Digital Light Processing (DLP) will remain the largest technology segment due to low maintenance, compact size, good contrast images, and better response time.

Education will remain the largest end use industry during the forecast period due to growth in government investment in the education sector, as interactive projectors can increase student engagement and help in collaborative learnings.

North America will remain the largest region during the forecast period due to increasing awareness among end users and advanced technology adoption by the education and corporate end use industries.

Some of the interactive projector companies profiled in this report include Seiko Epson, BenQ, Mimio Boxlight, Dell Technologies, Panasonic, CASIO COMPUTER, NEC Display Solutions, Optoma Technology, Touchjet, and Delta Electronics.

Features of Interactive Projector Market

Market Size Estimates: Interactive projector market size estimation in terms of value (\$M) **Trend and Forecast Analysis:** Market trends (2015-2020) and forecast (2021-2026) by various segments and regions. **Segmentation Analysis:** Market size by technology, projection distance, dimension and end use industry **Regional Analysis:** Interactive projector market breakdown by North America, Europe, Asia Pacific, and the Rest of the World. **Growth Opportunities:** Analysis on growth opportunities in different end use industries, technology, projection distance, dimension, and regions for interactive projector market. **Strategic Analysis:** This includes M&A, new product development, and

competitive landscape for the interactive projector market. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global interactive projector market by technology (DLP, LCD, and LCoS), projection distance (ultra short throw, short throw, and standard throw), dimension (2D and 3D), resolution (1920*1080 and 1920*720, 1280*800, 1024*768, and others (854*480)), end use industry (education, corporate, governments, healthcare, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the interactive projector market?

Q.5 What are the business risks and threats to the interactive projector market?

Q.6 What are the emerging trends in the interactive projector market and the reasons behind them?

Q.7 What are some changing demands of customers in the interactive projector market?

Q.8 What are the new developments in the interactive projector market? Which companies are leading these developments?

Q.9 Who are the major players in the interactive projector market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the interactive projector market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the interactive projector market?
