Abstracts

Infrastructure as Code (IaC) Market Trends and Forecast

The future of the infrastructure as code (IaC) market looks promising with opportunities in the BFSI, IT & telecom, government, manufacturing, healthcare, retail sectors. The global infrastructure as code (IaC) market is expected to grow with a CAGR of 24% to 26% from 2023 to 2028. The major drivers for this market are increasing velocity entails automating, advent of modern cloud architecture, and demand for better optimization of business operations.

Infrastructure as Code (IaC) Market

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched and other details of the global infrastructure as code (IaC) market report please download the report brochure.

Infrastructure as Code (IaC) Market by Segments

Infrastructure as Code (IaC) Market by Segment

The study includes a forecast for the global infrastructure as code (IaC) market by component, product type, deployment type, end use industry, and region, as follows: Infrastructure as Code (IaC) Market by Component [Value (\$B) Shipment Analysis from 2017 to 2028]:

Tools Services

Infrastructure as Code (IaC) Market by Product Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Declarative

Imperative

Infrastructure as Code (IaC) Market by Deployment Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

On-Premises Cloud

Infrastructure as Code (IaC) Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

BFSI IT & Telecom Government Manufacturing Healthcare Retail Others

Infrastructure as Code (IaC) Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America Europe Asia Pacific The Rest of the World

List of Infrastructure as Code (IaC) Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies infrastructure as code (IaC) companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the infrastructure as code (IaC) companies profiled in this report include.

IBM Microsoft

AWS Oracle Hashicorp Terraform Google Alibaba Group Dell Docker

Infrastructure as Code (IaC) Market Insights

Lucintel forecasts that tools will remain the fastest growing segment over the forecast period due to it faster speed and consistency, an effective software development cycle, and lower management overhead.

Healthcare is expected to remain the largest segment due to the growing digitization with complex hybrid cloud setups among the healthcare sector is influencing the requirement for infrastructure as code to maintain the workflow and standard. APAC will remain the largest region due to the growing industrialization in this region and adoption of new & emerging technologies has gained momentum in recent years. Additionally, public cloud is gaining huge adoption due to its low costs, on-demand availability, and improved security.

Features of the Infrastructure as Code (IaC) Market

Market Size Estimates: Infrastructure as Code (IaC) market size estimation in terms of value (\$B)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Infrastructure as Code (IaC) market size by various segments, such as by component, product type, deployment type, end use industry, and region. Regional Analysis: Infrastructure as Code (IaC) market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by component, product type, deployment type, end use industry, and regions for the infrastructure as code (IaC) market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the Infrastructure as Code (IaC) market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the infrastructure as code (IaC) market size?

Answer: The global infrastructure as code (IaC) market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for infrastructure as code (IaC) market?

Answer: The global infrastructure as code (IaC) market is expected to grow with a CAGR of 24% to 26% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the infrastructure as code (IaC) market?

Answer: The major drivers for this market are increasing velocity entails automating, advent of modern cloud architecture, and demand for better optimization of business operations.

Q4. What are the major segments for infrastructure as code (IaC) market? Answer: The future of the infrastructure as code (IaC) market looks promising with opportunities in the BFSI, IT & telecom, government, manufacturing, healthcare, and retail sectors.

Q5. Who is the key infrastructure as code (IaC) companies?

Answer: Some of the key infrastructures as code (IaC) companies are as follows:

IBM Microsoft AWS Oracle Hashicorp Terraform Google Alibaba Group Dell Docker

Q6. Which infrastructure as code (IaC) segment will be the largest in future? Answer: Lucintel forecasts that tools will remain the fastest growing segment over the forecast period due to it faster speed and consistency, an effective software development cycle, and lower management overhead.

Q7. In infrastructure as code (IaC) market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to the growing industrialization in this region and adoption of new & emerging technologies has gained momentum in recent years. Additionally, public cloud is gaining huge adoption due to its low costs, on-

demand availability, and improved security.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the infrastructure as code (IaC) market by component (tools and services), product type (declarative and imperative), deployment type (on-premises and cloud), end use industry (BFSI, IT & telecom, government, manufacturing, healthcare, retail, and others) and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to infrastructure as code market or related to infrastructure as code companies, infrastructure as code market size, infrastructure as code market share, infrastructure as code analysis, write Lucintel analyst at email: helpdesk@lucintel.com.
