Abstracts

Injection Molded Plastic Market Trends and Forecast

The future of the injection molded plastic market looks promising with opportunities in the packaging, consumables & electronics, automotive & transportation, building & construction, and medical sectors. The global injection molded plastic market is expected to grow with a CAGR of 4% to 6% from 2023 to 2028. The major drivers for this market are growing demand for plastic components from various end-use industries, increasing government regulations towards energy efficient buildings and smart building technologies, and low production costs & high reproducibility.

Injection Molded Plastic Market by Raw Material, and Application

Emerging Trends in the Injection Molded Plastic Market

Emerging trends, which have a direct impact on the dynamics of the industry, include increasing construction spending, development of the retail sector in regions, and shift in consumer preference towards high performance materials coupled with the adoption of new manufacturing technologies.

A more than 150-page report is developed to help in your business decisions. A sample figure with some insights is shown below. To learn the scope, benefits, companies researched and other details of the global injection molded plastic market report, please download the report brochure.

Injection Molded Plastic Market by Segments

Injection Molded Plastic Market by Segments

The study includes trends and forecast for the global injection molded plastic market by raw material, application, and region, as follows:

Injection Molded Plastic Market by Raw Material [Value (\$B) Shipment Analysis from 2017 to 2028]:

- Polypropylene
- Acrylonitrile Butadiene Styrene
- High-Density Polyethylene (HDPE)
- Polystyrene
- Others

Injection Molded Plastic Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

- Packaging
- Consumables & Electronics
- Automotive & Transportation
- Building & Construction
- Medical
- Others

Injection Molded Plastic Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

- North America
- Europe
- Asia Pacific
- The Rest of the World

List of Injection Molded Plastic Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, injection molded plastic companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the injection molded plastic companies profiled in this report include.

- SABIC
- Ineos

BASF

Dupont

Magna

ExxonMobil

Eastman Chemicals

Becton Dickinson

LyondellBasell

The Dow Chemical

Injection Molded Plastic Market Insights

Lucintel forecasts that polypropylene will remain the largest raw material segment over the forecast period due to increasing consumption of polypropylene in automotive components, household goods, & packaging applications and increasing use in food packaging and electrical contacts on account of corrosion resistance & electrical insulation properties.

Packaging is expected to remain the largest segment in forecast period as it offers a wide range of solutions, from high volume packaging to thin wall containers and bottle molds. Additionally, there is an increased demand for lightweight and increased strength with using less plastic material.

APAC will remain the largest region due to increasing infrastructure spending, rapid industrialization, and growing automobile demand in countries, such as China, India, Indonesia, and Malaysia.

Features of the Injection Molded Plastic Market

Market Size Estimates: Injection molded plastic market size estimation in terms of value (\$B)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Injection molded plastic market size by various segments, such as raw material, application, and region.

Regional Analysis: Injection molded plastic market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different raw materials, applications, and regions for the injection molded plastic market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the injection molded plastic market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the injection molded plastic market size?

Answer: The global injection molded plastic market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for injection molded plastic market?

Answer: The global injection molded plastic market is expected to grow with a CAGR of 4% to 6% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the injection molded plastic market?

Answer: The major drivers for this market are growing demand for plastic components from various end-use industries, increasing government regulations towards energy efficient buildings and smart building technologies, and low production costs & high reproducibility.

Q4. What are the major segments for injection molded plastic market?

Answer: The future of the injection molded plastic market looks promising with opportunities in the packaging, consumables & electronics, automotive & transportation, building & construction, and medical sector.

Q5. What are the emerging trends in injection molded plastic market?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include growing adoption of eco-friendly additives and resin in the manufacturing process of injection molded plastic, and shift in consumer preference towards high performance materials coupled with the adoption of new manufacturing technologies.

Q6. Who are the key injection molded plastic companies?

Answer: Some of the key injection molded plastic companies are as follows:

SABIC

Ineos

BASF

Dupont

Magna

ExxonMobil

Eastman Chemicals

Becton Dickinson

LyondellBasell

The Dow Chemical

Q7. Which injection molded plastic segment will be the largest in future?

