Abstracts

Inorganic Pigment in the Speciality Dye and Pigment Market Trends and Forecast

The future of inorganic pigment in the global speciality dye and pigment market looks promising with opportunities in the building & construction, automotive, packaging, paper & printing, and textile markets. The global speciality dye and pigment market in terms of inorganic pigment is expected to reach an estimated \$5.5 billion by 2028 with a CAGR of 5.4% from 2023 to 2028. The major drivers for this market are significantly growing construction sector and rising trend of aesthetics in the packaging industry.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Inorganic Pigment in the Speciality Dye and Pigment Market by Segment

The study includes a forecast for global inorganic pigment in the global speciality dye and pigment market by pigment type, application, end use industry, and region, as follows:

Inorganic Pigment in Speciality Dye and Pigment Market by Pigment Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Titanium Dioxide

Iron Oxide

Carbon Black

Others

Inorganic Pigment in Speciality Dye and Pigment Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Paints & Coatings

Plastics

Inks

Others

Inorganic Pigment in Speciality Dye and Pigment Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Building & construction

Automotive

Packaging

Paper & printing

Textiles

Others

Inorganic Pigment in Speciality Dye and Pigment Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Inorganic Pigment Companies in the Speciality Dye and Pigment Market

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies inorganic pigment in speciality dye and pigment companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the inorganic pigment companies in the global speciality dye and pigment market profiled in this report include.

Venator

The Chemours Company

Tronox

Kronos Worldwide

BASF SE

Inorganic Pigment in the Speciality Dye and Pigment Market Insights

Lucintel forecasts that paints & coatings will remain the largest segment over the forecast period due to its increasing usage in the industrial coating, automotive coating, coil coating, and floor coating applications and technological advancements in coating technology.

Building & construction is expected to remain the largest segment because it possesses the ability to withstand harsh weather conditions and UV radiation without fading or deteriorating.

APAC will remain the largest region due to the increasing construction & industrial activities and growing consumer purchasing power has propelled the growth of various industries in this region.

Features of Inorganic Pigment in the Speciality Dye and Pigment Market

Market Size Estimates: Inorganic pigment in the global speciality dye and pigment market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Inorganic pigment in the global speciality dye and pigment market size by various segments, such as by pigment type, application, end use industry, and region

Regional Analysis: Inorganic pigment in the global speciality dye and pigment market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by pigment type, application, end use industry, and regions for the inorganic pigment in speciality dye and pigment market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the inorganic pigment in speciality dye and pigment market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the speciality dye and pigment market size in terms of inorganic pigment usage?

Answer: The global speciality dye and pigment market size in terms of inorganic

pigment usage is expected to reach an estimated \$5.5 billion by 2028.

Q2. What is the growth forecast for inorganic pigment in speciality dye and pigment market?

Answer: The global speciality dye and pigment market size in terms of inorganic pigment usage is expected to grow with a CAGR of 5.4% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the inorganic pigment in speciality dye and pigment market?

Answer: The major drivers for this market are significantly growing construction sector and rising trend of aesthetics in the packaging industry.

Q4. What are the major segments for inorganic pigment in speciality dye and pigment market?

Answer: The future of the inorganic pigment in speciality dye and pigment market looks promising with opportunities in the building & construction, automotive, packaging, paper & printing, and textile markets.

.Q5. Who are the key inorganic pigment in speciality dye and pigment companies?

Answer: Some of the key inorganic pigment in speciality dye and pigment companies are as follows:

Venator

The Chemours Company

Tronox

Kronos Worldwide

BASF SE

Q6. Which inorganic pigment in speciality dye and pigment segment will be the largest in future?

Answer: Lucintel forecasts that paints & coatings will remain the largest segment over the forecast period due to its increasing usage in the industrial coating, automotive coating, coil coating, and floor coating applications and technological advancements in coating technology.

Q7. In inorganic pigment in speciality dye and pigment market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to the increasing construction & industrial activities and growing consumer purchasing power has propelled the growth of various industries in this region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the inorganic pigment in the global speciality dye and pigment market by pigment type (titanium dioxide, iron oxide, carbon black, and other), application (paints & coatings, plastics, inks, and others), end use industry (building & construction, automotive, packaging, paper & printing, textiles, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been

on the industry?

