product: Coagulants & Flocculants, Ph Adjusters & Softeners, Biocides, Scale Inhibitors & Dispersants, Corrosion Inhibitors, Disinfectants, and Chelating Agents

4.3.2: European Industrial Water Treatment Chemical Market by End Use Industry: Pulp and Paper, Municipal Water & Wastewater, Oil & Gas, Chemicals, Food & Beverages, Power Generation, and Metal & Mining

4.4: APAC Industrial Water Treatment Chemical Market

4.4.1: APAC Industrial Water Treatment Chemical Market by Product: Coagulants & Flocculants, Ph Adjusters & Softeners, Biocides, Scale Inhibitors & Dispersants, Corrosion Inhibitors, Disinfectants, and Chelating Agents

4.4.2: APAC Industrial Water Treatment Chemical Market by End Use Industry: Pulp and Paper, Municipal Water & Wastewater, Oil & Gas, Chemicals, Food & Beverages, Power Generation, and Metal & Mining

4.5: ROW Industrial Water Treatment Chemical Market

4.5.1: ROW Industrial Water Treatment Chemical Market by Product: Coagulants & Flocculants, Ph Adjusters & Softeners, Biocides, Scale Inhibitors & Dispersants, Corrosion Inhibitors, Disinfectants, and Chelating Agents

4.5.2: ROW Industrial Water Treatment Chemical Market by End Use Industry: Pulp and Paper, Municipal Water & Wastewater, Oil & Gas, Chemicals, Food & Beverages, Power Generation, and Metal & Mining

## **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

## **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Industrial Water Treatment Chemical Market by Product

6.1.2: Growth Opportunities for the Global Industrial Water Treatment Chemical Market by End Use Industry

6.1.3: Growth Opportunities for the Global Industrial Water Treatment Chemical Market by Region

6.2: Emerging Trends in the Global Industrial Water Treatment Chemical Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Industrial Water Treatment Chemical Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Industrial Water Treatment Chemical Market

6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: AkzoNobel

7.2: Baker Hughes

7.3: BASF

7.4: Solenis

7.5: Kemira

7.6: Lonza Group

7.7: Suez SA

## I would like to order

Product name: Industrial Water Treatment Chemical Market: Trends, Opportunities and Competitive Analysis [2023-2028]

Product link: <https://marketpublishers.com/r/I34114CAD4C4EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