Answer: Lucintel forecast that polypropylene will remain the largest segment over the

forecast period due to increasing consumption of polypropylene in automotive components, household goods, & packaging applications and increasing use in food packaging and electrical contacts on account of corrosion resistance & electrical insulation properties.

Q8. In injection molded plastic market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to increasing infrastructure spending, rapid industrialization, and growing automobile demand in countries, such as China, India, Indonesia, and Malaysia.

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the injection molded plastic market by raw material (polypropylene, acrylonitrile butadiene styrene, high-density polyethylene (HDPE), and polystyrene), application (packaging, consumables & electronics, automotive & transportation, building & construction, and medical), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity did occur in the last five years and what has its impact been on the industry?

For any questions related to injection molded plastic market or related injection molded plastic companies, injection molded plastic market size, injection molded plastic market share, injection molded plastic analysis, write Lucintel analyst at email:

helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL INJECTION MOLDED PLASTIC MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Injection Molded Plastic Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Injection Molded Plastic Market by Raw Material

3.3.1: Polypropylene

3.3.2: Acrylonitrile Butadiene Styrene

3.3.3: High-Density Polyethylene (HDPE)

3.3.4: Polystyrene

3.3.5: Others

3.4: Global Injection Molded Plastic Market by Application

3.4.1: Packaging

3.4.2: Consumables & Electronics

3.4.3: Automotive & Transportation

3.4.4: Building & Construction

3.4.5: Medical

3.4.6: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017-2028

4.1: Global Injection Molded Plastic Market by Region

4.2: North American Injection Molded Plastic Market

4.2.1: North American Injection Molded Plastic Market by Raw Material: Polypropylene, Acrylonitrile Butadiene Styrene, High-Density Polyethylene (HDPE), and Polystyrene

4.2.2: North American Injection Molded Plastic Market by Application: Packaging, Consumables & Electronics, Automotive & Transportation, Building & Construction, and Medical

4.3: European Injection Molded Plastic Market

4.3.1: European Injection Molded Plastic Market by Raw Material: Polypropylene, Acrylonitrile Butadiene Styrene, High-Density Polyethylene (HDPE), and Polystyrene

4.3.2: European Injection Molded Plastic Market by Application: Packaging, Consumables & Electronics, Automotive & Transportation, Building & Construction, and Medical

4.4: APAC Injection Molded Plastic Market

4.4.1: APAC Injection Molded Plastic Market by Raw Material: Polypropylene, Acrylonitrile Butadiene Styrene, High-Density Polyethylene (HDPE), and Polystyrene

4.4.2: APAC Injection Molded Plastic Market by Application: Packaging, Consumables & Electronics, Automotive & Transportation, Building & Construction, and Medical

4.5: ROW Injection Molded Plastic Market

4.5.1: ROW Injection Molded Plastic Market by Raw Material: Polypropylene, Acrylonitrile Butadiene Styrene, High-Density Polyethylene (HDPE), and Polystyrene

4.5.2: ROW Injection Molded Plastic Market by Application: Packaging, Consumables & Electronics, Automotive & Transportation, Building & Construction, and Medical

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Injection Molded Plastic Market by Raw Material

6.1.2: Growth Opportunities for the Global Injection Molded Plastic Market by Application

6.1.3: Growth Opportunities for the Global Injection Molded Plastic Market by Region

6.2: Emerging Trends in the Global Injection Molded Plastic Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Injection Molded Plastic Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Injection Molded Plastic Market

7. COMPANY PROFILES OF LEADING PLAYERS

- 7.1: SABIC
- 7.2: Ineos
- 7.3: BASF
- 7.4: Dupont
- 7.5: Magna
- 7.6: ExxonMobil
- 7.7: Eastman Chemicals
- 7.8: Becton Dickinson
- 7.9: LyondellBasell
- 7.10: The Dow Chemical