For any questions related to inorganic pigments in the global speciality dye and pigment market or related to inorganic pigments in the global speciality dye and pigment companies, inorganic pigments in the global speciality dye and pigment market size, inorganic pigments in the global speciality dye and pigment market share, inorganic pigments in the global speciality dye and pigment analysis, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL INORGANIC PIGMENT IN SPECIALITY DYE AND PIGMENT MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Inorganic Pigment in the Global Speciality Dye and Pigment Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Inorganic Pigment in the Global Speciality Dye and Pigment Market by Pigment Type

3.3.1: Titanium Dioxide

3.3.2: Iron Oxide

3.3.3: Carbon Black

3.3.4: Others

3.4: Inorganic Pigment in the Global Speciality Dye and Pigment Market by Core Material

3.4.1: Paints & Coatings

3.4.2: Plastics

3.4.3: Inks

3.4.4: Others

3.5: Inorganic Pigment in the Global Speciality Dye and Pigment Market by End Use Industry

3.5.1: Building & construction

3.5.2: Automotive

3.5.3: Packaging

3.5.4: Paper & printing

3.5.5: Textiles

3.5.6: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Inorganic Pigment in the Global Speciality Dye and Pigment Market by Region

4.2: Inorganic Pigment in the North American Speciality Dye and Pigment Market

4.2.1: Inorganic Pigment in the North American Speciality Dye and Pigment Market by Pigment Type: Titanium Dioxide, Iron Oxide, Carbon Black, and Others

4.2.2: Inorganic Pigment in the North American Speciality Dye and Pigment Market by End Use Industry: Building & Construction, Automotive, Packaging, Paper & Printing, Textiles, and Others

4.3: Inorganic Pigment in the European Speciality Dye and Pigment Market

4.3.1: Inorganic Pigment in the European Speciality Dye and Pigment Market by Pigment Type: Titanium Dioxide, Iron Oxide, Carbon Black, and Others

4.3.2: Inorganic Pigment in the European Speciality Dye and Pigment Market by End Use Industry: Building & Construction, Automotive, Packaging, Paper & Printing, Textiles, and Others

4.4: Inorganic Pigment in the APAC Speciality Dye and Pigment Market

4.4.1: Inorganic Pigment in the APAC Speciality Dye and Pigment Market by Pigment Type: Titanium Dioxide, Iron Oxide, Carbon Black, and Others

4.4.2: Inorganic Pigment in the APAC Speciality Dye and Pigment Market by End Use Industry: Building & Construction, Automotive, Packaging, Paper & Printing, Textiles, and Others

4.5: Inorganic Pigment in the ROW Speciality Dye and Pigment Market

4.5.1: Inorganic Pigment in the ROW Speciality Dye and Pigment Market by Pigment Type: Titanium Dioxide, Iron Oxide, Carbon Black, and Others

4.5.2: Inorganic Pigment in the ROW Speciality Dye and Pigment Market by End Use Industry: Building & Construction, Automotive, Packaging, Paper & Printing, Textiles, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for Inorganic Pigment in the Global Speciality Dye and Pigment Market by Pigment Type

6.1.2: Growth Opportunities for Inorganic Pigment in the Global Speciality Dye and

Pigment Market by Core Material

6.1.3: Growth Opportunities for Inorganic Pigment in the Global Speciality Dye and Pigment Market by End Use Industry

6.1.4: Growth Opportunities for Inorganic Pigment in the Global Speciality Dye and Pigment Market by Region

6.2: Emerging Trends of Inorganic Pigment in the Global Speciality Dye and Pigment Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of Inorganic Pigment in the Global Speciality Dye and Pigment Market

6.3.3: Mergers, Acquisitions, and Joint Ventures of Inorganic Pigment in the Global Speciality Dye and Pigment Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Venator

7.2: The Chemours Company

7.3: Tronox

7.4: Kronos Worldwide

7.5: BASF SE
